Police And Public Order In Europe:

Police and Public Order in Europe John Roach, Jürgen Thomanek, 2023-03-31 Originally published in 1985 *Police and Public Order in Europe* examines the development of the police in Western Europe and considers how police functions have changed over time Each contributor looks at the experience of one country while having regard to the practices of the other countries The role of the police in maintaining public order had become increasingly important in the early 1980s The activities of terrorists from both Left and Right in Italy Spain and West Germany and the IRA in Great Britain had long been a focus of attention However in many ways a more disturbing phenomenon was the increase in the general level of popular unrest which had produced considerable rioting and looting in British cities as well as often violent confrontation between the police and an increasing range of protesters in other European countries These events received wide media coverage at the time and the issue of public order was one of growing concern for governments the police and the public The role of the police in Western Europe was now firmly political

Can the European Court of Human Rights Shape European Public Order? Kanstantsin Dzehtsiarou, 2021-12-02 In this book Kanstantsin Dzehtsiarou argues that from the legal perspective the formula European public order is excessively vague and does not have an identifiable meaning therefore it should not be used by the European Court of Human Rights ECtHR in its reasoning However European public order can also be understood as an analytical concept which does not require a clearly defined content In this sense the ECtHR can impact European public order but cannot strategically shape it The Court's impact is a by product of individual cases which create a feedback loop with the contracting states European public order is influenced as a result of interaction between the Court and the contracting parties This book uses a wide range of sources and evidence to substantiate its core arguments from a comprehensive analysis of the Court's case law to research interviews with the judges of the ECtHR

control policies in Europe **European Peace and Security Policy** Michael Brzoska, 2015-03-26 After the attacks of 9 11 terrorism and other forms of transnational risks of violence dominated official security policy Researchers at the Institute for Peace Research and Security Policy at the University of Hamburg investigated the consequences of this change for security governance in a multi annual research program Case studies show that transnational security policies changed but that national governments remained dominant In other words the transnationalisation of threat perceptions only led to a limited internationalisation of security policies The volume presents results of the research program It combines conceptual work on security governance with empirical research for instance on counterterrorism changing perceptions of security in international organizations such as the European Union and the Organization for Security and Co operation in Europe

The Policing of Politics in the Twentieth Century Mark Mazower, 1997 The role of the police has from its beginnings been ambiguous even janus faced This volume focuses on one of its controversial aspects by showing how the police have been utilized in the past by regimes in Europe the USA and the British Empire to check political dissent and social unrest Ideologies such as anti Communism emerge as significant influences in both democracies and dictatorships And by shedding new light on policing continuities in twentieth century Germany and Italy as well as Interpol this volume questions the compatibility of democratic government and political policing Elgar Encyclopedia of European Union Public Policy Paolo R. Graziano, Jale Tosun, 2022-12-13 A holistic and extensive exploration of both the dynamic and incremental changes in EU public policy and the decision processes surrounding them this Elgar Encyclopedia is the definitive reference work in the field of EU public policy Proceedings of IAC-ETeL 2013 Collective of authors, 2013-10-10 **Tort Liability of Public**

Authorities in European Laws Giacinto della Cananea, Roberto Caranta, 2020-12-15 This series argues that there is a common administrative core to European legal systems that can be better understood in comparative terms This volume examines government liability in tort using case studies to explore different government responses Part I sets the stage for the project and the parameters followed by the scholars involved Part II expands on the legal systems chosen for comparison setting up their general tort procedures Part III presents case studies from Austria the European Union France Germany Hungary Italy Poland Romania Spain Switzerland and the United Kingdom Each case study has a theoretical response detailing what would happen should that case occur within each country's borders Part IV compares and contrasts the information provided in Part III It examines both the commonalities and the distinctive traits of these legal systems with a view to understand the nature of their common core This volume is an essential tool for anyone involved in administrative and constitutional law and government liability in tort **Towards a European Public Law** Bernard Stirn, 2017-04-28 A European public law is under construction but how has this occurred and what is its character Stirn proposes that this European public law is being constructed by the convergence of three circles the law of the European Union the law of the European Convention on Human Rights and the different domestic legal orders The mutually influential relationship of these

constituents has allowed them to develop most considerably in the jurisprudence of the Court of Justice of the European Union and the European Court of Human Rights. The book begins by reflecting on the different phases of the development of the European project from the end of the First World War. It outlines the transition from the European Coal and Steel Community to the European Union as well as the other institutions contributing to these developments. The discussion then moves to the European legal order which consists of the law of the European Union and the European Convention on Human Rights. Stirn explores how in spite of occasional false starts and frictions their relationship is becoming ever closer and how their characteristics in law are becoming increasingly similar. Furthermore, Stirn analyses the relationship between European law and national legal systems. The differing approach to domestic incorporation of international law, whether it be monist or dualist, is considered as well as the recognition that European law is superior to domestic law. The character specifically of EU law and how it compares to international and domestic law is also discussed in particular its unique features but also the principles it shares with domestic law. In addition, the book examines the existence or not in member states of constitutional courts, the level or jurisdictional orders and the recruitment and status of judges. Similar trends across Europe in public administration are also accounted for and subjected to analysis. Stirn concludes that a European model of public administration is becoming apparent.
