Political Conditionality:

Political Conditionality Georg Sorensen,2013-11-05 Political conditionality involves the linking of development aid to certain standards of observance of human rights and liberal democracy in recipient countries Although this may seem to be an innocent policy it has the potential to bring about a dramatic change in the basic principles of the international system putting human rights first means putting respect for individuals and rights before respect for the sovereignty of states

Aid and Political Conditionality Olav Stokke,2013-04-03 Foreign aid has increasingly become subject to political conditionality In the 1980s some institutions made aid dependent upon the recipient countries economic policy reforms Market liberalisation was the primary instrument and objective In the 1990s such conditionality was brought one step further aid was now linked to political reforms affecting recipient countries governing systems requiring democracy human rights and good governance This volume looks at these developments and considers the conditionality policies of several European aid donors Such policies are also considered from recipient perspectives both from the Third World and Russia and the issue is also considered from a historical perspective *European Union's Approach to Human Rights Conditionality in Practice*

Elena Fierro,2003 2 2 3 Rule of Law **The Use of Political Conditionality in the EU's Relations with Third**

Countries Karen Elizabeth Smith,1997 **Economic and Political Reform in Developing Countries** Oliver Morrissey,Frances Stewart,2016-07-27 This volume explores the interactions between economic and political reform in developing countries and eastern Europe Over the past decade there have been significant moves both towards economic reform essentially involving a greater role for the market and a lesser role for the state and political reform with important steps taken towards democratic forms of government In some areas political change preceded economic reform as in much of eastern Europe while elsewhere economic and political reform have gone hand in hand often as a result of external pressure The essays cover a wide range of experience of economic and political reforms from which some general lessons emerge The most important one is that political and economic reforms interact in complex ways with political reform often acting to slow down or even reverse economic reform Secondly it is shown that the state has an important role to play in guiding reform and preventing market excesses **Croatia and the European Union** Pero Maldini,Davor Paukovi?,2016-03-09 The

accession of Croatia to the EU marked the end of a long and arduous period of transition Croatia had to meet significantly higher criteria than previous states with suspicion and concerns among existing members about further enlargement increasing Meanwhile initially strong public support in Croatia declined as inconsistencies in EU policy entry criteria and problems caused by the economic crisis all combined with fears about the loss of national identity and the ability to realize national interests The successful Croatian accession to the EU in 2013 shows that despite concerns on both sides the EU continues to have meaning and significance and that membership remains highly desirable Through nine mutually interrelated chapters the contributors speak not only about the political and social situation in Croatia but also prospects for

the European Union itself Conflicting Objectives in Democracy Promotion Julia Leininger, Sonja Grimm, Tina Freyburg, 2017-07-05 The agenda of external actors often includes a number of objectives that do not necessarily and automatically go together Fostering security and stability in semi authoritarian regimes collides with policies aimed at the support of processes of democratization prone to conflict and destabilization Meanwhile the promotion of national self determination and political empowerment might lead to forms of democracy partially incompatible with liberal understandings These conflicting objectives are often problematized as challenges to the effectiveness of international democracy promotion This book presents systematic research about their emergence and effects The contributing authors investigate post conflict societies developing countries and authoritarian regimes in Southeast Europe Latin America Africa and Asia They identify the socio economic and political conditions in the recipient country the interaction between international and local actors and the capacity of international and local actors as relevant for explaining the emergence of conflicting objectives And they empirically show that faced with conflicting objectives donors either use a wait and see approach i e not to act to overcome such conflicts they prioritize security state building and development over democracy or they compromise democracy promotion with other goals However convincing strategies for dealing with such conflicts still need to be devised This book was published as a special issue of Democratization **The EU and Member State Building** Soeren Keil, Zeynep Arkan, 2014-12-05 This book critically examines the process of statebuilding by the EU focusing on its attempts to build Member States in the Western Balkan region This book analyses the European Union s policies towards and the impact they have upon the states of the Western Balkans and assesses how these affect the nature of EU foreign policy To this end it focuses on the tools and mechanisms that the EU employs in its enlargement policy and examines the new instruments of direct intervention in Bosnia and Kosovo political coercion in the case of Croatia and Serbia in relation to the International Criminal Tribunal for the former Yugoslavia and stricter conditionality in the Western Balkan countries The book discusses the key aim of this special form of statebuilding which is to establish functional liberal democratic states in Albania Bosnia and Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia in order for them to join the EU and to cope with the responsibilities and pressures of membership in the future However the authors argue that while the EU sees itself as an international actor that promotes and protects liberal democratic values norms and principles its experiences in the Western Balkans demonstrate how the EU s actions in the region have undermined the basic principles of democratic decision making such as the European support for impositions in Bosnia and international law Kosovo and have consequently contributed to new tensions see police reform in Bosnia and the tensions between Kosovo and Serbia and dependencies This book will be of much interest to students of statebuilding EU politics global governance and IR Security Studies in general

Divergent Pathways: Turkey and the European Union Meltem Müftüler-Baç, 2016-01-18 Should Turkey become a part of the European Union This heated debate has been going on for many years now always under the assumption that it is

the membership candidate alone who needs to adjust to the EU's influence. The book's main argument is precisely that the Turkish accession needs to be analyzed not only by looking at the EU's impact on Turkish transformation but also from an angle that captures the Turkish role in recasting Europe. **Foreign Aid in a Changing World** Peter Burnell, 1997-09-16

An accessible introduction for all social science students. A balanced comprehensive and up to date treatment of the issues and trends. A guide to the past present and future of foreign aid. Foreign aid has undergone considerable changes over the past fifty years. *Foreign Aid in a Changing World* explores the changes and locates them in a context of wider economic and political developments. These are the developments affecting all countries in North South East and West and in particular the changing relations among them. The book analyses the different reasons why some countries both in the developing world and former communist states seem to need assistance. It critically surveys the values based and interests based arguments in favour of aid and its many forms encompasses the important non governmental and multilateral dimensions as well as the bilateral flows at national and sub national levels and focuses particularly on the contemporary emphasis on making aid dependent on democratization and good government. Peter Burnell examines the principal influences on foreign aid what makes aid controversial and whether it has a future. He provides an important text for all students of international relations and development studies across the social science disciplines. *Aid and the Political Economy of Policy Change* Tony

Killick, Ramani Gunatilaka, Ana Marr, 1998. Confronts the theory of conditionality with its limitations in practice analyses the reasons for these limitations and suggests constructive alternatives. International Politics and National Political Regimes Peter Burnell, Oliver Schlumberger, 2014-06-11. There is much speculation about whether democracy is still advancing around the world and the influence that leading authoritarian or semi authoritarian regimes such as Russia are starting to have on the trends. This collection assesses global trends in democratisation reviews the condition of international democracy promotion and enquires into whether serious competition in the form of autocracy promotion is now a major possibility. The influence of international politics on national political regimes is explored in more detail for Russia's resistance to democracy promotion and Russian influence on regimes in Central Asia in particular along with an Indian perspective on India's reluctance to push for democracy abroad and concerns that democracy promotion itself should be considered more critically if it undermines democratisation in foreign aid dependent states. The book concludes by briefly addressing the potential significance of the 2011 Arab spring for these themes. This book was published as a special issue of *Contemporary Politics*.

Integrating the Balkans Máire Braniff, 2011-06-30. Emerging from a decade of violent ethnic and inter state conflict during the 1990s the countries of the Western Balkans entered a phase of rebuilding and reconciliation. Due to the key role played by the EU in the region's rebuilding efforts *Integrating the Balkans* explores this institution's considerable efforts to influence and shape the nature of state society and foreign relations as it utilised the promise of membership as a vital tool to exert its influence. The picture that materialises is one of the EU's discernible but often contradictory impact as it offers the

carrot of EU membership in the hope that the legacies of the past conflict can be re evaluated re imagined and transformed By also analysing the conditions that come with EU aid such as co operation with the International Criminal Tribunal for the former Yugoslavia ICTY Maire Braniff offers an extremely important perspective for all those involved in the study and practice of the processes of European integration and post conflict resolution

The Political Economy of Aid in Palestine Sahar Taghdisi-Rad,2010-10-04 This book examines the nature of donor operations in Palestine and questions the viability of aid as an instrument of economic development in conflict zones It highlights the political and ideological determinants of aid allocation and effectiveness arguing that aid to Palestine cannot bring about significant improvement as long as the Palestinian economy is fundamentally affected by Israeli occupation settlement and blockade

The Road to the European Union Jacques Rupnik,Jan Zielonka,2003-11-08 Publisher Description

International Actors, Democratization and the Rule of Law Amichai Magen,Leonardo Morlino,2008-07-25 Explores how external influences and international actors can help hybrid regimes which display minimal elements of an electoral democracy to be transformed into a quality democracy

Interests and Stability or Ideologies and Order in Contemporary World Politics Fabio Fossati,2017-05-11 Drawing upon extensive experience of both theoretical and empirical research according to the Italian school of Political Science this book provides a holistic assessment of contemporary world politics It begins by defining concepts such as world order before going on to classify foreign policies into four models of political cultures namely the interests intensive conservative the ideologies intensive liberal the leftist constructivist and the leftist Manichean The volume shows how multipolar and bipolar systems have remained relatively stable with each main power defending its own interests yet ultimately not promoting ideas and order Change periods however are instable Between 1915 and 1945 Nazi fascist and communist ideologies emerged but after Yalta the West did not effectively export market democracy and peace to the Third World After 1989 the ideas of liberalism in economic globalization and EU enlargement neo conservatism in the Iraq war and multi cultural leftism in pluri national conflict resolution processes began to be applied toward a near world order Since 2001 Islamic fundamentalism s threat has

prevented both stability with the failure of the concert of powers of the 1990s and order with minimal improvements in democracy and peace Following the Arab Spring Obama has also abandoned interests intensive conservative diplomacy no longer supporting lesser evils personalistic or military regimes against absolute evils such as the Islamic State and waged only low intensity wars in Iraq Syria and Libya
