Política Agraria En Mexico En El Siglo Xix:

Política agraria en México en el siglo XIX Miguel Mejía Fernández, 1979 **México, estructuras política, económica y social** Gloria M. Delgado de Cantú, 2003 **Índice acumulativo de la Revista de la Universidad Autónoma de Yucatán, 1959-1995** Raúl García Velarde, Víctor José Ramírez Peña, 1997 *From Insurrection to Revolution in Mexico* John Tutino, 2018-06-05 The description for this book From Insurrection to Revolution in Mexico Social Bases of Agrarian Violence 1750 1940 will be forthcoming *Revolutionary Mexico* John Mason Hart, 1997-12-15 Looks at the Mexican Revolution against the background of world history discusses the causes of the revolt and compares it with those in Iran Russia and China *The Origins of Mexican National Politics, 1808-1847* Jaime E. Rodríguez O., 1997 The Origins of Mexican National Politics includes the first four essays from Scholarly Resource s highly regarded book The Evolution of the Mexican Political System With articles by leading American Mexican and Canadian scholars this volume is an excellent introduction to the politics of early national Mexico The authors focus on the politics processes and institutions of Mexico during the first half of the nineteenth century p The Origins of Mexican National Politics is ideal for scholars and students researching the political history of Mexico and seeking to understand its evolution **Rediscovering The Past at Mexico's Periphery** Gilbert M. Joseph, 2003-09-29 Surveys major trends in Yucatán s currents in Mexican historiography and suggest new departures for regional and local level research Increasingly the modern era of Mexican history c 1750 to the present is attracting the attention of Mexican and international scholars Significant studies have appeared for most of the major regions and Yucatán in particular has generated an unusual appeal and an abundant scholarship This book surveys major trends in Yucatán s currents in Mexican historiography and suggest new departures for regional and local level research Rather than compiling lists of sources around given subject headings in the manner of many historiographies the author seeks common ground for analysis in the new literature s preoccupation with changing relations of land labor and capital and their impact on regional society and culture Joseph proposes a new periodization of Yucatán s modern history which he develops in a series of synthetic essays rooted in regional political economy *Peasants, Politics, and the Formation of Mexico's National State* Peter F. Guardino, 1996 This is a study of the important but little understood role of peasants in the formation of the Mexican national state from the end of the colonial era to the beginning of La Reforma a moment in which liberalism became dominant in Mexican political culture The book shows how Mexico s national political system was formed through local struggles and alliances that deeply involved elements of Mexico s impoverished rural masses notably the peasants who took part in many of the local regional and national rebellions that characterized early nineteenth century politics These rebellions were not battles over whether or not there was to be a state they were contests over what the state was to be The author focuses on the region of Guerrero whose peasantry were deeply involved in the two most important broadly based revolts of the early nineteenth century the War of Independence of 1810 21 and the 1853 55 Revolution of

Ayutla the rebellion that began La Reforma The book s central contention is that there are fundamental links between state formation elite politics popular protest and the construction of Mexico s modern political culture Various elite groups advanced different models of the state which in turn had different implications for and impacts on the lives of Mexico s lower classes Contesting elites formed alliance with segments of Mexico s peasantry as well as the urban poor and these alliances were crucial in determining national political outcomes Thus the participation of wide sectors of the population in politics for varying reasons and the subsequent learning of tactics and elaborations of discourse left an enduring mark on Mexico s political system and culture Ensayos sobre la nueva historia política de América Latina, siglo XIX Guillermo Palacios,2007 Esta obra es resultado del Coloquio Internacional Los caminos de la democracia en América latina siglo XIX revisi n y balance de la nueva historia pol tica Los prop sitos estaban centrados en analizar tanto desde el punto de vista te rico como del metodol gico y a partir de estudios de situaciones emp ricas la naturaleza de las nuevas tendencias historiogr ficas que crecieron y se consolidaron en las ltimas d cadas del siglo pasado al amparo de una renovaci n de los enfoques y de los temas de la historia pol tica del subcontinente anclados casi todos ellos en la revaloraci n de la historia de la cultura pol tica y en ejercicios de amalgama entre la historia de la cultura y la historia pol tica propiamente dichas **The Wars of Independence in Spanish America** Christon I. riqueza Por lo menos por cinco siglos el país se desarrolla y busca insistentemente una nicho dominante de modernización que ha resultado excluyente y en desmedro del México campesino e indígena Por eso aquí se intenta con un enfoque diacrónico interpretar las diversas etapas históricas del desarrollo agroalimentario en México En la última parte del libro se hacen diversas propuestas que pretenden cambiar de enfoque poner énfasis en los pequeños agricultores campesinos herederos más directos de aquel núcleo original mesoamericano y que por cierto poseen también un claro potencial productivo Propuestas que por un lado dan cuenta de las transformaciones territoriales del país de las nuevas modalidades en los asentamientos humanos y del imperativo de conservar los recursos naturales y dar valor a nuestra biodiversidad así como a nuestra rica cultura alimentaria Por otra parte se detalla una estrategia de producción a partir de los pequeños productores campesinos que ahora se dedican a múltiples tareas y que pueden desarrollar cadenas productivas de oferta más vinculadas a sus propias regiones y asentamientos de distinto tamaño El enfoque da prioridad a la provisión de bienes públicos no como el único pero sí como el más importante elemento de esta estrategia entre otras cosas porque los bienes públicos permitirán dar valor a los activos de los campesinos más pobres como son sus tierras sus saberes sus semillas y sus territorios **Política**

Agropecuaria y Pesquera en México Logros Recientes, Continuación de las Reformas OECD, 2007-03-30 Este reporte analiza los efectos de las ambiciosas reformas en México a las políticas de agricultura y pesca desde 1990 y realiza recomendaciones para futuras reformas La evaluación se basa en los criterios para las políticas más apropiadas de *The Second Conquest of Latin America* Steven C. Topik, Allen Wells, 2010-02-01 Between 1850 and 1930 Latin America's integration into the world economy through the export of raw materials transformed the region This encounter was nearly as dramatic as the conquistadors' epic confrontation with Native American civilizations centuries before An emphasis on foreign markets and capital replaced protectionism and self sufficiency as the hemisphere's guiding principles In many ways the means employed during this period to tie Latin America more closely to western Europe and North America resemble strategies currently in vogue Much can be learned from analyzing the first time that Latin Americans embraced export led growth This book focuses on the impact of three key export commodities coffee henequen and petroleum The authors concentrate on these rather than on national economies because they illustrate more concretely the interaction between the environment natural and human resources and the world economy By analyzing how different products spun complex webs of relationships with their respective markets the essays in this book illuminate the tensions and contradictions found in the often conflictive relationship between the local and the global between agency and the not so invisible hand Ultimately the contributors argue that the results of the second conquest were not one sided as Latin Americans and foreigners together forged a new economic order one riddled with contradictions that Latin America is still attempting to resolve today

Veracruz Héctor Amezcua Cardiel, 1990 **Historia contemporánea de América** Antoni Marimon Riutort, Josep Miquel Santacreu Soler, 2015-05-16 En aquest llibre s'ha defugit la temptació de convertir la història contemporània d'Amèrica

en un mosaic inconnex de petites històries nacionals de cada país i s'han abordat per contra i de forma innovadora els grans problemes històrics continentals des de finals del segle XVIII fins a l'actualitat més estricta
