The Making of a Pariah State Martin Sicker, 1987-03-04 The Making of a Pariah State takes the reader behind the flamboyance and apparent irrationality of Libyan leader Muammar Qaddafi to expose his attempt to impose national cohesion on the Arab Muslim and Third World elements under his leadership Addressed to the general reader interested in foreign affairs this timely and unique book provides a coherent framework for understanding why Libya is involved in international terrorism and the danger Qaddafi poses to the Third World and the West

The Politics of Nuclear Non-Proliferation Ursula Jasper, 2013-10-08 This book examines the puzzle of why some states acquire nuclear weapons whereas others refrain from trying to do so or even renounce them Based on the predominant theoretical thinking in International Relations it is often assumed that nuclear proliferation is inevitable given the anarchic nature of the international system Proliferation is thus often explained by vague references to states insecurity in an anarchic environment Yet elusive generalisations and grand abstract theories inhibit a more profound and detailed knowledge of the very political processes that lead towards nuclearisation or its reversal Drawing upon the philosophical and social theoretical insights of American pragmatism *The Politics of Nuclear Non Proliferation* provides a theoretically innovative and practically useful framework for the analysis of states nuclear proliferation policies Rather than recounting a parsimonious lean account of proliferation the framework allows for the incorporation of multiple paradigms in order to depict the complex political contestation underlying states proliferation decisions This pragmatist framework of analysis offers ways of overcoming long standing metatheoretical gridlocks in the IR discipline and encourages scholars to reorient their efforts towards imminent real world challenges This book will be of much interest to students of nuclear proliferation international security and IR theory

Polity And Society In Contemporary North Africa I. William Zartman, William Mark Habeeb, I William Zartman, 2019-06-04 In the twenty five years since the last comprehensive book on state and society in North Africa was published the nations of the Maghrib have undergone profound social political and economic changes The region has for example experienced one of the highest population growth rates in the world accompanied by a dramatic increase in migration

Political Psychology And Foreign Policy Eric Singer, Valerie M Hudson, 2020-02-24 First published in 1992 One of the issues of particular interest to political psychologists centers around how foreign policy decisions are made The psychological phenomena that political psychologists examine have to do with how individuals perceive interpret feel about and react to their environment The political factors have to do with the activities involved in governing or the making of public policy that is with how the material and human resources of a collectivity are allocated The research presented in this

volume addresses 6 key questions that link psychological and political processes and the chapters are organized around three conceptual clusters: perception studies, personality studies and studies of group dynamics. **The Cambridge History of Africa** J. D. Fage, Roland Anthony Oliver, Michael Crowder, 1975. The eighth and final volume of The Cambridge History of Africa covers the period 1940-75. It begins with a discussion of the role of the Second World War in the political decolonisation of Africa. Its terminal date of 1975 coincides with the retreat of Portugal, the last European colonial power in Africa, from its possessions and their accession to independence. The fifteen chapters, which make up this volume, examine on both a continental and regional scale the extent to which formal transfer of political power by the European colonial rulers also involved economic, social and cultural decolonisation. A major theme of the volume is the way the African successors to the colonial rulers dealt with their inheritance and how far they benefited particular economic groups and disadvantaged others. The contributors to this volume represent different disciplinary traditions and do not share a single theoretical perspective on the recent history of the continent, a subject that is still the occasion for passionate debate. [Africa, Asia, and South America Since 1800](#) A. J. H. Latham, 1995. A reference for graduate and undergraduate students presenting the bibliographic details and sometimes describing and evaluating the content of over 5,000 books in English, most published since 1945 and many quite recently, but also some earlier works of enduring importance. A section of works on all three continents is followed by sections on each, which first consider the continent as a whole, then each country, usually by chronological periods and topics such as economics, politics and society. Indexed only by author and editor, but the table of contents is detailed enough to provide adequate access. Distributed in the US by St Martin's Press. Annotation copyright Book News Inc, Portland, Or. **North Africa's Arab Spring** George Joffé, 2013-10-18. This book addresses issues surrounding the evolution of the Arab Spring in North Africa. After a general introduction and explanation of the events on a region-wide basis, it turns to examine aspects of each of the countries concerned. The role of the Muslim Brotherhood during the Nasser regime and in the contemporary situation is compared together with an analysis of the emergence of new political parties in Egypt. The book analyses the links between social media and satellite television during the revolution in Egypt. This is followed by a study of the intellectual and cultural background to the Tunisian revolution and an analysis of the new political parties in Tunisia. It also looks at the revolution process in Libya and concludes with a study of why there was no revolution in Algeria and how the Moroccan monarchy was able to sideline those who challenged it at the price of constitutional changes that are essentially cosmetic. This book was originally published as a special issue of The Journal of North African Studies. **The Foreign Policies Of Arab States** Bahgat Korany, Ali El-Din Hillal Dessouki, 2019-07-09. Middle East politics have been proverbial for their changeability. The 1970s ushered in petro-politics, for instance, but OPEC's international status declined markedly in the following decade. Similarly, the Arab world's ostracism of Egypt in the 1970s, following its separate peace with Israel, was turned around in the 1980s; the late 1980s also brought PLO acceptance of the State of Israel. Interstate relations

were not the only arena to experience significant alterations state society relations also underwent dramatic changes such as the acceleration of privatization in erstwhile socialist regimes Then the 1990s opened with a political earthquake the Gulf Crisis The second edition of this highly acclaimed text offers a penetrating analysis of trends in Arab foreign policies since the book was originally published in 1984 including an early analysis of the effects of Iraq's invasion of Kuwait and the subsequent coalition victory over Iraq In addition the authors have included new chapters on Jordan at the heart of the Arab world and on the Sudan the region's link to sub Saharan Africa Their inclusion allows a fuller understanding of the foreign policies of states that occupy crucial geopolitical positions but wield little tangible power Moreover in many of its chapters the book raises the crucial question of how the foreign policies of these countries can cope with the prevalence of political change

Micro-evidence for Peacebuilding Theories and Policies Yuichi Kubota, 2022-11-30 Relying on micro evidence on the repercussions of civil conflicts this edited book explores theories and policies of post conflict peacebuilding Reconsidering existing knowledge on the civil conflict and peacebuilding processes in particular it empirically presents the relationships between conflict dynamics and citizens norms values and preferences in the post conflict context Once it occurs civil conflict brings enormous suffering on the local society As a consequence of wartime coercion and violence that tear it apart citizens come to harbor fear distrust and hatred of others especially of those who are in different sociopolitical groups This can significantly alter the pre conflict norms and values of the citizenry and make reconciliation difficult across groups in the aftermath of the conflict To tackle these problems post conflict peacebuilding should be well designed so that it can widely cover and sufficiently deal with conflict affected citizens This approach urges us to pay serious attention to the individual level impact of the conflict process and dynamics The importance of micro level analysis does not disregard that of normative and or macro level approaches to the development of peacebuilding policies However the micro level approach is better able to capture wartime civil military relations that largely vary between individuals The book is aimed at linking academic knowledge with policy development in peacebuilding To reflect existing policy frameworks in peacebuilding the implications of micro evidence based studies for conflict affected societies are discussed here A bottom up approach pursued throughout this book allows us to elaborate desirable policy schemes for peacebuilding that conform to local contexts

Arab Resources I. Ibrahim, 2016-03-22 The modern Arab world is faced with a serious problem in the imbalance between human and natural resources The Gulf states with their vast natural resources are poor in human resources whereas in Egypt or Jordan the picture is reversed This study first published in 1983 considers the range of factors affecting development in the Arab world and examines the broad sectoral resources the infrastructure for resource development and the range of problems shaping the political economy of Arab advancement In conclusion an analysis is made of the existing trends in the transformation of Arab society and ways are suggested in which these trends will develop over the next decade

The Arab Spring Carlo Panara, Gary Wilson, 2013-01-08 The Arab Spring New Patterns for Democracy and International Law explores

a number of critical issues brought to the forefront of the international community as a result of the uprisings which began in the Middle East and North Africa in early 2011. Particularly prominent among these are issues concerning the right to democracy within international law, self-determination, recognition of newly installed governments, the use of force for humanitarian purposes, protection of human rights and the prosecution of international crimes. This important volume brings together a multitude of fresh voices and as events in the Arab world continue to unfold, it is certain to make a valuable contribution to a meaningful understanding of the Arab Spring from a constitutional and international law perspective.

Taking a comprehensive approach to the subject, it looks at the processes that lead to radicalisation rather than the often violent outcomes.

Problems of Communism, 1985 *The Government And Politics Of The Middle East And North Africa, Fourth Edition* David Long, Bernard Reich, 2002-04-08 Rapid social, economic and political change is endemic to the Middle East and is often more revolutionary than evolutionary in nature. In many ways, the entire political landscape of the Middle East has been transformed in the past decade in the realm of both international relations and domestic politics. The collapse of the Soviet Union, the end of the cold war and the Iraqi invasion of Kuwait have all had a profound effect on relations among states within the region and between those states and countries outside the region. In this revised edition, Long and Reich provide comprehensive and up-to-date analyses of many critical contemporary events and issues. The contributors explain how Desert Storm isolated Iraq and brought Syria back into the mainstream of Arab politics, contributing to the revival of the Arab-Israeli peace process. They also show how the return of a Labor government in Israel has allowed the peace process to go forward. Evaluating the economic costs of the Kuwait war and the continuing oil glut, the authors find that resulting changes in the domestic economies of the oil-producing states have created additional pressures for social and political change. The most profound change in government and politics, however, is the rise of Islam as the idiom of political discourse among moderates as well as extremists.
