Galileo's Logical Treatises W. A. Wallace,2012-12-06 Hard as it is to believe what is possibly Galileo s most important Latin manuscript was not transcribed for the National Edition of his works and so has remained hidden from scholars for centuries In this volume William A Wallace translates the logical treatises contained in that manuscript and makes them intelligible to the modern reader He prefaces his translation with a lengthy introduction describing the contents of the manuscript the sources from which it derives its dating and how it relates to Galileo s other Pisan writings The translation is accompanied by extensive notes and commentary these explain the text and tie it to the fuller exposition of Galileo s logical methodology in the author s companion volume Galileo s Logic of Discovery and Proof The result is a research tool that is indispensable for anyone intent on understanding Galileo s logic as described in that volume and the documentary evidence on which it is based     **Polish Law Throughout the Ages** Wenceslas J.
