Polemic Critical Or Uncritical:

Polemic Jane Gallop, 2004 These new essays by leading scholars examine some famous and less well known instances of polemical encounters The essays are enhanced by an interview with Gayatri Spivak specially conducted by Jane Gallop for this volume Historically rigorous theoretically astute and sometimes wickedly funny Polemic makes criticism a critical issue

Polemic Almut Suerbaum, George Southcombe, 2016-03-03 If terms are associated with particular historical periods then polemic is firmly rooted within early modern print culture the apparently inevitable result of religious controversy and the rise of print media Taking a broad European approach this collection brings together specialists on medieval as well as early modern culture in order to challenge stubborn assumptions that medieval culture was homogenous and characterized by consensus and that literary discourse is by nature eirenic Instead the volume shows more clearly the continuities and discontinuities especially how medieval discourse on the sins of the tongue continued into early modern discussion how popular and influential medieval genres such as sermons and hagiography dealt with potentially heterodox positions and the role of literary especially fictional debate in developing modes of articulating discord as well as demonstrating polemic in action in political and ecclesiastical debate Within this historical context the position of early modern debates as part of a more general culture of articulating discord becomes more clearly visible The structure of the volume moves from an internal textual focus where the nature of polemic can be debated through a middle section where these concerns are also played out in social practice to a more historical group investigating applied polemic In this way a more nuanced view is provided of the meaning role and effect of polemic both broadly across time and space and more narrowly within specific circumstances

Intra-Muslim Polemics in South India Nandagopal R. Menon, 2024-03-14 How do we understand differences and disputes among various branches of Islam This book places intimacies rather than radical incompatibilities at the centre of its in depth ethnographic account of mass publicized theological polemics among Sunni Muslims in the south Indian state of Kerala What unites Muslims of different Sunni groups also divides them and incites polemics Islam as a shared system of knowledge and practices bonds of kinship and other social relations and the common condition of being a beleaguered religious minority in a Hindu majoritarian democracy Diverging from works that have focused on how Islamic practices like ritual prayers facilitate the fashioning of theologically grounded pious selves the book argues that intra Muslim polemics marginalize theology and have little to do with cultivating piety Instead polemics constitute inter and intra religious socialities enable Muslims to articulate their connections to India and other imaginaries and produce Islam as a public religion in a secular nation state

Reclaiming Queer Erin J. Rand, 2014-05-19 The activist reclamation of the word queer is one marker of this shift in ideology and practice and it was mirrored in academic circles by the concurrent emergence of the new field of queer theory That is as queer activists were mobilizing in the streets queer theorists were producing a similar foment in the halls and publications of academia questioning regulatory categories of gender and sexuality and attempting to illuminate the

heteronormative foundations of Western thought Notably the narrative of queer theory's development often describes it as arising from or being inspired by queer activism In *Reclaiming Queer* Erin J Rand examines both queer activist and academic practices during this period taking as her primary object the rhetorical linkage of queer theory in the academy with street level queer activism

On Interpretive Conflict John Frow, 2019-08-13 Interpretation is a term that encompasses both the most esoteric and the most fundamental activities of our lives from analyzing medical images to the million ways we perceive other people's actions Today we also leave interpretation to the likes of web cookies social media algorithms and automated markets But as John Frow shows in this thoughtfully argued book there is much yet to do in clarifying how we understand the social organization of interpretation *On Interpretive Conflict* delves into four case studies where sharply different sets of values come into play gun control anti-Semitism the religious force of images and climate change In each case Frow lays out the way these controversies unfold within interpretive regimes that establish what counts as an interpretable object and the protocols of evidence and proof that should govern it Whether applied to a Shakespeare play or a Supreme Court case interpretation he argues is at once rule governed and inherently conflictual Ambitious and provocative *On Interpretive Conflict* will attract readers from across the humanities and beyond

Invoking Slavery in the Eighteenth-Century British Imagination Srividhya

Swaminathan, Adam R. Beach, 2016-05-06 In the eighteenth century audiences in Great Britain understood the term slavery to refer to a range of physical and metaphysical conditions beyond the transatlantic slave trade Literary representations of slavery encompassed tales of Barbary captivity the exotic slaving practices of the Ottoman Empire the political enslavement practiced by government or church and even the harsh life of servants under a cruel master Arguing that literary and cultural studies have focused too narrowly on slavery as a term that refers almost exclusively to the race based chattel enslavement of sub Saharan Africans transported to the New World the contributors suggest that these analyses foreclose

deeper discussion of other associations of the term They suggest that the term slavery became a powerful rhetorical device for helping British audiences gain a new perspective on their own position with respect to their government and the global sphere Far from eliding the real and important differences between slave systems operating in the Atlantic world this collection is a starting point for understanding how slavery as a concept came to encompass many forms of unfree labor and metaphorical bondage precisely because of the power of association

Channeling Moroccanness Becky L.

Schulthies,2020-12-01 Honorable Mention 2022 L Carl Brown AIMS Book Prize in North African Studies What does it mean to connect as a people through mass media This book approaches that question by exploring how Moroccans engage communicative failure as they seek to shape social and political relations in urban Fez Over the last decade laments of language and media failure in Fez have focused not just on social relations that used to be and have been lost but also on what ought to be and had yet to be realized Such laments have transpired in a range of communication channels from objects such as devotional prayer beads and remote controls to interactional forms such as storytelling dress styles and orthography to media platforms like television news religious stations or WhatsApp group chats Channeling Moroccanness examines these laments as ways of speaking that created Moroccanness the feeling of participating in the ongoing formations of Moroccan relationality Rather than furthering the discourse about Morocco s conflict between liberal secularists and religious conservatives this ethnography shows the subtle range of ideologies and practices evoked in Fassi homes to calibrate Moroccan sociality and political consciousness

Travel Writing from Black Australia Robert Clarke,2015-11-19

Over the past thirty years the Australian travel experience has been Aboriginalized Aboriginality has been appropriated to furnish the Australian nation with a unique and identifiable tourist brand This is deeply ironic given the realities of life for many Aboriginal people in Australian society On the one hand Aboriginality in the form of artworks literature performances landscapes sport and famous individuals is celebrated for the way it blends exoticism mysticism multiculturalism nationalism and reconciliation On the other hand in the media cinema and travel writing Aboriginality in the form of the lived experiences of Aboriginal people has been exploited in the service of moral panic patronized in the name of white benevolence or simply ignored For many travel writers this irony the clash between different regimes of valuing Aboriginality is one of the great challenges to travelling in Australia Travel Writing from Black Australia examines the ambivalence of contemporary travelers engagements with Aboriginality Concentrating on a period marked by the rise of discourses on Aboriginality championing indigenous empowerment self determination and reconciliation the author analyses how travel to Black Australia has become for many travelers a means of discovering new and potentially transformative styles of interracial engagement

Reading and the Making of Time in the Eighteenth Century Christina Lupton,2018-08-15

How did eighteenth century readers find and make time to read Books have always posed a problem of time for readers Becoming widely available in the eighteenth century when working hours increased and lighter and quicker forms of reading newspapers magazines broadsheets surged

in popularity the material form of the codex book invited readers to situate themselves creatively in time Drawing on letters diaries reading logs and a range of eighteenth and early nineteenth century novels Christina Lupton's *Reading and the Making of Time in the Eighteenth Century* concretely describes how book readers of the past carved up expanded and anticipated time Placing canonical works by Elizabeth Inchbald Henry Fielding Amelia Opie and Samuel Richardson alongside those of lesser known authors and readers Lupton approaches books as objects that are good at attracting particular forms of attention and paths of return In contrast to the digital interfaces of our own moment and the ephemeral newspapers and pamphlets read in the 1700s books are rarely seen as shaping or keeping modern time However as Lupton demonstrates books are often put down and picked up they are leafed through as well as read sequentially and they are handed on as objects designed to bridge temporal distances In showing how discourse itself engages with these material practices Lupton argues that reading is something to be studied textually as well as historically Applying modern theorists such as Niklas Luhmann Bruno Latour and Bernard Stiegler Lupton offers a rare phenomenological approach to the study of a concrete historical field This compelling book stands out for the combination of archival research smart theoretical inquiry and autobiographical reflection it brings into play

Spaces of Feeling Marta Figlerowicz, 2017-12-15 Can other people notice our affects more easily than we do In *Spaces of Feeling* Marta Figlerowicz examines modernist novels and poems that treat this possibility as electrifying but also deeply disturbing Their characters and lyric speakers are undone Figlerowicz posits by the realization that they depend on others to solve their inward affective conundrums and that to these other people their feelings often do not seem mysterious at all *Spaces of Feeling* features close readings of works by Virginia Woolf James Baldwin John Ashbery Ralph Ellison Marcel Proust F Scott Fitzgerald Sylvia Plath

and Wallace Stevens Figlerowicz points out that these poets and novelists often place their protagonists in domestic spaces such as bedrooms living rooms and basements in which their cognitive dependence on other characters inhabiting these spaces becomes clear Figlerowicz highlights the diversity of aesthetic and sociopolitical contexts in which these affective dependencies become central to these authors representations of selfhood By setting these novels and poems in conversation with the work of contemporary theorists she illuminates pressing and unanswered questions about subjectivity

Virtual Play and the Victorian Novel Timothy Gao, 2021-04-15 Pondering the town he had invented in his novels Anthony Trollope had so realised the place and the people and the facts of Barset that the pavement of the city ways are familiar to my footsteps After his novels end William Thackeray wonders where his characters now live and misses their conversation How can we understand the novel as a form of artificial reality Timothy Gao proposes a history of virtual realities stemming from the imaginary worlds created by novelists like Trollope Thackeray Charlotte Bronte and Charles Dickens Departing from established historical or didactic understandings of Victorian fiction *Virtual Play and the Victorian Novel* recovers the period's fascination with imagined places people and facts This text provides a short history of virtual experiences in literature four studies of major novelists and an innovative approach for scholars and students to interpret realist fictions and fictional realities from before the digital age This title is also available as Open Access on Cambridge Core

Figures of Speech Tim Cassedy, 2019-01-03 Tim Cassedy's fascinating study examines the role that language played at the turn of the nineteenth century as a marker of one's identity During this time of revolution U S French and Haitian and globalization language served as a way to categorize people within a world that appeared more diverse than ever Linguistic differences especially among English speakers seemed to validate the emerging national racial local and regional identity categories that took shape in this new world order Focusing on six eccentric characters of the time from the woman known as Princess Caraboo to wordsmith Noah Webster Cassedy shows how each put language at the center of their identities and lived out the possibilities of their era's linguistic ideas The result is a highly entertaining and equally informative look at how perceptions about who spoke what language and how they spoke it determined the shape of communities in the British American colonies and beyond This engagingly written story is sure to appeal to historians of literature culture and communication to linguists and book historians and to general readers interested in how ideas about English developed in the early United States and throughout the English speaking world
