Polish Jewish studies      *Polin* Antony Polonsky, 2012      **Polin: Studies in Polish Jewry, Volume 5** Antony Polonsky, 1991-08-26 Now in its fifth volume *Polin* is established as the leading forum for authoritative historical and cultural material on Polish and East European Jewry. Each volume contains articles presenting original research often including previously unpublished documents. Each issue also features an extensive review essay section and a forum for the exchange of ideas and views between authors. Volume 5 covers three special subject areas in the field of Polish and East European Studies. Firstly it explores the Jewish influence on the art and architecture of Poland particularly in respect to town planning and town buildings. The second section looks at the subject of Jews in Germany in a historical context. Thirdly it looks at the important issues of Zionism in Poland. All these issues and more are discussed in this 5th volume of *Polin*.      [Polin: Studies in Polish Jewry Volume 1](#) Antony Polonsky, 2004-07-01 In this volume of *Polin* scholars from the fields of history, sociology, politics, anthropology, linguistics, literature and folklore explore central themes in Jewish and European history.      **Polin** Yiśra'el Barṭal, Antony Polonsky, 2020 From 1772 to 1918 Jews were concentrated more densely in Galicia than in any other area in Europe. This text explores the Jewish community in Galicia and its relationship with the Poles, Ukrainians and other ethnic groups. Chapters include discussions of the consequences of Galician autonomy, Galician Jewish migration to Vienna, the reforms of Maria Theresa and Joseph II in the eighteenth century, the assimilation of the Jewish elite and levels of literacy among Poles and Jews.      *Polin* Gershon David Hundert, 2020 Jewish society in Poland-Lithuania in the second half of the eighteenth century was by no means insular. Jews numbered about 750,000 and comprised about half the urban population of the country. The contact between Jews and the wider Polish society found expression in the languages Jews knew in their marriage patterns, even in their synagogue architecture and decoration, but also in Polish accusations of Jewish ritual murder. All these aspects are here systematically reviewed.      **Polin** Antony Polonsky, 2020 The Polish-Lithuanian Commonwealth created in 1569 covered a wide spectrum of faiths and languages. The nobility who were the main focus of Polishness were predominantly Catholic; the peasantry included Catholics, Protestants and members of the Orthodox faith, while nearly half the urban population and some 10 percent of the total population was Jewish. The partition of Poland at the end of the 18th century and the subsequent struggle to regain Polish independence raised the question of what the boundaries of a future state should be and who qualified as a Pole. The core chapters in this work focus especially on the triangular relationship between Poles, Jews and Germans in western Poland and between the different national groups in what are today Lithuania, Belarus and Ukraine.      [Polin](#) Antony Polonsky, 2020 The assessment of the Nazi genocide in Poland, an issue which has deeply divided Poles and Jews, lies at the core of this volume. Poland was one of the principal areas where the Nazis attempted to carry out their planned genocide of European Jewry. It was there that the major death camps were established and that Jews were brought from all over Nazi-occupied Europe to be gassed, above all in Auschwitz, where at least 1 million lost their lives in this way. The text states that there is no more controversial topic in the history of the Jews in Poland than the question

of the degree of responsibility borne by Polish society for the fact that such a small proportion of Polish Jewry escaped the Nazi mass murderers

**Jews in Warsaw** Antony Polonsky, 1989-03 Few Polish cities have evoked more affection from their Jewish inhabitants than Krakow and this volume brings together the work of leading historians from Israel Poland Great Britain and the US to explore how this relationship evolved It takes as its starting point 1772 when Poland was partitioned between the Great Powers and Krakow came under Austrian rule and it examines the relationship between the Jewish minority and the Polish majority in the city in the different stages of its history down to the period of German occupation during World War II An additional perspective is provided by a consideration of how Jewish life in Krakow has been remembered by Holocaust survivors and how it is portrayed in post war Polish literature The main explanation for the specific nature of relations between Poles and Jews in Krakow seems to be that Jewish acculturation to Polish culture was more pronounced in Krakow than anywhere else in Poland The Jewish community as a whole opened itself up to contemporary currents and participated in the life of the city above all in its cultural dimension while nevertheless retaining a highly articulated sense of Jewish identity and unity This meant that Jews were able both to defend their interests effectively and to establish links with the rest of the population from a position of strength An additional important factor appears to have been the more tolerant atmosphere which prevailed in the Austro Hungarian empire which meant that ethnic tensions were less acute than elsewhere on the Polish lands Furthermore the fact that the city was largely pre industrial and conservative and was a spiritual and intellectual center for both Catholics and Jews may paradoxically have mitigated ethnic conflict as did the fact that the two societies Polish and Jewish were largely socially separate While the increase in anti Semitism after 1935 and the consequences of the Holocaust are still etched in the minds of many the city nevertheless has a special place in Jewish hearts and will continue to be remembered as one of the great centers of Jewish culture in east central Europe As in other volumes of Polin the New Views section examines a number of important topics These include a general investigation of the situation of the Jews in Galicia an analysis of the position of Jewish slave laborers in the Kielce area under Nazi rule an investigation into the resurgence after 1944 of the myth of ritual murder and a discussion of the history of the Jewish settlement in Lower Silesia after the World War II

*Polin: Studies in Polish Jewry Volume 33* François Guesnet, Antony Polonsky, Ada Rapoport-Albert, Marcin Wodziński, 2021-01-06 Following tremendous advances in recent years in the study of religious belief this volume adopts a fresh understanding of Jewish religious life in Poland Approaches deriving from the anthropology history phenomenology psychology and sociology of religion have replaced the methodologies of social or political history that were applied in the past offering fascinating new perspectives The well established interest in hasidism continues albeit from new angles but topics that have barely been considered before are well represented here too Women's religious practice gains new prominence and a focus on elites has given way to a consideration of the beliefs and practices of ordinary people Reappraisals of religious responses to secularization and modernity both liberal and Orthodox

offer more nuanced insights into this key issue Other research areas represented here include the material history of Jewish religious life in eastern Europe and the shift of emphasis from theology to praxis in the search for the defining quality of religious experience The contemporary reassessments in this volume with their awareness of emerging techniques that have the potential to extract fresh insights from source materials both old and new show how our understanding of what it means to be Jewish is continuing to expand

**Polin: Studies in Polish Jewry Volume 31** François & Lupovitch Guesnet (Howard & Polonsky, Antony), 2018 At the beginning of the twentieth century the Jewish communities of Poland and Hungary were the largest in the world and arguably the most culturally vibrant yet they have rarely been studied comparatively Despite the obvious similarities historians have mainly preferred to highlight the differences and emphasize instead the central European character of Hungarian Jewry Collectively these essays offer a different perspective The volume has five sections The first compares Jewish acculturation and integration in the two countries analysing the symbiosis of magnates and Jews in each country's elites and the complexity of integration in multi ethnic environments The second considers the similarities and differences in Jewish religious life discussing the impact of Polish hasidism in Hungary and the nature of progressive Judaism in Poland and the Neolog movement in Hungary Jewish popular culture is the theme of the third section with accounts of the Jewish involvement in Polish and Hungarian cabaret and film The fourth examines the deterioration of the situation in both countries in the interwar years while the final section compares the implementation of the Holocaust and the way it is remembered The volume concludes with a long interview with the doyen of historians of Hungary István Deák

*Polin* Antony Polonsky, 2020 Addressing various aspects of Jewish life and religion particularly in the last two centuries this text examines different aspects of the Hasidic tradition present day contacts between Bobover Hasidism in New York and Bobowa in Poland and how a rabbi trained in the Lithuanian tradition adapted to the very different conditions of the United States The modifications of Jewish religious tradition practiced in the modern pre war synagogues in Warsaw Łódź and Łwów are considered as is the attempt by Hillel Zeitlyn to re interpret Jewish tradition in the interwar years

**Polin** Antony Polonsky, 2004 This volume is devoted to the part Jews played in the history of Łódź between 1820 and 1939 Specifically it focuses on the place of the Jews in the industrial elite of this multi ethnic textile town and on its role as a centre of the modern movement and of Jewish artistic and literary creativity It is the result of a collaborative venture with the Historical Institute of the University of Łódź
