**Advances in Engineering and Information Science Toward Smart City and Beyond** Ryoichi Shinkuma, Fatos Xhafa, Takayuki Nishio, 2023-05-24 This book presents advances on the state of the art in smart cities systems and applications based on the proof of concept and prototyping for smart cities in an interdisciplinary context of engineering and information sciences Smart cities have emerged as highly complex technological endeavors that combine knowledge and technology from many disciplines ranging from information sciences to engineering Due to their complex nature the modeling development and prototyping of applications in smart cities present a myriad of challenges

including technical economic and social ones across application subdomains such as smart transportation social welfare tourism and smart industry It becomes difficult or sometimes impossible to provide a solution for such potential research issues and challenges from a traditional disciplinary approach only to tackle such research issues and to make the paradigm of smart cities a reality interdisciplinary approaches are deemed necessary Readers developers practitioners and policy makers in the field find in the book insights experiences findings and perspectives on smart cities applications with an emphasis on real life prototyping beyond the confines of laboratory experiments

**Beyond the Persecuting Society** John Christian Laursen, Cary J. Nederman, 2011-07-18 There is a myth easily shattered that Western societies since the Enlightenment have been dedicated to the ideal of protecting the differences between individuals and groups and another too readily accepted that before the rise of secularism in the modern period intolerance and persecution held sway throughout Europe In *Beyond the Persecuting Society* John Christian Laursen Cary J Nederman and nine other scholars dismantle this second generalization If intolerance and religious persecution have been at the root of some of the greatest suffering in human history it is nevertheless the case that toleration was practiced and theorized in medieval and early modern Europe on a scale few have realized Christians and Jews the English French Germans Dutch Swiss Italians and Spanish had their proponents of and experiments with tolerance well before John Locke penned his famous Letter Concerning Toleration Moving from Abelard to Aphra Behn from the apology for the gentiles of the fourteenth century Talmudic scholar Menahem ben Solomon Ha Meiri to the rejection of intolerance in the New Israel of the Massachusetts Bay Colony *Beyond the Persecuting Society* offers a detailed and decisive correction to a vision of the past as any less complex in its embrace and abhorrence of diversity than the present
