Policy And Change In Thatchers Britain Policy And Planning And Critical Theory:

Policy and Change in Thatcher's Britain Paul J. Cloke, 1992 *Policy and Change in Thatcher's Britain* presents an integrated analysis of the changing policy impacts of the Thatcher decade using various different aspects of critical social theory. The study first parallels the directions taken by successive Thatcher governments with the paths taken by critical social theorists in the 1980s. This analysis shows not only that critical social theory can inform the interpretation of Thatcherism but also that Thatcherism made such demands on social theory as to force changes in the theoretical agenda. More detail follows in an explanation and analysis of the employment of policy making and planning by the state apparatus. The stress here is on the necessity of looking beyond the immediate policy arena in search of how and why policy changes occur. Further essays illuminate the effects of policy changes in particular systematic or spatial areas. The concluding section comments more generally on economic and social change under Thatcher both stressing the unevenness of development with respective emphasis on both spatial and gender divisions of labour.

IBSS: Political Science: 1992 British Library of Political and Economic Science, 1993. The IBSS is the essential tool for librarians, university departments, research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences.

Gender, Planning, and the Policy Process Jo Little, 1994. Planning has a central essential legitimacy in addressing social goals. Despite the ideal position of planning is being able to initiate, encourage, strengthen the links between the theory/practice of feminism in its relationship with gender, planning can act against women's interests, thus reinforce the unequal distribution of powers between the sexes not only within the planning discipline but also in the assumptions/practice in our use of the built environment. This book provides a feminist interpretation of contemporary urban planning. It outlines the gender inequalities which characterize many areas of mainstream planning as well as the assumptions/practices surrounding our use of the built environment. The book incorporates detailed theoretical discussion on the underlying basis/form of women's subordination, applies this discussion to the development/implementation of planning policies. Attention focuses on both the establishment/operation of formal women's initiatives within local government on the promotion of specific policies aimed at meeting women's needs within key areas of planning. Habitat International, December 1994.

Reconstructing Urban Regime Theory Mickey Lauria, 1997. Providing a robust conceptual framework, urban regime theory has, despite its cited shortcomings, gained a dominant position in the literature on local politics. In addition to its recent use in contexts outside the United States and in comparative cross-national research, *Reconstructing Urban Regime Theory* presents a challenging argument for the need to reconceptualize urban regime's middle-level abstractions by interpreting it through the higher-level abstractions of regulationist theory. The contributors propose stronger conceptual linkages between local agents and institutions, regime transformation and the restructuring of urban space. The blend of empirical and case study provides an excellent mix of theory and practice.

The Planning Polity Mark Tewdwr-Jones, 2005-06-27. Planning is not a

technical and value free activity Planning is an overt political system that creates both winners and losers The Planning Polity is a book that considers the politics of development and decision making and political conflicts between agencies and institutions within British town and country planning The focus of assessment is how British planning has been formulated since the early 1990s and provides an in depth and revealing assessment of both the Major and Blair governments terms of office The book will prove to be an invaluable guide to the British planning system today and the political demands on it Students and activists within urban and regional studies planning political science and government environmental studies urban and rural geography development surveying and planning will all find the book to be an essential companion to their work

Writing the Rural Professor Paul J Cloke, Professor Marcus A Doel, Dr David Matless, PhD, Professor Nigel Thrift, Dr Martin Phillips, 1994-07-28 This book arises out of an ESRC project devoted to an examination of the economic social and cultural impacts of the service class on rural areas The research was an attempt to document these impacts through close empirical work in a set of three rural communities but something happened on the way The authors found that the rural became a real sticking point Respondents used it in different ways as a bludgeon as a badge as a barometer to signify many different things security identity community domesticity gender sexuality ethnicity nearly always by drawing on many different sources the media the landscape friends and kin animals It became abundantly clear that the rural whatever chameleon form it took was a prime and deeply felt determinant of the actions of many respondents Yet it was also clear that to the authors they possessed no theoretical framework that could allow them to negotiate the rural to deconstruct its diverse nature as a category Rather each of the extended essays in the book is an attempt by each author to draw out one aspect of the rural by drawing on different traditions in social and cultural theory
