*Political Alternatives for Southern Africa* D. J. Van Vuuren, Dan J. Kriek, 1983      **South Africa** Siri Gloppen, 2019-05-23  
Originally published in 1997 *South Africa The Battle over the Constitution* analyses rivaling positions in the South African constitutional debate from the early 1990s via the 1993 interim constitution to the adoption and certification of the new Final Constitution in December 1996 A theoretical framework is developed to analyze the constitutional structure of the contesting constitutional models and the book looks into their potential for addressing the problems of violence social inequality and ethnic tension and for achieving legitimacy and constitutionalism It argues that the constitutional solutions are premised on incomparable conceptions of South African reality and that the Final Constitution includes elements based on incompatible world views The compromises required by the constitutional moment could pose problems for the constitutional function The book also discusses other factors influencing the consolidation of a constitutional democracy in South Africa such as the role of the Constitutional Court and the attempts to create legitimacy for the constitution by broad public participation in the constitution making process      **Political Science in South Africa** Peter Vale, Pieter Fourie, 2016-01-13 In 2013 and in 2014 respectively the South African Association of Political Studies SAAPS and Politikon the South African Journal of Political Studies celebrate their 40th anniversary Also in April 2014 South Africa celebrates twenty years since the advent of the post Apartheid democracy and the birth of the rainbow nation This book provides a timely account of the birth and evolution of South African politics over the past four decades but also of the study of Political Science and International Relations in this country Fourteen political scientists contribute chapters to this volume situating the study of politics within its global context and recounting the development of politics as a field of study at South African universities The fourteen contributions evaluate the state of the discipline s and suggest conclusions that are surprising and in many instances unsettling not only with regards to what and how politics is taught but also how its study has variously gained and lost pertinence for South Africans understanding of their own polity as well as its place in the world The implications are uncomfortable and pose interesting challenges for South African scholarship pedagogy and national self reflection This book was published as a special issue of Politikon      **South Africa's Crisis of Constitutional Democracy** Robert A. There is no Supreme Constitution Koos Malan, 2019-10-04 None of the articles of faith of the South African Constitution is plausible The Constitution is not supreme and entrenched Subject to potent socio political forces it changes continuously and often profoundly regardless of stringent amendment requirements The trite threefold separation of powers is more metaphorical than real and therefore unable to secure effective checks and balances Though institutionally separated with their own personnel and functions the three powers are ordinarily integrated in a single dominant political leadership committed to achieving the same ideological goals The bill of individual rights cannot guarantee justice because rights are subject to the ideologically driven exercise of judicial interpretation often with damaging consequences for those relying on the bill of rights This situation does not only apply to South Africa but to all Constitutions premised on the same articles of faith in this book described as the doctrine of statist individualist constitutionalism An improved mode of constitutionalism is called for one which is equipped with a sounder system of checks and balances and better endowed towards the achievement of justice through a balanced constitution
