Point Counterpoint Opposing Perspectives On Issues Of Drug Policy:

Point/counterpoint Charles F. Levinthal, 2003 The world of legal and illegal drugs is examined from a sociological historical and biological perspective through articles garnered from popular magazines medical journals and government documents The book opens with selections on the question of drug legalization and then extends the parameters of the discussion to the social implications of drug policy Next the prevention and medicalization of drug dependency and abuse are considered in light of recently published research Finally the government's role in decriminalization and regulation of marijuana and prescription drugs is investigated and critiqued Designed for educators that focus on drugs and alcohol use and abuse in both psychology and health departments

Principle Over Politics? Rosanna Perotti, 2004-03-30 Cabinet members journalists who covered Washington in the 1980s and scholars who have been reassessing the George H W Bush presidency detail his domestic policy The key areas covered include the economy the budget the disabled civil rights health science and technology In addition the volume examines his emphasis on volunteerism As the essays make clear Bush's domestic policy stands in vivid contrast to his foreign policy While his stewardship in the latter area won him praise and popularity many of his decisions in the domestic sphere brought criticism from both the left and right and proved politically disastrous playing a key role in his 1992 election defeat Although some accuse Bush of disengagement and disinterest in domestic affairs the prevailing opinion voiced at the Bush Presidency Conference which provided the basis for this and other companion volumes was that the president's domestic policies were characterized by a deep commitment to principle and pursuit of the public interest even at the expense of political considerations Indeed many argue that the Bush administration pursued policies that were both well intentioned and ultimately successful but failed to communicate them successfully to the public While some of the blame for this lies with a hostile news media and simple bad luck especially the economic downturn beginning in 1991 much of the responsibility appears to rest with President Bush himself a man reluctant to tout his successes and sully himself in partisan political combat Thus the picture that emerges of George H W Bush in this volume is that of a decent principled man whose accomplishments in the domestic arena were unfairly devalued and widely misunderstood
