## **Political Culture Group Conflict In Communist China:**

*Political Culture & Group Conflict in Communist China* Alan P. L. Liu, 1976      *Political Culture and Communist Studies* Archie Brown, 1985-01-01      Problems of Communism, 1990      **Mao's Revolution and the Chinese Political Culture** Richard H. Solomon, 1971 Political science analysis of the impact of Mao's political leadership on politics, cultural change and social change in China gives a historical perspective of Maoist political doctrine developed in context with traditional values examines the motivational mechanisms for securing political participation and covers social conflict, political opposition, the political system, the dynamics of political education etc. Selected bibliography pp 575 to 588      **China During the Cultural Revolution, 1966-1976** Tony H. Chang, 1999-01-30 One of the most tumultuous periods in modern Chinese history, the Cultural Revolution affected virtually all Chinese people and all aspects of Chinese life including art, music and drama, education, factory management, economic planning and medical care. Studies of the Cultural Revolution in both Chinese and Western languages have burgeoned over the past three decades. This comprehensive easy-to-use bibliography provides a guide to published English language sources on the Cultural Revolution. With over a thousand entries, it includes books, monographs, dissertations and audio-visual materials on a broad range of topics from the military, education, religion and economics to foreign relations, population, art, literature and drama. Including titles published through the end of 1997 and a few in 1998, the book provides a general overview of the literature on the Chinese Cultural Revolution and its impact on China. Its scope and coverage make it a useful resource for any library whose readers have an interest in modern Chinese history.      Comparative Politics: The politics of Asia Howard J. Wiarda, 2005      **Law and Politics in Modern China** Sharron Gu, 2009 This is an original interdisciplinary study of Chinese law, its language and political institution. Evolving within a complex literary framework over thousands of years, Chinese language has lost its conceptual distinctiveness to its multilevel and overlapping meanings and connotations. Chinese law has become inflated with contrary rulings and exceptions. This mass of rules requires an extra-lingual legal authority to redefine boundaries and specify applications. This book follows and continues the author's *The Boundaries of Meaning and the Formation of Law* (McGill University Press) by illustrating how language shapes the formation, application and administration of law in various cultural environments. *Law and Politics in Modern China* is an important book for those interested in Chinese history, culture, law and politics. It also provides refreshing insights about the way that law continues to function after its language matures and creates contradictions and loopholes within its system of rules, one of the most important issues facing Western legal administration in the immediate future.

**Public Communication Campaigns** Ronald E. Rice, Charles K. Atkin, 2001 This edition provides readers with a comprehensive up-to-date look into the field of public communication campaigns. It includes a variety of recent campaign dimensions such as community orientated and entertainment education campaigns.      China's Continuous Revolution Lowell Dittmer, 2024-03-29 China's Continuous Revolution: The Post Liberation Epoch 1949-1981 explores the ambitious and

transformative era of China's political landscape after the founding of the People's Republic in 1949. This meticulously researched volume delves into the ideology of continuous revolution under the dictatorship of the proletariat and its profound impact on Chinese politics. Drawing from extensive interviews and historical analysis, the book examines key elements such as charismatic leadership, mass mobilization, and the complex restructuring of authority, highlighting the successes, failures, and eventual exhaustion of revolutionary zeal. It provides a nuanced perspective on China's socio-political evolution during a pivotal era of change, grappling with questions about legitimacy, power dynamics, and the role of ideology in shaping policy and governance. Dittmer's work also contrasts China's revolutionary trajectory with global ideological movements, presenting a critical examination of the enduring tensions between utopian aspirations and practical governance. By analyzing the Cultural Revolution, agricultural collectivization, and the broader socio-political reforms of the era, the book offers a compelling narrative of a nation's struggle to reconcile revolutionary ideals with the realities of modern state building. Scholars, students, and readers interested in China's contemporary history and political development will find this an invaluable resource for understanding the complexities of revolution and reform in a rapidly transforming society. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1987.

*Challenging the Mandate of Heaven* Elizabeth J. Perry, 2015-05-20. Social science theories of contentious politics have been based almost exclusively on evidence drawn from the European and American experience, and classic texts in the field make no mention of either the Chinese Communist revolution or the Cultural Revolution, surely two of the most momentous social movements of the twentieth century. Moreover, China's record of popular upheaval stretches back well beyond this century, indeed all the way back to the third century B.C. This book, by bringing together studies of protest that span the imperial, Republican, and Communist eras, introduces Chinese patterns and provides a forum to consider ways in which contentious politics in China might serve to reinforce, refine, or reshape theories derived from Western cases.

Communications and National Integration in Communist China Alan P. L. Liu, 1975-01-01. Monograph on the role of the mass media in political education in China describes how radio, film, and press are used to put across communist political ideology with a view to promoting nationalism and changing people's behaviour and attitudes. Bibliography pp. 215 to 221. Map, references, and statistical tables.

Reform, Legitimacy And Dilemmas: China's Politics And Society Gungwu Wang, Yongnian Zheng, 2001-02-06. How has China's post-Deng leadership governed the country? How have the changing social and political environments shifted the bases of political legitimacy? What strategies has Jiang Zemin adopted to cope with new circumstances in order to strengthen his leadership? What are the challenges these new reform measures have generated for the leadership? And how have domestic concerns constrained the leadership's intention in China's foreign

relations These are some of the questions which this volume attempts to address The authors agree that Jiang Zemin is not a man without any political initiative He has struggled to establish his own style of leadership and to strengthen the legitimacy of his leadership by setting forth new rules and institutions for political games and by finding new measures to cope with new challenges This collection of articles shows the success Jiang and his colleagues have had in strengthening their leadership how the different reform measures have strengthened Jiang's rule and how the ongoing reform has created new challenges for his regime Asian Power and Politics Lucian W. PYE, Mary W. Pye, Lucian W Pye, 2009-06-30 In a major new book

Lucian W Pye reconceptualizes Asian political development as a product of cultural attitudes about power and authority He contrasts the great traditions of Confucian East Asia with the Southeast Asian cultures and the South Asian traditions of Hinduism and Islam and explores the national differences within these larger civilizations Breaking with modern political theory Pye believes that power differs profoundly from one culture to another In Asia the masses of the people are group oriented and respectful of authority while their leaders are more concerned with dignity and upholding collective pride than with problem solving As culture decides the course of political development Pye shows how Asian societies confronted with the task of setting up modern nation states respond by fashioning paternalistic forms of power that satisfy their deep psychological craving for security This new paternalism may appear essentially authoritarian to Western eyes but Pye maintains that it is a valid response to the people's needs and will ensure community solidarity and strong group loyalties He predicts that we are certain to see emerging from Asia's accelerating transformation some new version of modern society that may avoid many of the forms of tension common to Western civilization but may also produce a whole new set of problems This book revitalizes Asian political studies on a plane that comprehends the large differences between Asia and the West and at the same time is sensitive to the subtle variations among the many Asian cultures Its comparative perspective will provide indispensable insights to anyone who wishes to think more deeply about the modern Asian states

The Journal of Asian Studies, 1978 *Perspectives On Development In Mainland China* King-yuh Chang, 2019-05-28 The contributors to this book explore a variety of issues concerned with mainland China's political processes military structure and economic development among them changes in both the ideological superstructure and the organizational base of Chinese politics the problem of succession military strategies and civil military relations the use of **Human Rights Constitutionalism in Japan and Asia** Lawrence W. Beer, 2009-05-01 Less noticed in the West than wars terrorism and economic trends has been the historic development since World War II of constitutional government and law in Asia Lawrence W Beer has been a close observer of Asian linkages among law politics culture and national security issues for over fifty years His perspectives have been refined during long residence in Asia especially Japan by substantial friendly interactions with Asian legal scholars judges and attorneys involved in the world of human rights constitutional law This volume which will be widely welcomed by students and researchers brings together a selection of Beer's many works

previously published in diverse venue but no longer easily accessible The collection opens with a review of constitutionalism in Asia and the United States and concludes with a recent examination of Japan's rejection of war Japan's Constitutional Discourse and Performance By way of Afterword the author offers an in depth review of Globalization of Human Rights in the 21st Century **The Chinese Military System** Harvey W Nelsen, 2019-07-11 To understand the Chinese military and thereby the dynamics of China's peacetime army one must understand its organizational system To that end Harvey Nelsen has written a book that examines in detail the entire organization of the Chinese People's Liberation Army PLA Dr Nelsen studies the PLA from top to bottom Throughout he challenges the widely held theory that military politics in China are largely determined by personal relations among officers and that the PLA is more a civic action army than are most military organizations Important as a purely military study this book is valuable also for the light it sheds on the whole of Chinese bureaucratic politics This second edition has been revised to reflect changes that have occurred since the death of Chairman Mao as well as to incorporate new information about the Chinese military and political system during Mao's reign

**Proceedings of the Third Sino-American Conference on Mainland China** Zhan Lian, 1974 Proletarian Power Elizabeth Perry, 2018-05-04 This pathbreaking book offers the first in depth study of Chinese labor activism during the momentous upheaval of the Cultural Revolution Arguing that labor was working at cross purposes the authors explore three distinctive and different forms of working class protest rebellion conservatism and economism Drawing upon a wealth of heretofore inaccessible archival sources the authors probe the divergent political psychocultural and socioeconomic strains within the Shanghai labor movement convincingly illustrating the complexity of working class politics in contemporary China This pathbreaking book offers the first in depth study of Chinese labor activism during the momentous upheaval of the Cultural Revolution The authors explore three distinctive forms of working class protest rebellion conservatism and economism Labor they argue was working at cross purposes through these three modes of militancy promoted by different types of leaders with differing agendas and motivations Drawing upon a wealth of heretofore inaccessible archival sources the authors probe the divergent political psychocultural and socioeconomic strains within the Shanghai labor movement As they convincingly illustrate the multiplicity of worker responses to the Cultural Revolution cautions against a one dimensional portrait of working class politics in contemporary China *Citizens and Groups in Contemporary China* Victor Falkenheim, 2020-08-06 *Citizens and Groups in Contemporary China* began with two symposia held in 1977 and 1978 The first a workshop on The Pursuit of Interest in China was held in August 1977 at the University of Michigan and was organized by Michel Oksenberg and Richard Baum It was supported by a grant from the Joint Committee on Contemporary China of the Social Science Research Council and the American Council of Learned Societies using funds provided by the Andrew Mellon Foundation Its principal goal was to use detailed case studies to explore the relevance of interest group approaches to the study of Chinese politics The second a panel organized by the editor for the 1978 Chicago meeting of the Association of Asian

Studies sought to apply participatory approaches to the role of social groups in the Chinese political process. The striking degree of overlap in the focus, methodology, and participants in both meetings suggested to a number of the paper writers that there was a need for a more eclectic approach which would focus simultaneously on individual and group actors. The recognition that a volume based on such an approach might serve the needs of students and scholars seeking to examine the dynamics of informal influence and power in China was the stimulus for publishing the studies presented here in book form. ix
