**Negotiating Reconciliation in Peacemaking** Valerie Rosoux, Mark Anstey, 2017-11-01 This book offers a unique approach to reconciliation as a matter for negotiation bringing together two bodies of theory in order to offer insights into resolving conflicts and achieving lasting peace It argues that reconciliation should not be simply accepted as an agreed upon norm within peacemaking processes but should receive serious attention from belligerents and peace brokers seeking to end violent conflicts through negotiation The book explores different meanings the term reconciliation might hold for parties in conflict the end of overt hostilities a transformation in the quality of relations between warring groups a vehicle of accountability and punishment of human rights abusers or the means through which they might somehow acquire amnesty and as a means of atonement and to material reparation It considers what gives energy to the idea of reconciliation in a conflict situation why do belligerents become interested in settling their differences and changing their attitudes to one another Using a range of case studies and thematic discussion chapters in this book seek to tackle these tough questions from a multidisciplinary perspective Contributions to the book reveal some of the complexities of national and international reconciliation projects but particularly diverse understandings of reconciliation and how to achieve it All conflicts reflect unique dynamics aspirations and power realities It is precisely because parties in conflict differ in expectations of reconciliation outcomes that its processes should be negotiated This book is a valuable resource for both scholars and practitioners engaged in resolving conflicts and transforming fragmented relations in conflict and post conflict situations

The Soviet Political Elite Borys Lewytskyj,1970 Soviet Security and Intelligence Organizations 1917-1990 Michael Parrish,1992-01-30 One of the hallmarks of the Soviet system was its heavy reliance on internal and foreign security and intelligence organizations Not surprisingly given the secrecy surrounding Soviet efforts in these areas no biographical reference tools and few bibliographies have been published to date In this context Michael Parrish s work is a unique undertaking In the first section to the volume biographies are provided on some 4 000 officials in senior and mid level positions who had served in Cheka NKVD RFSFR GPU KGB and other organizations Also included are officials of the

Committee for State Control formerly Ministry of State Control and before that Commissariat of Workers and Peasants Inspection Prominent political personalities with earlier ties to security services such as N A Bulganin are listed even though such service formed only a brief part of their careers Others listed include party officials such as A A Kuznetsov who at different times served as the Party s watchdog of security organs Also included because of their close association with repression and security organs are members of Stalin s inner circle The second part of the volume is a survey of books in English published between 1917 and 1990 which related to Soviet security and intelligence organizations This is followed by a biographical addendum a glossary of terms and material showing the development of Soviet security organizations No one concerned with current intelligence issues and the role of security organizations in Soviet life can ignore this volume
