Policy Politics Japan Policy Politics In Industria:

On the Record Re Japan, 1993 *Government and Business: American Political Economy in Comparative Perspective*
Richard Lehne, 2012-03-23 In this thoroughly updated edition Lehne takes a comparative approach evaluating the U S political economy with respect to those of Great Britain Germany Japan and the EU The book provides detailed historical context for and a conceptual understanding of the business government environment and then clarifies the roles of the major actors and outlines the regulatory and policy frameworks Along the way Lehne probes some of the most crucial dilemmas facing government and business today *Firms and Industrial Organization in Japan* Y. Miwa, 1995-12-18 Miwa is one of the leading young Japanese scholars debunking the myths all too common in the west but eagerly promoted in Japan also about the distinctive Japanese way He soberly examines the roles of government and banks firms and networks workers and managers The result is a fine analysis of how where and why the Japanese economic system fundamentally resembles that in the west with a clear explanation of the few areas where it significantly differs Leslie Hannah London School of Economics and Political Science Professor Miwa has earned quite a name for himself in Japan for his brilliant but biting iconoclastic views Now Western readers will learn what the fuss has been about Self styled authorities on the Japanese economy will squirm for Miwa takes no prisoners his logic is relentless merciless and inevitably right J Mark Ramseyer the University of Chicago Law School This is a monumental work demystifying the Japanese economy and contesting the conventional view that Japan is different In doing so Professor Miwa paves the way for a new era of comparative study Kazuo Koike Hosei University Tokyo Professor Miwa no longer an enfant terrible has established himself as one of the most far reaching researchers of the contemporary Japanese industrial organisation His argument is always pointed provocative outrageous but illuminating and productive Yutaka Kosai Japan Center for Economic Research Tokyo We love Japan but many of us for wrong reasons Studies of Japan s economy are full of misconceptions described by such keywords as dual structure keiretsu corporate groups main banks subcontract and industrial policy Without using these keywords the author demonstrates that Japan has for a long time been a world of exchange by agreement rather than by coercion and that the standard principles of economics explain the dominant patterns of the Japanese economic phenomena Providing detailed information on firms and industrial organization in Japan this volume is a doorway both to proper understanding of Japan s economy and the study of actual firms and the market in general **Policy Space Conflicts in Global Trade Politics** Qinyi Xu, Chuanjing Guan, 2025-06-30 *Policy Space Conflicts in Global Trade Politics* delves into the structure driving forces and contemporary influencing factors of trade relations dynamics providing insights into the present and future trajectories of the global trade order The post pandemic global governance challenges combined with the concurrent if not concomitant escalation of economic rivalries between great powers are catalysing a weakening of the liberal international order undermining the very foundations upon which contemporary global production network is built With the return of geopolitical tensions the conflict

over global governance versus state governance has again become the nexus where global trade politics are contested and negotiated This book presents the Policy Space Conflict framework an analytical framework that diverges from extant concepts of policy diffusion power transition socialisation and neo liberal institutionalist models of analyses and is instead advanced as a framework that renews the classic concept of policy space the space left for one to freely use preferred national policy instruments when integrated into the globalisation and institutionalisation process in the past decades The tensions inherent in and arising from policy space can be captured in the term policy space conflict illuminating the dynamic shifts regarding the convergence of rules under globalisation and de convergence concerns of states This book emphasises the underlying logic and motivating rationale that lie beneath the evolution of policy space conflict by theoretically revisiting the concept providing an overview of its forms in history since the Bretten Woods and transitions from market oriented to strategy based This exploration is examined using case studies drawn from real world trade politics which encompasses discussions on the decline of multilateralism the asymmetry in development between the Global South and Global North and China US institutional contestation This book will be of interest to scholars in the fields of international relations law political economy political science economics and international trade as well as a broad range of audiences who are concerned of global trade politics in times of global uncertainty

Monetary and Fiscal Policy: Politics Torsten Persson, Guido Enrico Tabellini, 1994 This is the first of two volumes on a theory of macroeconomic policy that analyzes which policies are credible or politically feasible Instead of looking at policy as an end product the contributors approach policy as an ongoing process of revised goals changes in tactics and political pressures They consider what kinds of incentives within different institutional settings drive policy making and the behaviour of policy makers The approach explains why certain monetary and fiscal policies are implemented and provides insights into situations that occur repeatedly in macroeconomic policy such as the bias toward government deficits partisan competition and central bank independence

A Comparative Political Economy of Industrial Capitalism R. Mascarenhas, 2002-10-04 This comparative study of industrial capitalism is an examination of state economy relations in mixed economies ranging from the interventionist German and Japanese to the less interventionist Anglo American Following the postwar consensus that resulted in the golden age 1950 1973 and ended with the energy crisis the Anglo American economies adopted neoliberalism while Germany and Japan remained interventionist This resulted in the emergence of national types of capitalism While analyzing the increased competition between them R C Mascarenhas also notes the influence of globalization as well as alternative capitalism with the survival and re emergence of industrial districts

Japan Remodeled Steven Kent Vogel, 2006 As the Japanese economy languished in the 1990s Japanese government officials business executives and opinion leaders concluded that their economic model had gone terribly wrong They questioned the very institutions that had been credited with Japan's past success a powerful bureaucracy guiding the economy close government industry ties lifetime employment the main bank system and dense interfirm networks Many of these leaders turned to the U S model for lessons urging the government to liberate the economy and companies to sever long term ties with workers banks suppliers and other firms Despite popular perceptions to the contrary Japanese government and industry have in fact enacted substantial reforms Yet Japan never emulated the American model As government officials and industry leaders scrutinized their options they selected reforms to modify or reinforce preexisting institutions rather than to abandon them In Japan Remodeled Steven Vogel explains the nature and extent of these reforms and why they were enacted Vogel demonstrates how government and industry have devised innovative solutions The cumulative result of many small adjustments is he argues an emerging Japan that has a substantially redesigned economic model characterized by more selectivity in business partnerships more differentiation across sectors and companies and more openness to foreign players

Banking on Multinationals Mireya Solis, 2004 Banking on Multinationals is a study of Japan's world lead in publicly financing the expansion of multinational corporations in order to help sunset industries cope with loss of international competitiveness through offshore manufacturing

The Industrial Revolution in World History Peter N. Stearns, 2020-11-16 Now in its fifth edition this book explores the ways in which the industrial revolution reshaped world history covering the international factors that helped launch the industrial revolution its global spread and its impact from the end of the eighteenth century to the present day The single most important development in human history over the past three centuries the industrial revolution continues to shape the contemporary world Revised and brought into the present this fifth edition of Peter N Stearns *The Industrial Revolution in World History* extends his global analysis of the industrial revolution Looking beyond the West the book considers India the Middle East and China and now includes more on key Latin American economies and Africa as well as the heightened tensions since 2008 about the economic aspects of globalization and the decline of manufacturing in the West This edition also features a new chapter on key historiographical

debates updated suggestions for further reading and boxed debate features that encourage the reader to consider diversity and different viewpoints in their own analysis and pays increased attention to the environmental impacts Illustrating the contemporary relevance of the industrial revolution s history this is essential reading for students of world history and economics as well as for those seeking to know more about the global implications of what is arguably the defining socioeconomic event of modern times

Government and the Food Industry: Economic and Political Effects of Conflict and Co-Operation L. Tim Wallace, William R. Schroder, 2012-12-06 This book s purpose is to shed light on the threats and opportunities arising from the incentives and restrictions of governmental actions which food industry managers discover in their search for profits The food industry as defined here includes farmers their input suppliers processors and distributors This text explores how the private sector reacts to the stimulus of public support measures rules and regulations which are usually motivated by entirely different ends than those desired within the private sector No current single model of economic behavior as yet adequately encompasses or quantifies these complex vectors and forces Management is comprised of many factors most of which can be identified ex post but few of which can be appraised precisely ex ante The perceptual processes by which managers respond to governments are influenced by culture aptitudes individual and collective goals details of most government business relationships are discussed Few openly since management and government officials are understandably often reluctant to share the decision tree route by which trust is built and understandings are negotiated Our text differs from others in that we combine both a theoretical and experiential approach to the subject The insights provided by the case study material give a more macro and yet realistic view than tha t usually offered elsewhere We indicate the risks and dynamics of the situations faced by management while also showing the importance and strategic relevance of a solid analytical foundation for managerial purposes

The Politics of Defense in Japan Joseph P. Keddell, 1993 Examines how the Japanese government used a series of incremental measures in three different periods to manage conflicting international and domestic pressure over defense issues in the context of the county s military dependence on the US since World War II Details the influence and origins of such constraints as the one percent of GNP ceiling of defense spending various international treaties and the strong public opinion against the military and concludes that domestic political tranquility is more important to the government than military parity with other countries Annotation copyright by Book News Inc Portland OR

Competitive Edge Daniel I. Okimoto, Takuo Sugano, Franklin B. Weinstein, M. Therese Flaherty, 1984 During the 1970s Japan supplanted the United States as the world leader in steel production automobile manufacturing and consumer electronics Are the Japanese poised to repeat these successes in the semiconductor industry This question has vast potential significance because semiconductor technology holds the key to competitiveness in high technology one of America s last bastions of industrial supremacy This book the product of years of joint research by a multidisciplinary team of American and Japanese scholars analyzes the strengths and weaknesses of each country s semiconductor industry with reference to three

major areas technological innovation the role of government not only in specific policies directed toward the semiconductor industry but also in the broader context of industrial policy government business relations and the two political systems and the influence of financial institutions ties between banks and businesses and corporate financing The book provides in short a broad yet in depth analysis of emerging industrial competition in high technology between the world's two largest market economies

The Industrial Green Game National Academy of Engineering, 1997-07-10 Industrial ecology is a concept that has emerged in response to growing public concern about the impact of industry on the environment In this framework the natural flow or circulation of materials and energy that takes place in biological ecosystems becomes a model for more efficient industrial metabolism What industrial ecology is and how it may be applied to corporate environmentalism are the subject of *The Industrial Green Game* This volume examines industrial circulation of materials energy efficiency strategies green accounting life cycle analysis and other approaches for preventing pollution and improving performance Corporate leaders report firsthand on green efforts at Ciba Geigy Volvo Kennecott and Norsk Hydro And an update is provided on the award winning industrial symbiosis project in Kalundborg Denmark The *Industrial Green Game* looks at issues of special concern to business such as measuring and shaping public perceptions and marketing green products to consumers It offers discussions of the appropriate roles of government and private business

Managing the Multinational Subsidiary Hamid Etemad, Louise Séguin Dulude, 2018-04-17 This book first published in 1986 is concerned with the changing world environment for multinational business and the relationships between multinational parent companies and their subsidiaries which will be necessary to meet the challenges that are being faced The study argues that key changes to the environment are the revolution in manufacturing which has permitted cheap production in one location of complicated products for a world market world product mandating whereby all a company's country subsidiaries produce different product lines for the world market pressure and incentives from host governments for technology transfer in their favour and for research and development facilities within their territory the growth of highly efficient international trading and distribution intermediaries and the complications of increased barter trade arising from international debt problems and currency shortages All this means that the management of multinational subsidiaries has to change This book reviews the challenges and shows a way forward
