Poisoned Lives Katherine D. Watson, 2006-08-23 Here is a valuable and fascinating piece of social history Watson sheds new light on a macabre yet frequently misunderstood subject      **King of Poisons** John Parascandola, 2012 Murder and chemical warfare most foul      The Poison Paradox John Timbrell, 2005-06-23 Using reported disasters and everyday examples this book examines both natural and man made chemicals that we are exposed to Illuminating the world of toxicology it explains how they are toxic and the different reactions that individuals have to them It also aims to debunk the popular belief that Natural is good Man made is bad      *The Poison Plot* Elaine Forman Crane, 2018-05-15 An accusation of attempted murder rudely interrupted Mary Arnold's dalliances with working men and her extensive shopping sprees When her husband Benedict fell deathly ill and then asserted she had tried to kill him with poison the result was a dramatic petition for divorce The case before the Rhode Island General Assembly and its tumultuous aftermath during which Benedict died made Mary a cause célèbre in Newport through the winter of 1738 and 1739 Elaine Forman Crane invites readers into the salacious domestic life of Mary and Benedict Arnold and reveals the seamy side of colonial Newport The surprise of *The Poison Plot* however is not the outrageous acts of Mary or the peculiar fact that attempted murder was not a convictable offense in Rhode Island As Crane shows with style Mary's case was remarkable precisely because adultery criminality and theft and even spousal homicide were well known in the New England colonies Assumptions of Puritan propriety are overturned by the facts of rough and tumble life in a port city money was to be made pleasure was to be had and if marriage became an obstacle to those pursuits a woman had means to set things right *The Poison Plot* is an intimate drama constructed from historical documents and informed by Crane's deep knowledge of elite and common life in Newport Her keen eye for telling details and her sense of story bring Mary Benedict and a host of other characters including her partner in adultery Walter Motley and John Tweedy the apothecary who sold Mary toxic drugs to life in the homes streets and shops of the port city The result is a vivid tale that will change minds about life in supposedly prim and proper New England

**Murder by Poison** Nicola Sly, 2011-10-30 Murder by poison is often thought of as a crime mainly committed by women usually to despatch an unwanted spouse or children While there are indeed many infamous female poisoners such as Mary Ann Cotton who is believed to have claimed at least twenty victims between 1860 and 1872 and Mary Wilson who killed her husbands and lovers in the 1950s for the proceeds of their insurance policies there are also many men who chose poison as their preferred means to deadly end Dr Thomas Neil Cream poisoned five people between 1881 and 1892 and was connected with several earlier suspicious deaths while Staffordshire doctor William Palmer murdered at least ten victims between 1842 and 1856 Readily obtainable and almost undetectable prior to advances in forensic science during the twentieth century poison was considered the ideal method of murder and many of its exponents failed to stop at just one victim Along with the most notorious case of murder by poison in the country this book also features many of the cases that did not make national

headlines examining not only the methods and motives but also the real stories of the perpetrators and their victims      *The Case of the Chocolate Cream Killer* Kaye Jones, 2016-06-30 The true story of the seemingly respectable woman convicted of a murderous spree in Victorian era Brighton England In 1871 when the news broke of a series of mysterious poisonings in the popular resort town of Brighton shock and horror gripped the public Even more disturbing was the revelation that the culprit was not a common criminal but a local lady of fortune Christiana Edmunds Starting in March Christiana had sent out dozens of poisoned chocolates and sweets to Brighton s residents Her campaign resulted in the death of four year old vacationer Sidney Barker and wounded countless others Her arrest in August provoked such an emotional response from the local public that her trial was moved from Brighton to London s Old Bailey The prosecution anticipated an easy victory Christiana had not confessed but witnesses confirmed she had purchased strychnine and their testimonies placed her at the scenes of the crimes She had a motive too argued the prosecution she was a scorned woman Despite the defense s best efforts the jury took only one hour to convict her of the murder of Sidney Barker and the attempted murder of three others This book tells the engrossing story of the crime the trial the darker underworld of Victorian Brighton and the ultimate fate of Christiana Edmunds      *Forensic Medicine in Western Society* Katherine D. Watson, 2010-11-01 The first book of its kind Forensic Medicine in Western Society A History draws on the most recent developments in the historiography to provide an overview of the history of forensic medicine in the West from the medieval period to the present day Taking an international comparative perspective on the changing nature of the relationship between medicine law and society it examines the growth of medico legal ideas institutions and practices in Britain Europe principally France Italy and Germany and the United States Following a thematic structure within a broad chronological framework the book focuses on practitioners the development of notions of expertise and the rise of the expert the main areas of the criminal law to which forensic medicine contributed medical attitudes towards the victims and perpetrators of crime and the wider influences such attitudes had It thus develops an understanding of how medicine has played an active part in shaping legal political and social change Including case studies which provide a narrative context to tie forensic medicine to the societies in which it was practiced and a further reading section at the end of each chapter Katherine D Watson creates a vivid portrait of a topic of relevance to social historians and students of the history of medicine law and crime      **A History of Forensic Science** Alison Adam, 2015-11-19 How and when did forensic science originate in the UK This question demands our attention because our understanding of present day forensic science is vastly enriched through gaining an appreciation of what went before A History of Forensic Science is the first book to consider the wide spectrum of influences which went into creating the discipline in Britain in the first part of the twentieth century This book offers a history of the development of forensic sciences centred on the UK but with consideration of continental and colonial influences from around 1880 to approximately 1940 This period was central to the formation of a separate discipline of forensic science with a distinct professional identity

and this book charts the strategies of the new forensic scientists to gain an authoritative voice in the courtroom and to forge a professional identity in the space between forensic medicine scientific policing and independent expert witnessing In so doing it improves our understanding of how forensic science developed as it did This book is essential reading for academics and students engaged in the study of criminology the history of forensic science science and technology studies and the history of policing

*Crime and the Construction of Forensic Objectivity from 1850* Alison Adam, 2019-11-28 This book charts the historical development of forensic objectivity through an analysis of the ways in which objective knowledge of crimes crime scenes crime materials and criminals is achieved Taking an interdisciplinary approach with authors drawn from law history sociology and science and technology studies this work shows how forensic objectivity is constructed through detailed crime history case studies mainly in relation to murder set in Scotland England Germany Sweden USA and Ireland Starting from the mid nineteenth century and continuing to the present day the book argues that a number of developments were crucial These include the beginning of crime photography the use of diagrams and models specially constructed for the courtroom so jurors could be virtual witnesses probabilistic models of certainty the professionalization of medical and scientific expert witnesses and their networks ways of measuring recording and developing criminal records and the role of the media particularly newspapers in reporting on crime criminals and legal proceedings and their part in the shaping of public opinion on crime This essential title demonstrates the ways in which forensic objectivity has become a central concept in relation to criminal justice over a period spanning 170 years

*Beyond Deviant Damsels* Anne-Marie Kilday, David Nash, 2023 *Beyond Deviant Damsels* offers a new interpretation of women s criminality in the nineteenth century countering assumptions that women commit crime in highly gendered ways and questioning the value of using stereotypes to analyse criminality an approach that marginalises the importance of circumstances and individual choice

**Women in Medicine in Nineteenth-Century American Literature** Sara L. Crosby,2018-09-14 This book investigates how popular American literature and film transformed the poisonous woman from a misogynist figure used to exclude women and minorities from political power into a feminist hero used to justify the expansion of their public roles Sara Crosby locates the origins of this metamorphosis in Uncle Tom s Cabin where Harriet Beecher Stowe applied an alternative medical discourse to revise the poisonous Cassy into a doctor The newly medicalized poisoner then served as a focal point for two competing narratives that envisioned the American nation as a multi racial egalitarian democracy or as a white and male supremacist ethno state Crosby tracks this battle from the heroic healers created by Stowe Mary Webb Oscar Micheaux and Louisa May Alcott to the even more monstrous poisoners or vampires imagined by E D E N Southworth Oliver Wendell Holmes Theda Bara Thomas Dixon Jr and D W Griffith

**Medical Marginality in South Asia** David Hardiman,Projit Bihari Mukharji,2013-05-07 Examining the world of popular healing in South Asia this book looks at the way that it is marginalised by the state and medical establishment while at the same time being very important in the everyday lives of the poor It describes and analyses a world of subaltern therapeutics that both interacts with and resists state sanctioned and elite forms of medical practice The relationship is seen as both a historical as well as ongoing one Focusing on those who exist and practice in the shadow of statist medicine the book discusses the many ways in which they try to heal a range of maladies and how they experience their marginality The contributors also provide a history of such therapeutics in the process challenging the widespread belief that such traditional therapeutics are relatively static and unchanging In focusing on these problems of transition they open up one of the central concerns of subaltern historiography This is an important contribution to the history of medicine and society and subaltern and South Asian studies
