Prevention of Torture and Inhuman or Degrading Treatment or Punishment was adopted by the Committee of Ministers of

the Council of Europe in June 1987 It entered into force in February 1989 and all 47 member States are Parties to the

Convention The Convention has already established itself as an important human rights instrument Its approach is quite

different from that of the European Convention on Human Rights Whereas the ECHR provides a remedy for particular human

rights violations after the event the Convention for the Prevention of Torture ECPT seeks to prevent human rights violations

through a system of visits to places of detention The Convention is intended to be an integrated part of the Council of Europe

system for the protection of human rights placing a proactive non judicial mechanism alongside the reactive judicial

mechanism established under the ECHR The Yearbook of the European Convention for the Prevention of Torture offers an

essential annual overview of developments in relation to the ECPT Part One contains information on ratifications and other

such issues in the authentic English and French texts Part Two has details in English and French of the membership and

activities of the Convention Part Three reprints the twentieth annual General Report of the ECPT in the official English and

French texts Part Four contains the ECPT s reports to States and the State responses thereto that were made public during

the year in question The ECPT s reports are published in the official English and or French texts and State responses in the

English and or French versions submitted by the States concerned Bilingual English and French two volume set *Report of the Secretary of the Senate from ...* United States. Congress. This book critically analyses the impact of digital media technologies on police scandal. Using an in depth analysis of a viral bystander video of police excessive force filmed at the 2013 Sydney Gay and Lesbian Mardi Gras Parade and uploaded to YouTube, the book addresses the ways social media video surveillance can shape operational and institutional police responses to police misconduct. The volume features new research on the immediate and longer term impacts of social media generated police scandal on police legitimacy and accountability and responds to inherent questions of procedural justice. It interrogates the technological, political and legal frameworks that govern the relationships between the police and LGBTQI communities in Australia and beyond through the social media test: the police narratives created and contested through social media, mainstream media and police media. In doing so, it considers the role of sexual citizenship discourse as a political, economic and social organizing principle. A comprehensive and interdisciplinary understanding of digital and queer criminology: this is an essential read for those working at the intersection of criminology and the digital society, queer criminology and critical criminology.
