**A Violent Peace** Christine Hong,2020-08-11 A Violent Peace offers a radical account of the United States transformation into a total war state As the Cold War turned hot in the Pacific antifascist critique disclosed a continuity between U S police actions in Asia and a rising police state at home Writers including James Baldwin Ralph Ellison and W E B Du Bois discerned in domestic strategies to quell racial protests the same counterintelligence logic structuring America s devastating wars in Asia Examining U S militarism s centrality to the Cold War cultural imagination Christine Hong assembles a transpacific archive placing war writings visual renderings of the American concentration camp Japanese accounts of the atomic bombing of Hiroshima black radical human rights petitions Korean War era G I photographs Filipino novels on guerrilla resistance and Marshallese critiques of U S human radiation experiments alongside government documents By making visible the way the U S war machine waged informal wars abroad and at home this archive reveals how the so called Pax Americana laid the grounds for solidarity imagining collective futures beyond the stranglehold of U S militarism **Homeland Fascism**

Herman Schwendinger,Julia Schwendinger,2016-06-23 It can t happen here This has been the prevailing sentiment about the possible emergence of fascism in the United States since the rise of international fascism in the 1930s Yet there are signs that it may already be happening and at the highest levels of government In their copiously researched and documented work the Schwendingers outline the structural transformations policies and practices that raise the prospect of fascist governance in the 21st Century United States They show that a homeland fascism has significant supports within the framework of American liberal democracy This is an important analysis in a context in which concerns about fascist demagoguery and far right mobilization appear to be growing in the US and beyond Modernizing Repression Jeremy Kuzmarov,2012 A probing analysis of the impact of American policing operations abroad Pacifism as Pathology Ward Churchill,Michael

Ryan,2017-04-15 Pacifism as Pathology has long since emerged as a dissident classic Originally written during the mid 1980s the seminal essay Pacifism as Pathology was prompted by veteran activist Ward Churchill s frustration with what he diagnosed as a growing and deliberately self neutralizing hegemony of nonviolence on the North American left The essay s publication unleashed a raging debate among activists in both the U S and Canada a significant result of which was Michael Ryan s penning of a follow up essay reinforcing Churchill s premise that nonviolence at least as the term is popularly employed by white progressives is inherently counterrevolutionary adding up to little more than a manifestation of its proponents desire to maintain their relatively high degrees of socioeconomic privilege and thereby serving to stabilize rather than transform the prevailing relations of power This short book challenges the pacifist movement s heralded victories Gandhi in India 1960s antiwar activists even Martin Luther King Jr s civil rights movement suggesting that their success was in spite of rather than because of their nonviolent tactics Churchill also examines the Jewish Holocaust pointing out that the overwhelming response of Jews was nonviolent but that when they did use violence they succeeded in inflicting significant

damage to the nazi war machine and saving countless lives As relevant today as when they first appeared Churchill s and Ryan s trailblazing efforts were first published together in book form in 1998 Now along with the preface to that volume by former participant in armed struggle political prisoner Ed Mead postscripts by both Churchill and Ryan and a powerful new foreword by leading oppositionist intellectual Dylan Rodr guez these vitally important essays are being released in a fresh edition

**Badges without Borders** Stuart Schrader,2019-10-15 From the Cold War through today the U S has quietly assisted dozens of regimes around the world in suppressing civil unrest and securing the conditions for the smooth operation of capitalism Casting a new light on American empire *Badges Without Borders* shows for the first time that the very same people charged with global counterinsurgency also militarized American policing at home In this groundbreaking expos Stuart Schrader shows how the United States projected imperial power overseas through police training and technical assistance and how this effort reverberated to shape the policing of city streets at home Examining diverse records from recently declassified national security and intelligence materials to police textbooks and professional magazines Schrader reveals how U S police leaders envisioned the beat to be as wide as the globe and worked to put everyday policing at the core of the Cold War project of counterinsurgency A smoking gun book *Badges without Borders* offers a new account of the War on Crime law and order politics and global counterinsurgency revealing the connections between foreign and domestic racial control

*Domestic Military Powers, Law and Human Rights* Michael Head,2019-12-05 This book examines the national and international law human rights and civil liberties issues involved in governments calling out the armed forces to deal with civil unrest or terrorism The introduction of domestic military powers has become an international trend Troops already have been seen on the streets in major Western democracies These developments raise major political constitutional and related problems Examining the changes underway in eight comparable countries the United States Canada Britain France Italy Germany Japan and Australia this book provides a review and analysis of this trend including its implications for legal and political rights The book will be of interest to the general public as well as students academics and policy makers in the areas of human rights and civil liberties constitutional law criminal justice and security studies

**Domestic Deployment of the Armed Forces** Michael Head,Scott Mann,2016-05-13 Until recently internal use of the armed forces has been generally regarded by the public as well as academic commentators as conduct to be expected of a military or autocratic regime not a democratic government There is however growing concern that the war on terror has been used to condition public opinion to accept the internal deployment of the armed forces including for broader industrial and political purposes This book examines the national and international law human rights and civil liberties issues involved in governments calling out troops to deal with civil unrest or terrorism As the introduction of military call out legislation has become an emerging global trend in the opening years of the 21st century there is considerable and growing interest in the constitutional and related problems surrounding the deployment of military forces for domestic purposes Examining the changes underway in six comparable

countries the United States Canada Britain Germany Japan and Australia this book provides a review and analysis of this trend including its implications for legal and political rights      **Race and Human Rights** Curtis Stokes,2008-10-16 The terrorist attacks against U S targets on September 11 2001 and the subsequent wars in Afghanistan and Iraq sparked an intense debate about human rights According to contributors to this provocative book the discussion of human rights to date has been far too narrow They argue that any conversation about human rights in the United States must include equal rights for all residents Essays examine the historical and intellectual context for the modern debate about human rights the racial implications of the war on terrorism the intersection of racial oppression and the national security state Others look at the Pinkerton detective agency as a forerunner of the Federal Bureau of Investigation the role of Africa in post World War II American attempts at empire building and the role of immigration as a human rights issue      Censored 2004 Peter Phillips,Project Censored,2003-10-07 The yearly volumes of Censored in continuous publication since 1976 and since 1995 available through Seven Stories Press is dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self censorship The top stories are listed democratically in order of importance according to students faculty and a national panel of judges Each of the top stories is presented at length alongside updates from the investigative reporters who broke the stories      **Chameleo** Robert Guffey,2015-04-23 A mesmerizing mix of Charles Bukowski Hunter S Thompson and Philip K Dick Chameleo is a true account of what happened in a seedy Southern California town when an enthusiastic and unrepentant heroin addict named Dion Fuller sheltered a U S Marine who d stolen night vision goggles and perhaps a few top secret files from a nearby military base Dion found himself arrested under the ostensible auspices of The Patriot Act for conspiring with international terrorists to smuggle Top Secret military equipment out of Camp Pendleton The fact that Dion had absolutely nothing to do with international terrorists smuggling Top Secret military equipment or Camp Pendleton didn t seem to bother the military He was released from jail after a six day long Abu Ghraib style interrogation Subsequently he believed himself under intense government scrutiny and he suspected the subject of bizarre experimentation involving cloaking electro optical camouflage so extreme it renders observers practically invisible from a distance of some meters by the Department of Homeland Security Hallucination Perhaps except Robert Guffey an English teacher and Dion s friend tracked down and interviewed one of the scientists behind the project codenamed Chameleo experimental technology which appears to have been stolen by the U S Department of Defense and deployed on American soil More shocking still Guffey discovered that the DoD has been experimenting with its newest technologies on a number of American citizens A condensed version of this story was the cover feature of Fortean Times Magazine September 2013      **A Reference List of Audiovisual Materials Produced by the United States Government, 1978** National Audiovisual Center,1978      **Congressional Record** United States. Hartnett, 2011 Boldly and eloquently contributing to the argument against the prison system in the United States these provocative essays offer an ideological and practical framework for empowering prisoners instead of incarcerating them Experts and activists who have worked within and against the prison system join forces here to call attention to the debilitating effects of a punishment driven society and offer clear eyed alternatives that emphasize working directly with prisoners and their communities Edited by Stephen John Hartnett the volume offers rhetorical and political analyses of police culture the so called drug war media coverage of crime stories and the public school to prison pipeline The collection also includes case studies of successful prison arts and education programs in Michigan California Missouri Wisconsin and Pennsylvania that provide creative and intellectual resources typically denied to citizens living behind bars Writings and artwork created by prisoners in such programs richly enhance the volume Contributors are Buzz Alexander Rose Braz Travis L Dixon Garrett Albert Duncan Stephen John Hartnett Julilly Kohler Hausmann Daniel Mark Larson Erica R Meiners Janie Paul Lori Pompa Jonathan Shailor Robin Sohlen and Myesha Williams

**Servitors of Empire** Darrell Hamamoto, 2014-08-01 Forcing a fundamental rethinking of the Asian American elite many of whom have attained top positions in business government academia sciences and the arts this book will be certain to generate a good deal of controversy and honest discussion regarding the role Asian Americans will play in the new century as China and India loom ever larger in the world economic system Not since the large scale infusion of scientists and engineers fleeing Nazi Germany has there been such a mass importation of intellectual labor from U S client states in Asia One of the specialized tasks assigned to this group is to build the technetronic infrastructure for the new world order command and control system Servitors of Empire is not intended to fan the flames of suspicion and paranoia aimed at Asian Americans but serves to illuminate the way in which highly trained knowledge workers are being employed to bring sovereign nations such as the United States under centralized rule made possible through advances in bioscience IT engineering and global finance
