## **Police Careers For Women:**

*Police Careers for Women* Diane P. Muro, 1979-01-01 Describes the educational and training requirements and the opportunities for women in the field of law enforcement      **Women Police in Contemporary China** Anqi Shen, 2021-11-11

This is the first book to look at women in policing in the mainland of the People's Republic of China. Informed by empirical data as well as rich secondary information drawn from a wide range of published materials and written by a former police officer in China, this book offers a detailed discussion of key issues concerning women in the Chinese police. Mainly drawing on face-to-face interviews with police officers and student probationers in multiple force areas, *Women Police in Contemporary China* offers rich insights into women's lives in Chinese policing. The book first discusses how Chinese women were introduced to the male-only organisation and their representation in the Chinese police today. It elaborates women's experiences as female officers in the police and more specifically their everyday work contributions to policing, women police's own perceptions of their roles and positions in the police profession and the gendered challenges and concerns facing them. It also looks at police occupational culture from a gendered lens. This book is illuminating reading for all those engaged in policing studies, gender and justice policymaking, comparative criminal justice and all those interested in a woman's role in the Chinese police.      **Women in Non-traditional Occupations** United States. Bureau of Occupational and Adult

Education, 1976      *Women in Charge* Marisa Silvestri, 2013-05-13 This book is concerned with the gendered world of police leadership at a time when calls are being made for a different kind of police leader to guide the organisation through the twenty-first century. Drawing on in-depth interviews carried out with senior policewomen across a range of police forces in England and Wales, *Women in Charge* is the first book to provide a detailed study of women in police leadership. The work challenges existing conceptualisations and theorisations of police culture for the study of police leaders, demonstrating the various ways in which police cultures are shaped by both rank and gender. Women in police leadership face a different kind of gendered environment than their non-managerial counterparts, one in which a smart macho culture of police management dominates. At the same time, this book investigates the extent to which senior policewomen are involved in developing new styles and conceptualisations of leadership. It argues that women are involved in promoting a different kind of police leadership using more consultative and holistic styles, styles not traditionally associated with the police organisation.      *A Guide to the Study of Occupations* Frederick J. Allen, 2010-12-01 A selected critical bibliography of the common occupations with specific references for their study from 1925      **A Guide to the Study of Occupations** Frederick James Allen, 1921

Individual chapters within the book provide students with a snapshot of the status of women in modern police agencies in the countries

*Women in Policing* Emma Cunningham,2021-08-11 *Women in Policing* provides an insight into women s role within policing their emergence and development offering a theoretical underpinning to explore this role as well as incorporating two empirical studies one which reassesses the lived experiences of female officers and one

based on FOI requests to examine police officer disciplinary offences in three police force areas The book begins by exploring some of the history of ideas in relation to ideas about women and their supposed nature Cunningham shows how a variety of feminist ideas and critique are of vital importance in illuminating and critiquing the place of women within this field and provides a feminist lens with which to explore these themes critically The book also examines the re emergence of these ideas about women in current women and policing literature Together exploration of these sources using a feminist conceptual framework facilitates a new rich analysis that is both reflective and reflexive culminating in a novel snapshot of the place of women in policing in England She argues that accepting both institutional racism and institutional misogyny are vital in approaching transformational change in policing practice The book concludes with a discussion around how these findings can help with police confidence and legitimacy in the future A fundamental examination of the ideas underpinning how women s integration and continuation in policing has happened where it is currently and where it may go Women in Policing will be of great interest to police practitioners and students as well as Criminology Sociology and Law and Policing scholars

*Access, Property and American Urban Space* M. Gordon Brown, 2016-03-02

This book explains why the earliest cities had grid form street systems what conditions led to their being overwhelmingly preferred for 5000 years throughout the world why the Founding Fathers wanted gridform cities and how they affect economic transactions Real property has been instrumental in forming urban settlements for 5000 years but virtually all urban form commentary theory and research has ignored this reality The result is an incomplete and flawed understanding of cities Real property became a means of arranging spatial patterns caused by millennia of human evolutionary and historical developments with respect to access and movement As a result access to resources of all types became a regulatory mechanism controlled at least in part by real property ownership The effects of real property on urban spatial patterns are currently best seen by examining American urban space which has changed significantly over the past 200 years This change which began in the 1840s and established path dependence through a combination of design thought sentimental pastoralism and financial prowess resulted in an urban regime shift that diminished economic resilience This book offers a rethinking of how real property relates to real space examines the thought of form promoters links space property neurological evolution and settlement form shows access is measurable and describes the plusses and minuses of

functionalism rent seeking general purpose technology grid form street systems and what the American Founding Fathers thought about urban form
