I Can Hold My Own Edward A. Nowatzki, 2013-03-27 I Can Hold My Own is a true story about what it was like growing up in New York City in the 1940s through the eyes a first generation American the son of Polish immigrants As one might expect the lifestyle and day to day activities of a youngster growing up in an urban environment were a lot different from those of a similarly aged

youngster growing up on a farm in the Midwest Added to the demographic differences in Dr Nowatzkis case there were also differences from being a first generation American caught in transition between the culture of his parents native Poland and that of twentieth century America Dr Nowatzki describes his experiences in a way that illustrates these differences from many perspectives ranging from his attending a Catholic parochial school and playing sports on the playgrounds of New York to his awareness of historical events such as World War II The story comes from a period in American history when life was relatively simple and the culture was family oriented and deeply rooted in traditional American values based on loyalty to God and country Unlike today there were no distractions from television the Internet computer games and social networks so youngsters had to provide their own means for leisure time activities Some of those activities are described from Dr Nowatzkis perspective as a participant I Can Hold My Own will be of interest to anyone growing up in the United States at that time whether on a farm or in a large city like New York The story will also be of interest to any first generation American faced with a similar transition between two different cultures

Music Trade Indicator ,1921 *Our Times, Our Lives* Eve Otto,Jozef Otto,2004-11 Eve Otto explains When I began writing this book I had in the back of my mind that those who are young now might someday be interested in what life was like when their grandparents were growing up how life changed drastically with the coming of World War II in Europe and the turbulent years that followed the traumas of our emigration to America with our three young children and the difficult adjustments we had to make My book then is sort of a legacy to them

Carlson, Elisabeth Weber,2012-09-12 This collection of essays is the first book to take up the urgent issue of torture from the array of approaches offered by the arts and humanities In the post 9 11 era where we are once again compelled to entertain debates about the legality of torture this volume speaks about the practice in an effort to challenge the surprisingly widespread acceptance of state sanctioned torture among Americans including academics and the media entertainment complex *Speaking about Torture* also claims that the concepts and techniques practiced in the humanities have a special contribution to make to this debate going beyond what is usually deemed a matter of policy for experts in government and the social sciences It contends that the way one speaks about torture including that one speaks about it is key to comprehending legislating and eradicating torture That is we cannot discuss torture without taking into account the assaults on truth memory subjectivity and language that the humanities theorize and that the experience of torture perpetuates Such accounts are crucial to framing the silencing and demonizing that accompany the practice and representation of torture Written by scholars in literary analysis philosophy history film and media studies musicology and art history working in the United States Europe and the Middle East the essays in this volume speak from a conviction that torture does not work to elicit truth secure justice or maintain security They engage in various ways with the limits that torture imposes on language on subjects and community and on governmental officials while also confronting the complicity of artists and humanists in torture through their silence forms of silencing and classic means of representation Acknowledging this history is central to the volume s advocacy of speaking about torture through the forms of witness offered and summoned by the humanities
