Polish-Soviet Relations 1932-1939 Bohdan B. Budurowycz, 1963-03-02 *Polish-Soviet Relations, 1932-1939* Bohdan Basil Budurowycz, 1963-01 **The History of Poland Since 1863** Roy Francis Leslie, R. F. Leslie, 1983-05-19 This is an account of the evolution of Poland from conditions of subjection to its reconstruction in 1918 development in the years between the two World Wars and reorganisation after 1945 It begins at a time when Poland was still suffering from the legacy of the eighteenth century Partitions and burdened with problems of sizeable ethnic minorities inadequate agrarian reforms and sluggish industrial development sustained by foreign capital It traces the history through to independence and then to the transformation of the country in the last thirty years Although many of the problems of the past have now disappeared industrialisation the structure of peasant agriculture and political association with the Soviet Union present the Polish People's Republic with difficulties that have yet to be resolved Substantial achievements in an ethnically homogeneous state must be set against substantial discontents This history provides the English speaking reader with a scholarly synthesis based mainly on literature in Polish and other East European languages It will be essential reading for historians of Eastern Europe and for those interested in modern Polish society **A Low, Dishonest Decade** Paul N. Hehn, 2005-09-26 Focusing on the rivalries among the Great Powers in the search for markets during the world depression of the 1930s the author surveys the five Major Powers and all the Eastern European countries from the Baltic to Turkey But he primarily canvases the economic situations in locations like Czechoslovakia Hungary Poland Romania and Yugoslavia *A History of The Gypsies of Eastern Europe and Russia* D. Crowe, 2016-09-23 In this fully updated edition with a new foreword by Andre Liebich David M Crowe provides an overview of the life history and culture of the Gypsies or Roma from their entrance into the region in the Middle Ages up until the present drawing from previously untapped East European Russian and traditional sources **Poland, a Country Study** United States. Department of the Army, 1983 General study of Poland covers history demographic aspects and geographical aspects social structure religious practice education health the economy agricultural sector industrial sector infrastructure trade external debt government politics political opposition international relations defence military service administration of justice etc Bibliography glossary maps organigram photographs statistical tables *Austria - Hungary - Poland - Russia* Herbert A. Strauss, 2011-09-06 No detailed description available for Austria Hungary Poland Russia **Study of Population and Immigration Problems** United States. Congress. House. Committee on the Judiciary, 1964 *Poland and the Western Powers 1938-1938* Anna M. Cienicala, 1968-12-15 This study has two objectives The first is to explain the nature and historical roots of the problems facing Polish foreign policy in 1938 39 and the manner in which they were approached by the men who shaped and directed Polish diplomacy The second is to illustrate the political interdependence in these years of Eastern and Western Europe This interdependence hinged on the German problem The attitude of France and Britain towards Poland and Eastern Europe as a whole was primarily a reflection of their policy

towards Germany at the same time this policy was the decisive factor in the individual reactions of Germany's eastern neighbours to the threat of resurgent German power. As far as Poland was concerned she not only had to strive to avert the danger of German revisionism the realization of which would have made her a vassal of Berlin but she also had to consider the possibility of Soviet expansion at her expense. This study is however primarily concerned with Polish attempts to obtain security with regard to Germany and in the period in question this was the main objective of Polish diplomacy. *Study of Population and Immigration Problems (II)*. United States. Congress. House. Committee on the Judiciary, 1963

The Great Powers and Poland Jan Karski, 2014-01-16 This definitive study provides a comprehensive diplomatic history of Poland during the most seminal period in its existence when its destiny lay in the hands of France Great Britain and the United States. Although sovereign in principle Poland was little more than an object of the Great Powers politics and rapidly changing relationships from the end of WWI to the end of WWII. Focusing on the shifting policies of the Great Powers toward Poland from the Treaty of Versailles to Yalta the book ends with Poland's tragic abandonment by the West into the hands of the Soviet Union. Enriched by unique anecdotal and archival material this book will be essential reading for all those seeking to understand Poland's role in twentieth century history. *Weak States in the International System* Michael I. Handel, 1990 This work defines weak states and their strengths and weaknesses. It examines why they are weak and their position in different international systems as well as their economic positions.

Between The Revolution And The West Hugh D. Phillips, 2019-09-19 This is the first complete biography of Maxim Litvinov a Bolshevik revolutionary who began his professional life running guns into Tsarist Russia and eventually became the leading Soviet diplomat in the turbulent 1930s. His was a spectacular career spanning some of the most dramatic decades of the twentieth century and including an unsuccessful effort to contain Hitler with the cooperation of the Western Allies. Litvinov's subsequent replacement as Soviet foreign minister by Molotov in 1939 signaled the dramatic shift in Soviet foreign policy that led directly to the outbreak of World War II. After the war Litvinov's final public act was to bluntly warn the West of the danger presented by Stalin's cold war policies a threat Litvinov even dared to compare with that posed by Hitler a decade earlier. Litvinov's career ended in the relative obscurity from which it had sprung his consistently pro-Western policies no longer consonant with the reemerging Soviet hostility toward the West. Passing away from remarkably natural causes in 1951 Litvinov left behind a political legacy that lay dormant for forty years until its recent revival by Mikhail Gorbachev. *Between the Revolution and the West* is based on extensive research in the Soviet Union and the West including previously unavailable archives and interviews with Litvinov's friends and family. Hugh Phillips' work casts light not only on Litvinov the man but also on Soviet foreign policy during crucial and dramatic times.

Examining the Soviet massacre of Polish prisoners of war at Katyn and other camps in 1940 one of the most notorious incidents of the Second World War this book sheds new light on what took place and how the memory of the massacres long affected and continues to affect Polish Russian relations **National Identities in Soviet Historiography** Harun

Yilmaz,2015-02-20 Under Stalin s totalitarian leadership of the USSR Soviet national identities with historical narratives were constructed These constructions envisaged how nationalities should see their imaginary common past and millions of people defined themselves according to them This book explains how and by whom these national histories were constructed and focuses on the crucial episode in the construction of national identities of Ukraine Azerbaijan and Kazakhstan from 1936 and 1945 A unique comparative study of three different case studies this book reveals different aims and methods of nation construction despite the existence of one party rule and a single overarching official ideology The study is based on work in the often overlooked archives in the Ukraine Azerbaijan and Kazakhstan By looking at different examples within the Soviet context the author contributes to and often challenges current scholarship on Soviet nationality policies and Stalinist nation building projects He also brings a new viewpoint to the debate on whether the Soviet period was a project of developmentalist modernization or merely a renewed Russian empire The book concludes that the local agents in the countries concerned had a sincere belief in socialism especially as a project of modernism and development and at the same time were strongly attached to their national identities Claiming that local communist party officials and historians played a leading role in the construction of national narratives this book will be of interest to historians and political scientists interested in the history of the Soviet Union and contemporary Eastern Europe the Caucasus and Central Asia **Catalogue of the Foreign Office Library, 1926-1968: Subject catalogue** Great Britain.
