Poisoned Bowl Sex And The Public School:

The Poisoned Bowl Alisdare Hickson, 1995 The architecture and organization of today's boarding school is to a great extent the product of over one hundred years of homophobia One might imagine that the post Tom Brown evolution of the boarding school was conditioned by the gradual ascendancy of liberal reformers over uncompromising traditionalists Such a verdict would be highly misleading for the great reforming headmasters also had an illiberal agenda the desire to manage the sexuality of adolescent boys and above all to prevent any manifestation of homosexuality Dr Hickson puts forward his thesis at the outset based on evidence drawn from biographies novels diaries and school histories but the greater part of the book is made up of anecdotal accounts and memories obtained by the author from old boys of various backgrounds including generals members of parliament headmasters and leading figures from the clergy the legal professions and the City BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Poisoned Bowl** Alisdare Hickson, 1996 This is an anecdotal history of sex in public schools containing the reminiscences of over 100 contributors including Alan Ayckbourn Quentin Crisp the late film director Lindsay Anderson and numerous sundry generals academics religious figures and Members of Parliament With recollections on events from petting in the boathouse at Lancing to prostitution at Eton the book charts the many ludicrous ways public schools have attempted to control sexuality The book provides a history of homosexuality in the English public school system and the hysteria that raged through public schools for more than a century Secreted Desires Michael Matthew Kaylor, 2006 **Trauma, Abandonment and Privilege** Nick Duffell, Thurstine Basset, 2016-04-14 Trauma Abandonment and Privilege discusses how ex boarders can be amongst the most challenging clients for therapists even experienced therapists may unwittingly struggle to skilfully address the needs of this client group It looks at the effect on adults of being sent away to board in childhood and the problems associated with boarding which have only recently been acknowledged by mainstream mental health professionals This practice based book is illustrated by case studies diagrams and exercises and is divided into three parts Recognition Acceptance Change It aims to help readers understand the emotional processes of boarding and the psychological aspects of survival outlining the steps toward recovery and the repercussions of survival The book also explores how ex boarders frequently struggle with intimate relationships with spouses and partners and offers interventions and strategies for those working with ex boarder clients Trauma Abandonment and Privilege will be of interest to therapists counsellors and mental health workers across the UK It will also be relevant to those who are well acquainted with boarding schools based on the UK model for example in Canada Australia New Zealand and India A History of Gay Literature Gregory Woods, 1998-01-01 Account of male gay literature across cultures and languages and from ancient times to the present It traces writing by and about homosexual men from ancient Greece and Rome through the Middle Ages and Renaissance to the twentieth century gay literary explosion It includes writers of wide ranging literary status from high cultural icons like Virgil Dante Marlowe Shakespeare and Proust to

popular novelists like Clive Barker and Dashiell Hammett and of various locations from Mishima's Tokyo and Abu Nuwas's Baghdad to David Leavitt's New York. It also deals with representations of male-male love by writers who were not themselves homosexual or bisexual men. Gender, Colonialism and Education Joyce Goodman, Jane Martin, 2013-04-15 An examination of the ways in which gender intersects with informal and formal education in England, Germany, Indonesia, South Africa, USA and the Netherlands. The book looks at various issues including citizenship, authority, colonialism and education and the construction of national identities. **Wounded Leaders** Nick Duffell, 2016-08-24 Political leaders in Britain are consistently drawn from a class born to be educated away from their families in institutions, elite boarding schools. This has a direct effect on their ability to love, to relate, to make good judgments and to develop the necessary leadership qualities for today's world. In this controversial and highly acclaimed book, the author guides the reader along the elite path through boarding school and Oxbridge to government, unpacking what he calls the Entitlement Illusion. Central to the Illusion is a uniquely British phenomenon: an industrialised process for turning out servants of the Empire that has been unwilling to change with the times. It was deified in the Victorian Rational Man Project and normalised by the British public, who still buy into the trance. Up-to-date evidence from Neuroscience shows what a poor training for leadership this actually is.

Scholarship and Controversy Stephen Halliwell, Christopher Stray, 2023-03-09 The essays collected in this volume were written to mark the centenary of the birth of Sir Kenneth Dover, one of the twentieth century's most influential classical scholars. Between them, they explore the two major sides of his career: his groundbreaking scholarship on Greek language, literature and history, and the more public-facing roles he assumed in universities and at the British Academy, which brought him into the national spotlight, not without some notoriety in his later years. The contributors consider the various facets of Dover's life and work from a range of perspectives which reflect the burgeoning field of the history of scholarship. Some contributors were students and colleagues of Dover's at different stages of his career, while others are themselves leading experts in areas of Classics to which he devoted his energies. Chapters on his academic publications and on the controversies he faced in the public realm are not bland celebrations of his legacy but offer critical assessments of his motivations and achievements, cumulatively demonstrating that there is much to be learned, not just about Dover himself but also about the fields he helped to shape. *G. Evelyn Hutchinson and the Invention of Modern Ecology* Nancy G. Slack, 2010-01-01 Slack enjoyed full access to Hutchinson's archives and conducted extensive interviews both with Hutchinson himself and with his students, colleagues and friends. She evaluates his contributions to theoretical ecology, limnology, the study of fresh water ecosystems, biogeochemistry, population ecology and the creation of the new fields of systems ecology and radiation ecology, and she discusses his profound influence as a mentor. The book also looks into his personal life, which included three very different wives, a refugee baby under his care during World War II, friendships with such contemporaries as Rebecca West, Margaret Mead and Gregory Bateson, and a host of colleagues and friends on four continents. Filled with information

available nowhere else this book draws a vibrant portrait of a giant in the discipline of twentieth century ecology who was also a man of remarkable personal appeal Book Jacket *Rape* Joanna Bourke, 2009-06-30 Joanna Bourke takes the issue of rape out from the academic ghettos and distills the truth so often exploited to sell newspapers Neither prurient nor overly sympathetic she investigates rape from a historical standpoint examining the history of sexual aggression the idea of rape as a social construct and the often ignored idea of embodiment and analyzes the physical response of rapists as well as the often cited rape is about power theories Indebted to a growing body of sophisticated feminist analyses about rape victims Bourke here shifts the emphasis from the victims to the perpetrators in order to place rapists in their historical context An invaluable study this book delivers the hard truth that if we are to imagine a world free of unwanted sexual violence then we must consider the issue of rape from every angle **The Political Self** Roderick Tweedy, 2018-03-29 This book explores how our social and economic contexts profoundly affect our mental health and wellbeing and how modern neuroscientific and psychodynamic research can both contribute to and enrich our understanding of these wider discussions It therefore looks both inside and outside indeed one of the main themes of *The Political Self* is that the conceptually discrete categories of inner and outer in reality constantly interact shape and inform each other Severing these two worlds it suggests has led both to a devitalised and dissociated form of politics and to a disengaged and disempowering form of therapy and analysis **A**
