Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People s Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly

Robert Nixon and Police Torture in Chicago, 1871-1971 Elizabeth Dale, 2016-05-25 In 2015 Chicago became the first city in the United States to create a reparations fund for victims of police torture after investigations revealed that former Chicago police commander Jon Burge tortured numerous suspects in the 1970s 80s and 90s But claims of police torture have even deeper roots in Chicago In the late 19th century suspects maintained that Chicago police officers put them in sweatboxes or held them incommunicado until they confessed to crimes they had not committed In the first decades of the 20th century suspects and witnesses stated that they admitted guilt only because Chicago officers beat them threatened them and subjected them to sweatbox methods Those claims continued into the 1960s In *Robert Nixon and Police Torture in Chicago 1871 1971* Elizabeth Dale uncovers the lost history of police torture in Chicago between the Chicago Fire and 1971 tracing the types of torture claims made in cases across that period To show why the criminal justice system failed to adequately deal with many of those allegations of police torture Dale examines one case in particular the 1938 trial of Robert Nixon for murder Nixon s case is famous for being the basis for the novel *Native Son* by Richard Wright Dale considers the part of Nixon s account that Wright left out of his story Nixon s claims that he confessed after being strung up by his wrists and beaten and the legal system s treatment of those claims This original study will appeal to scholars and students interested in the history of criminal justice and general readers interested in Midwest history criminal cases and the topic of police torture
