Political Capacity In Developing Societies:

Political Capacity in Developing Societies A. H. Somjee, 1982-03-11 *Political Capacity And Economic Behavior* Jacek Kugler, 2018-10-08 Given today's heightened competition between national economies in the global marketplace many have come to believe that government intervention is needed in order for a country to maximize its economic well being But to what extent can even the most capable government act to attract investment and enhance economic growth without creating or exacerbating conflicts in society especially when unpopular measures such as those aimed at controlling inflation and population growth must be implemented This timely book by an international team of economists and political scientists tackles that question head on The contributors draw on theory and empirical data to provide a framework for measuring governments ability to gather material resources and mobilize populations They analyze a variety of policy choices made in the United States and in other nations around the world during the past fifty years showing how states can increase their political capacity and thereby reduce economic transaction costs and domestic resistance to government goals **Political Society in Developing Countries** A.H. Somjee, 1984-06-18 **Parallels and Actuals of Political Development** A.H. Somjee, 1986-06-18 **The Political Economy of Climate Finance Effectiveness in Developing Countries** Mark Purdon, 2024 In *The Political Economy of Climate Finance Effectiveness in Developing Countries* Mark Purdon contributes to broader debates on the international climate cooperation by evaluating how three different climate finance instruments have been undertaken in three countries Tanzania Uganda and Moldova and evaluates their effectiveness in actually reducing emissions He shows that the effectiveness of climate finance tools depends on the interaction between a nation's development policy paradigms and its interests in other sectors of their economies Purdon's findings further inform the design of international and transnational efforts to engage developing countries on climate change mitigation by emphasizing the importance of domestic politics and the state Public Sector Reforms in Developing Countries Charles Conteh, Ahmed Shafiqul Huque, 2014-04-03 The underpinning assumption of public management in the developing world as a process of planned change is increasingly being recognized as unrealistic In reality the practice of development management is characterized by processes of mutual adjustment among individuals agencies and interest groups that can constrain behaviour as well as provide incentives for collaborative action Paradoxes inevitably emerge in policy network practice and design The ability to manage government departments and operations has become less important than the ability to navigate the complex world of interconnected policy implementation processes Public sector reform policies and programmes as a consequence are a study in the complexities of the institutional and environmental context in which these reforms are pursued Building on theory and practice this book argues that advancing the theoretical frontlines of development management research and practice can benefit from developing models based on innovation collaboration and governance The themes addressed in *Public Sector Reforms in Developing Countries* will enable public managers in developing countries
