Ellis, 1999 At a time when the institution of the presidency seems in a state of almost permanent crisis it is particularly important to understand what sort of an institution the framers of the Constitution thought they were creating Founding the American Presidency offers a first hand view of the minds of the founders by bringing together extensive selections from the constitutional convention in Philadelphia as well as representative selections from the subsequent debates over ratification Organized topically the book focuses on those issues of executive power that most deeply concerned and often sharply divided the founders including the electoral college and impeachment the presidential term and reeligibility the veto power and war powers the power of appointment and the power of pardon Ellis's judicious selections mean that teachers and students no longer need to settle for the meager rations of a Federalist paper or two supplemented by a quick summary of the founders thoughts before being fast forwarded to the contemporary presidency Pointed discussion questions provoke students to consider new perspectives on the presidency Ideal for all courses on the presidency the book is also important for all citizens who want to understand not only the past but the future of the American presidency      *Conventional Wisdom and American Elections* Jody C. Baumgartner, Peter L. Francia, 2008 List of illustrations Preface pt 1 Voters 1 The big year for the youth vote myth and reality 2 The America divided myth red states blue states and other gaps 3 The myth of the vanishing

voters and the rise of the independent voter pt 2 Following campaigns 4 Misconceptions about the e campaign what the Internet can and cannot do for political campaigns 5 Myth or reality presidential campaigns have become nastier 6 Science or voodoo misconceptions about national election polls 7 It s the ratings stupid misconceptions about media bias 8 Adime s worth of difference political parties and the myth of Tweedledum and Tweedledee pt 3 Understanding election outcomes 9 Selling of the president the image is everything myth 10 Themisconception of competitive congressional elections 11 Presidential campaigns and kingmaker states the myth of a national contest Notes Index About the authors     Among Our Books Carnegie Library of Pittsburgh,1913     Monthly Bulletin of the Carnegie Library of Pittsburgh Carnegie Library of Pittsburgh,1913     History Teacher's Magazine ,1918     *The High School* ,1928     **From the Primaries to the Polls** Thomas Gangale,2007-12-30 America s presidential nominating process is inherently unfair and exclusive yielding undue weight and privilege to the states that vote in the earliest rounds More and more states are beating down the door to vote earlier trying to redress the inequity on a state by state basis In the ensuing free for all the presidential primary schedule has become so front loaded that the anointed front runner with the biggest war chest in each of the major parties is the de facto nominee The primaries are becoming mere noise and pageantry as the national conventions have been for several decades From the Primaries to the Polls describes the problem and proposes the solution The American Plan is designed to begin with contests in small population states where candidates do not need millions of dollars to compete and a wide field of presidential hopefuls can be competitive in the early going A minor candidate s surprise success in early rounds based on merit rather than money tends to attract money from larger numbers of small contributors for the campaign to spend in later rounds of primaries Keeping more candidates in the race longer to challenge to the front runners prevents a rush to judgment and permits more voters across the country to select from a diverse field As the campaign proceeds over ten two week intervals of primaries and caucuses on a semi randomized schedule the aggregate value of contested states becomes successively larger requiring the expenditure of larger amounts of money in order to campaign effectively A more gradual weeding out process occurs allowing a clear winner to emerge only after the full spectrum of candidates has been in play nationally     **The Social Studies** ,1925
