Policy Making By Plebiscite:

Policy Making by Plebiscite Howard Devon Hamilton, Sylvan H. Cohen, 1974 **Civic Engagement in Australian Democracy** Sarah Murray, Lachlan Umbers, 2025-05-13 The Australian democratic system has long been regarded as one of the most stable and predictable in the world with an entrenched two party duopoly compulsory voting ensuring high levels of electoral participation and relatively high levels of satisfaction with the democratic process Yet the ways Australians engage with and participate in their democracy have shifted substantially in recent times While a record proportion of Australians are now on the electoral roll less than 1% belong to a political party and the share of Australians that have always voted for the same party in Federal elections has declined from 72% in 1967 to 37% in 2022 Turnout in the 2022 Federal Election fell below 90% for the first time since the introduction of compulsory voting in 1924 Over 50% of voters cast their ballots early in 2022 up from around 10% in 2004 The advent of social media has afforded Australians a range of opportunities for political engagement but has also given rise to serious concerns surrounding the dissemination of misinformation And Australians have also recently been afforded several historically rare opportunities for direct participation in the lawmaking process particularly the 2017 same sex marriage plebiscite and the 2023 referendum on the Aboriginal and Torres Strait Islander Voice to Parliament These developments give rise to a wide range of deep difficult questions for Australian democracy many of which have been under explored What for instance does the failure of the referendum on the Aboriginal and Torres Strait Islander Voice to Parliament mean for Australian democracy What sorts of opportunities ought to be afforded to Australians for direct participation in government How might climate change impact Australian democracy in the coming decades How might the rise in early voting impact the character of Australian democracy What opportunities do Australians have for engagement in civic life and what obstacles do they face in exercising them This edited collection brings together specialists in the democratic process to consider such questions alongside many others Moreover the collection is uniquely interdisciplinary insofar as the contributors are drawn from a diverse range of fields law philosophy political science and sociology The chapters each help bring us a broader understanding of civic participation in Australian democracy in order that we might evaluate the status quo and gauge where it might be headed in the future **The Policy Analysis Source**

Book for Social Programs Arnold Kotz, Julia Graham Lear, National Planning Association, 1975 *The Policy Analysis Source Book for Social Programs* National Planning Association, 1975 **Organizing Political Parties** Susan E.

Scarrow, Paul D. Webb, Thomas Poguntke, 2017-06-23 Political party organizations play large roles in democracies yet their organizations differ widely and their statutes change much more frequently than constitutions or electoral laws How do these differences and these frequent changes affect the operation of democracy This book seeks to answer these questions by presenting a comprehensive overview of the state of party organization in nineteen contemporary democracies Using a unique new data collection the book's chapters test propositions about the reasons for variation and similarities across party

organizations They find more evidence of within country similarity than of cross national patterns based on party ideology After exploring parties organizational differences the remaining chapters investigate the impact of these differences The volume considers a wide range of theories about how party organization may affect political life including the impact of party rules on the selection of female candidates the links between party decision processes and the stability of party programmes the connection between party finance sources and public trust in political parties and whether the strength of parties extra parliamentary organization affects the behaviour of their elected legislators Collectively these chapters help to advance comparative studies of elections and representation by inserting party institutions and party agency more firmly into the centre of such studies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

Political Competition, Partisanship, and Policy Making in Latin American Public Utilities Maria Victoria Murillo, 2009-08-24 This book studies policymaking in the Latin American electricity and telecommunication sectors Murillo s analysis of the Latin American electricity and telecommunications sectors shows that different degrees of electoral competition and the partisan composition of the government were crucial in resolving policymakers tension between the interests of voters and the economic incentives generated by international financial markets and private corporations in the context of capital scarcity Electoral competition by credible challengers dissuaded politicians from adopting policies deemed necessary to attract capital inflows When electoral competition was low financial pressures prevailed but the partisan orientation of reformers shaped the regulatory design of market friendly reforms In the post reform period moreover electoral competition and policymakers partisanship shaped regulatory redistribution between residential consumers large users and privatized providers

National Identity and Weimar Germany T. Hunt Tooley, 1997-01-01 As part of the Paris peace settlement imposed on a defeated Germany after the First World War the inhabitants of three German borderland regions were to decide whether they wished to remain part of Germany Plebiscites were held during 1920 and 1921 in areas of mixed ethnicity Germans and Danes in Schleswig Germans and Poles in the districts of Allenstein and Marienwerder and in Upper Silesia In this work T Hunt Tooley examines the German attempt to influence the outcome in Upper Silesia in March 1921 within the constraints of the Treaty of

Versailles which forbade the national states involved to make such attempts We see the first international effort of a defeated Germany acting through the new Weimar government to face issues concerning the definition of the new national state of citizenship and of what it meant to be German National Identity and Weimar Germany thereby contributes to our understanding of the Weimar period which has been intensely scrutinized for clues to its fall and the consequent rise of Nazism Seeing Upper Silesia as a laboratory for the question of German self identity Tooley also provides the valuable corrective that Silesians often voted as much in response to local and contingent issues as in response to ethnic identification

The Scottish Educational Journal ,1923 Enforcing the Rule of Law Enrique Peruzzotti,Catalina Smulovitz,2006-04-07 Reports of scandal and corruption have led to the downfall of numerous political leaders in Latin America in recent years What conditions have developed that allow for the exposure of wrongdoing and the accountability of leaders Enforcing the Rule of Law examines how elected officials in Latin American democracies have come under scrutiny from new forms of political control and how these social accountability mechanisms have been successful in counteracting corruption and the limitations of established institutions This volume reveals how legal claims media interventions civic organizations citizen committees electoral observation panels and other watchdog groups have become effective tools for monitoring political authorities Their actions have been instrumental in exposing government crime bringing new issues to the public agenda and influencing or even reversing policy decisions Enforcing the Rule of Law presents compelling accounts of the emergence of civic action movements and their increasing political influence in Latin America and sheds new light on the state of democracy in the region **Modernization and Its Political Consequences** Hans Blokland,2008-10-01 divPeople s capacity to give meaning and direction to social life is an essential dimension of political freedom Yet many citizens of Western democracies believe that this freedom has become quite restricted They feel they are at the mercy of anonymous structures and processes over which they have little control structures and processes that present them with options and realities they might not have chosen if they had any real choice As a result political interest declines and political cynicism flourishes The underlying cause of the powerlessness pervading the current political system could be modernization Taking the work of Max Weber Karl Mannheim and Joseph Schumpeter as a point of departure Hans Blokland here examines this process The topics covered are among others the meaning of modernization the forces that drive it and especially the consequences of modernization for the political freedom of citizens to influence the course of their society via democratic politics DIV *Direct Democracy in Canada* J. Patrick Boyer,1996-07-25 A well researched analysis of three national referenda in Canada prohibition in 1898 conscription in 1942 and the Constitution in 1992 **Encyclopedia of American Indian History** Bruce E. imbroglio While to some extent the Papuan s case cannot be denied definite political and strategic realities should not be ignored Unfortunately for the Papuans their territory has immense geopolitical geostrategic and economic significance not only for Indonesia but also for others such as the United States China Australia and a number of European countries Papua is wealthy under populated and backward in terms of human resource development Its future as a distinct entity is in real danger as the Papuans are becoming the minority in their own homeland Due to the asymmetry of power the Papuans struggle has not made a breakthrough that would force Indonesia to rethink the future of the territory in any fundamental way In order to unravel the dynamics involving Papuan separatism this study describes the Papuan political landscape Singh explains what makes Papua unique and how its makeup has affected the territory s political dynamics He analyzes the emergence of Papua as a geopolitical trophy calling into question the degree to which Papuan nationalism has crystallized Finally he questions whether Papua is emerging as a regional flashpoint and in view of its geopolitical importance the various options available Papua Geopolitics and the Quest for Nationhood will be of interest to scholars of international relations comparative politics of Indonesia and the Asia Pacific and policymaking

Foreign Policy and Interdependence in Gaullist France Edward Morse, 2015-03-08 French foreign policy in the 1960 s seemed unique because it was dominated by the anachronistic ideals of Charles de Gaulle Edward L Morse argues that in fact the foreign policies of all highly modernized states are so similar that they can be described and explained by a general theory of interdependence He uses France as a case study of his theory and shows that what makes French foreign policy in this period so fascinating is the way in which the behavior of the President brought into sharp focus the problems interdependence poses for nation states The book is divided into two parts The first develops the theory of the conduct of foreign policy in any highly modernized society The second part tests the theory by examining such characteristics of French foreign policy as the erosion of the distinction between foreign and domestic affairs the constraints put on foreign policy by the growth of international economic interdependence which has also affected the autonomy of decision making in a purely national context the increased importance of foreign economic policy the questioning of governmental priorities in foreign affairs and the emergence of crisis management and manipulation as part of the routine procedures of foreign policy operations Edward L Morse s work is valuable both for the theory it offers and because it gives a balanced view of foreign policy in an important period in recent French history Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Bringing in the People Markku Suksi, 2024-02-26 The referendum is not a monolithic method of national decision making There are a multitude of referendum forms which

exist under varying constitutional conditions and operate in different ways A global comparison shows that more than half the constitutions of the world provide for the referendum at a national level but referendums are also carried out without explicit constitutional support Two main forms of referendum can be observed the mandatory constitutional referendum and the policy vote This book argues that the referendum does not undermine representative decision making but supplements it in various ways the referendum is not diametrically opposed to representative government and when properly designed and used the institution of the referendum can enhance the legitimacy of a constitutional and political system This book is the first comprehensive constitutional and comparative analysis of the referendum It offers illuminating and intriguing reading for all those interested in national decision making Greece, 1941-49: From Resistance to Civil War Haris

Vlavianos,1992-01-13 **Beyond Versailles** Marcus M. Payk,Roberta Pergher,2019-03-29 Ten essays analyzing the history and effects of the Paris Peace Conference following World War I The settlement of Versailles was more than a failed peace What was debated at the Paris Peace Conference of 1919 1920 hugely influenced how nations and empires sovereignty and the international order were understood after the Great War and into the present Beyond Versailles argues thatthis transformation of ideas was not the work of the treaty makers alone but emerged in interaction with nationalist groups anti colonial movements and regional elites who took up the rhetoric of Paris and made it their own In shifting the spotlight from the palace of Versailles to the peripheries of Europe Beyond Versailles turns to the treaties resonance on the ground and shows why the principles of the peace settlement meant different things in different locales It was in places a long way from Paris in Polish borderlands and in Portuguese colonies in contested spaces like Silesia Teschen and Danzig and in states emerging from imperial collapse like Austria Egypt and Iran that notions of nation and sovereignty legitimacy and citizenship were negotiated and contested This is an excellent collected volume well conceived and very well written This is not at all a top down history of the diffusion of ideas about national self determination Rather it is an examination of the ways in which these ideas were taken up re fashioned and reasserted at many levels to serve local and regional agendas while at the same time influencing international debates about the meanings and possible implementations of self determination Pieter M Judson author of The Habsburg Empire A New History
