Polio Me Now Then:

Poliomyelitis Vaccine United States. Congress. Senate. Committee on Labor and Public Welfare, 1955 Illinois Medical Journal, 1918 *The Illinois Medical Journal*, 1918 **Polio and Its Aftermath** Marc Shell, 2009-06-30 It was not long ago that scientists proclaimed victory over polio the dread disease of the 1950s More recently polio resurfaced not conquered at all spreading across the countries of Africa As we once again face the specter of this disease along with other killers like AIDS and SARS this powerful book reminds us of the personal cost the cultural implications and the historical significance of one of modern humanity's deadliest biological enemies In *Polio and Its Aftermath* Marc Shell himself a victim of polio offers an inspired analysis of the disease Part memoir part cultural criticism and history part meditation on the meaning of disease Shell's work combines the understanding of a medical researcher with the sensitivity of a literary critic He deftly draws a detailed yet broad picture of the lived experience of a crippling disease as it makes its way into every facet of human existence *Polio and Its Aftermath* conveys the widespread panic that struck as the disease swept the world in the mid fifties It captures an atmosphere in which polio vied with the Cold War as the greatest cause of unrest in North America and in which a strange and often debilitating uncertainty was one of the disease's salient but least treatable symptoms Polio particularly afflicted the young and Shell explores what this meant to families and communities And he reveals why in spite of the worldwide relief that greeted Jonas Salk's vaccine as a miracle of modern science we have much more to fear from polio now than we know

Polio Immunization Program, 1976 United States. Congress. Senate. Committee on Labor and Public Welfare. Subcommittee on Health, 1976 *Selling Science* Stephen E. Mawdsley, 2016-08 Today when many parents seem reluctant to have their children vaccinated even with long proven medications the Salk vaccine trial which enrolled millions of healthy children to test an unproven medical intervention seems nothing short of astonishing In *Selling Science* medical historian Stephen E Mawdsley recounts the untold story of the first large clinical trial to control polio using healthy children 55 000 healthy children revealing how this long forgotten incident cleared the path for Salk's later trial Mawdsley describes how in the early 1950s Dr William Hammon and the National Foundation for Infantile Paralysis launched a pioneering medical experiment on a previously untried scale Conducted on over 55 000 healthy children in Texas Utah Iowa and Nebraska this landmark study assessed the safety and effectiveness of a blood component gamma globulin to prevent paralytic polio The value of the proposed experiment was questioned by many prominent health professionals as it harbored potential health risks but as Mawdsley points out compromise and coercion moved it forward And though the trial returned dubious results it was presented to the public as a triumph and used to justify a federally sanctioned mass immunization study on thousands of families between 1953 and 1954 Indeed the concept conduct and outcome of the GG study were sold to health professionals medical researchers and the public at each stage At a time when most Americans trusted scientists their mutual encounter under the auspices of conquering disease was shaped by politics marketing and at times deception Drawing on oral history

interviews medical journals newspapers meeting minutes and private institutional records *Selling Science* sheds light on the ethics of scientific conduct and on the power of marketing to shape public opinion about medical experimentation

Hearings United States. Congress Senate, 1955 *The Polio Hole* Shelley Fraser Mickle, 2013-02 As a five year old Shelley Fraser is known for mischief On Halloween in 1949 she fancies her brother's devil costume and persuades her mother to hem it up for her But her plan to scare the total baloney out of the neighbor's babies backfires At kindergarten she throws a six year old birthday party never to be forgotten falls in love at juice time and learns to read Six weeks into first grade she becomes one of over 30 000 falling down the Polio Hole which is the way she thinks of the illness sweeping across America During those years of dealing with braces crutches the loss of muscles that will never come back she finds she is still very much who she always was only more aware of the world's miracles With a lasting lesson from her night visitor in the Isolation Hospital and a second chance as the Halloween Queen with her sweetheart Richard she also earns a dog named Buddy a horse with the nickname Lightn and the friendship of a woman who teaches the enchantment of letters that can be read only with a mirror Shelley's battle to overcome the nightmare illness that changed America is woven into the story of the scientific development of the vaccine that nailed shut the Polio Hole The efforts to bury the Hole worldwide is a major challenge of the twenty first century *Bobby's Song 2* Rick Nicholson, 2016-04-27 Bobby's Song California dreamin is a collection of stories about two friends One friend Rick Nelson is a retired contractor now working part time as a Private Investigator The other friend Bob Moore who is dead joins Rick in Spirit form in helping to solve various mysteries in both the spirit and living world Their adventures take them from one side of the Country to the other and back again Sometimes even traveling into the Past to help a Spirit find peace Bob and Rick come to the very edge of death at times as well as witnessing Gods justice being dealt out to those who deserve it Along the way certain gifts and or special abilities are given to both friends to help them with their work while meeting some very interesting characters along the way Both living and dead Each story is a new adventure for our average everyday hero's And as time passes their friendship grows and stays strong even though they live in two different worlds *Polio* David M. Oshinsky, 2005-04-12 Here David Oshinsky tells the gripping story of the polio terror and of the intense effort to find a cure from the March of Dimes to the discovery of the Salk and Sabin vaccines and beyond Drawing on newly available papers of Jonas Salk Albert Sabin and other key players Oshinsky paints a suspenseful portrait of the race for the cure weaving a dramatic tale centered on the furious rivalry between Salk and Sabin He also tells the story of Isabel Morgan perhaps the most talented of all polio researchers who might have beaten Salk to the prize if she had not retired to raise a family Oshinsky offers an insightful look at the National Foundation for Infantile Paralysis which was founded in the 1930s by FDR and Basil O Connor it revolutionized fundraising and the perception of disease in America Oshinsky also shows how the polio experience revolutionized the way in which the government licensed and tested new drugs before allowing them on the market and the way in which the legal system dealt with manufacturers liability for unsafe

products Finally and perhaps most tellingly Oshinsky reveals that polio was never the raging epidemic portrayed by the media but in truth a relatively uncommon disease But in baby booming America increasingly suburban family oriented and hygiene obsessed the specter of polio like the specter of the atomic bomb soon became a cloud of terror over daily life Both a gripping scientific suspense story and a provocative social and cultural history Polio opens a fresh window onto postwar America

Don't Turn Your Back in the Barn David Perrin, 2002 For 26 years Dr David Perrin served as a country veterinarian in the rural but never quiet Creston valley of southern British Columbia Don t Turn Your Back in the Barn is his engaging and entertaining firsthand account of his rookie year on the job in the early 1970s Reminiscent of the beloved books of British veterinarian and writer James Herriot Perrin s book is by turns heartbreaking and hysterical In 22 stories he relays his encounters with an eclectic group of two legged clients and a roster of four legged patients that range in size from a newborn kitten to a 1 500 pound pregnant heifer Perrin s honest account of veterinary life includes his mistakes successes and frequent searches for answers to problems that most of us will thankfully never have to consider for example how does one discourage the advances of an amorous billy goat Passion pathos adventure humor Don t Turn Your Back in the Barn has it all

Hearings United States. Congress. Senate. Committee on Labor and Public Welfare, 1955 [The House at Karamu](#) Beryl Fletcher, 2003 A funny touching memoir of writer Beryl Fletcher s life Beginning with a childhood in wartime New Zealand and covering a move to Australia living in Kings Cross and later rural New South Wales and Beryl s growing feminist consciousness
