rules and procedures of the magistrate court system within the context of these models and also discusses the roles of the actors police defendant magistrate court clerks and lawyers Next the study depicts eight scenes that occur from the defendant s arrest through a court hearing to sentencing It assesses how closely the activity and behaviour within the system follow the formal protections granted by the British system of justice and it concludes that the process is far more complex and the rules far more open to interpretation than is commonly believed The book suggests that this miscalculation has led to the failure of various reforms special attention is given to the Bail Reform Act of 1976 and two sections of the Criminal Law Act of 1977 It further suggests that real reform must depend upon an understanding of the political nature of the criminal justice system

textbooks or by the media They encourage readers to examine their beliefs about crime punishment and the law Discussions in the chapters about how African Americans Hispanics whites women juveniles the rich and the poor experience crime and the criminal justice system contribute context for understanding different viewpoints The poor and minorities are the most likely to be caught in the net of criminal justice but inequities have consequences for everyone Reflection on various perspectives provides helpful input for assessing attitudes and for becoming actively involved with issues that have significant consequences Eighteen thoroughly revised chapters present historical backgrounds theories and emerging issues New to the second edition is a chapter on veterans involved in the criminal justice system Affordable succinct and engaging this textbook presents the key concepts of the criminal justice system at less than half the cost of many competing textbooks

**Respect and Criminal Justice** The Shaw Foundation Fellow in Law Gabrielle Watson,2019-12-31 Respect and Criminal Justice offers the first sustained examination of respect in criminal justice in England and Wales where the value is elusive but of persisting significance Advancing a critique of the respect deficit in policing and imprisonment the book is concerned with the ways in which both institutions are merely constrained and not characterised by respect It emerges that they appeal to the word respect relying on its0inclusive ethos in official discourse when it is expedient to do so but rarely and only superficially address the prior question of what it is to respect and be respected The result is that respect is more akin to a slogan than a foundational value of criminal justice practice 0The book will be of interest to academics and students across the humanities and social sciences and especially in law criminal justice and philosophy as well as criminal justice

seen Americans express passionate demands for police transformation But even as discussion of no knock warrants chokeholds and body cameras has exploded any changes to police procedures have only led to the same outcomes Despite calls for increased accountability police departments have successfully stonewalled change In *The Policing Machine* Tony Cheng reveals the stages of that resistance offering a close look at the deep engagement strategies that NYPD precincts have developed with only subsets of the community in order to counter any truly meaningful democratic oversight Cheng spent nearly two years in an unprecedented effort to understand the who and how of police community relationship building in New York City documenting the many ways the police strategically distributed power and privilege within the community to increase their own public legitimacy without sacrificing their organizational independence By setting up community councils that are conveniently run by police allies handing out favors to local churches that will promote the police to their parishioners and offering additional support to institutions friendly to the police the NYPD like police departments all over the country cultivates political capital through a strategic politics that involves distributing public resources offering regulatory leniency and deploying coercive force The fundamental challenge with police community relationships Cheng shows is not to build them It is that they already exist and are motivated by a machinery designed to stymie reform
