Police And The Media Bridging Troubled Waters:

Police and the Media Patricia A. Kelly, 1987 Bridging Troubled Waters James Manicom, 2014-03-14 The territorial dispute over the Senkaku Diaoyu islands has repeatedly strained Sino Japanese relations Bridging Troubled Waters reminds us that the tensions over the Senkaku Diaoyu islands are only a part of a long history of both conflict and cooperation in maritime relations between Japan and China James Manicom examines the cooperative history between China and Japan at sea and explains the conditions under which two rivals can manage disputes over issues such as territory often correlated with war The author advances an approach that offers a trade off between the most important stakes in the disputed maritime area with a view to establishing a stable maritime order in the East China Sea Policing and Media Murray Lee, Alyce McGovern, 2013-11-26 This book examines the relationship between police media and the public and analyses the shifting techniques and technologies through which they communicate In a critical discussion of contemporary and emerging modes of mediatized police work Lee and McGovern demonstrate how the police engage with the public through a fluid and quickly expanding assemblage of communications and information technologies Policing and Media explores the rationalities that are driving police media relations and asks how these relationships differ or not from the ways they have operated historically what new technologies are influencing and being deployed by policing organizations and police public relations professionals and why how operational policing is shaping and being shaped by new technologies of communication and what forms of resistance are evident to the manufacture of preferred images of police The authors suggest that new forms of simulated and hyper real policing using platforms such as social media and reality television are increasingly positioning police organisations as media organisations and in some cases enabling police to bypass the traditional media altogether The book is informed by empirical research spanning ten years in this field and includes chapters on journalism and police policing and social media policing and reality television and policing resistances It will be of interest to those researching and teaching in the fields of Criminology Policing and Media as well as police and media professionals Pressing the Police and Policing the Press Scott Memmel, 2024-06-28 In the second half of 2020 and continuing into 2021 protests against racial injustice spread across the United States after the death of George Floyd while in the custody of Minneapolis Police Department officers Members of the press covered these demonstrations documenting what transpired and conveying the important messages involved In so doing the news media held law enforcement accountable through critical reporting on the actions of the police with police officers responding in part by intimidating journalists in the field using force and arrest this in the name of keeping the peace and protecting the public from further harm What transpired during this troubled time cast a bright light on the contemporary relationship between the press and police in the United States The relationship between these two fundamental institutions is however a long and complicated one dating back to colonial British North America In the mid 19th century 1830s 1850s both the press and the police began to take their modern forms and since then have

continued to develop routinely interacting with each other as journalists and police officers often found themselves responding to the same crimes and events At times members of both institutions managed to co exist or even cooperate and made efforts to help one another while at other times they butted heads to the point of conflict the professional boundaries between journalists and police officers seemingly blurred As both the press and the police have fallen under deep scrutiny in more modern times the present moment marks what is perhaps an opportune time to focus on the political economic social and technological problems they face In Pressing the Police and Policing the Press Scott Memmel offers the first book length study of the history and legal landscape of the press police relationship Each chapter focuses on interactions between the press and the police during a particular era introducing relevant societal context and how both institutions evolved and responded to that context Memmel concludes his study with recommendations on how going forward the press and the police might work together to tackle some of the similar issues they face and better serve the public Managing Criminal Justice Organizations Richard Kania, Richards Davis, 2018-10-03 Managing Criminal Justice Organizations An Introduction to Theory and Practice 3rd Edition covers the formal and informal nature of the organizations involved in criminal justice Kania and Davis provide an introduction to the administration organization and management of criminal justice organizations This management aspect is the key to ensuring the proper running of criminal justice agencies in their efforts to combat crime The book begins by discussing the eight principles of public management leading organizing deciding evaluating staffing training allocating and reporting It then describes management positions in criminal justice These include police and law enforcement management managing the prosecution of criminal suspects managing bail bond and pretrial detention services managing victim and witness services managing the judicial system and managing adult corrections The remaining chapters cover the pioneers and predecessors of modern public service management theory leadership in criminal justice bureaucracies and organizational principles decision making and planning performance evaluation appraisal and assessment staffing and personnel issues training and education for criminal justice allocation of organizational resources information management and organizational communications and future issues in criminal justice management This text is suitable for introductory criminal justice management courses preparing students to work in law enforcement corrections and the courts The companion website offers case studies test banks lecture slides and handouts exercises and forms for use in class
