# Political Disobedience Studies In Comparative Politics

**Natasha Lindstaedt, Jeroen J.J. den Bosch**

## **Political Disobedience Studies In Comparative Politics:**

**Political Disobedience** Leslie John Macfarlane, 1971 *Comparative Constitutions* L. Wolf- Phillips, 1972-06-18  
*Basic Forms of Government* Bernard Crick, 1973-06-18 NEW STUDIES ON CIVIL-MILITARY RELATIONS AND DEFENSE POLICY IN BRAZIL ED.1 Octavio Amorim Neto, 2023-01-04 After one of the longest military regimes in Latin America's history Brazil transitioned to democracy in 1985 It was inevitable that from then on the political power of the military would decline However the extent to which the country's armed forces would eschew politics was never clear given the vast role it had always played in domestic affairs since the onset of the republic in 1889 The Study of Political Science Today William James Millar Mackenzie, 1971 Comparative Communist Politics Ghița Ionescu, 1972 *Routledge Handbook of Mediterranean Politics* Richard Gillespie, Frédéric Volpi, 2017-08-14 The Mediterranean space defined by a major sea a large number of littoral countries and to some extent their hinterlands is at the same time an interface between Europe Africa and Asia This brings complex challenges in terms of achieving peace and stability Recently it has received intense international attention through the internal destructiveness and spill over from conflicts primarily those waged in Libya Syria and more remotely Iraq This Handbook provides an overview of the political processes that shape the Mediterranean region in the contemporary context It explores the issues of crucial importance to Mediterranean dynamics through a series of analytical sections that guide the reader towards a comprehensive understanding of the main regional interactions and trends The Handbook explores the complex historical formation of the contemporary Mediterranean geopolitical perspectives issues around peace and conflict the political economy of the region the role of non state actors and social movements societal and cultural trends The wide range of contributions from many of the leading academic experts on the region offers not only insights into the debates and processes that structure each theme but also key pointers for a more general understanding of how distinct political economic social and cultural dynamics interact across the region It will therefore be a key resource for policy makers and students and scholars of Mediterranean politics and international relations

**Foreign Policy and the Political Process** William Wallace, 1971 **Religious Persecution and Political Order in the United States** David T. Smith, 2015-11-12 This book explains why the United States a country that values religious freedom has persecuted some religious minorities while protecting others It explores the experiences of Mormons Jehovah's Witnesses Jews Catholics and Muslims arguing that the state will persecute a religion if it sees it as a political threat

**Research Handbook on Authoritarianism** Natasha Lindstaedt, Jeroen J.J. den Bosch, 2024-03-14 This Research Handbook provides a comprehensive overview of the latest knowledge on authoritarian regimes Combining quantitative research and in depth case studies it not only provides novel insight into past and current dictatorships but also forecasts potential new developments in authoritarian politics Political Culture Dennis Kavanagh, 1972 *Research Handbook on Civil-Military Relations* Aurel Croissant, David Kuehn, David Pion-Berlin, 2024-04-12 Bringing together leading scholars from

across the world this comprehensive Research Handbook analyses key problems subjects regions and countries in civil military relations Showcasing cutting edge research developments it illustrates the deeply complex nature of the field and analyses important topics in need of renewed consideration *Political Development* Clement Henry Dodd,1972 **Shock to the System** Michael K. Miller,2021-07-20 How violent events and autocratic parties trigger democratic change How do democracies emerge Shock to the System presents a novel theory of democratization that focuses on how events like coups wars and elections disrupt autocratic regimes and trigger democratic change Employing the broadest qualitative and quantitative analyses of democratization to date Michael Miller demonstrates that more than nine in ten transitions since 1800 occur in one of two ways countries democratize following a major violent shock or an established ruling party democratizes through elections and regains power within democracy This framework fundamentally reorients theories on democratization by showing that violent upheavals and the preservation of autocrats in power events typically viewed as antithetical to democracy are in fact central to its foundation Through in depth examinations of 139 democratic transitions Miller shows how democratization frequently follows both domestic shocks coups civil wars and assassinations and international shocks defeat in war and withdrawal of an autocratic hegemon due to autocratic insecurity and openings for opposition actors He also shows how transitions guided by ruling parties spring from their electoral confidence in democracy Both contexts limit the power autocrats sacrifice by accepting democratization smoothing along the transition Miller provides new insights into democratization s predictors the limited gains from events like the Arab Spring the best routes to democratization for long term stability and the future of global democracy Disputing commonly held ideas about violent events and their effects on democracy Shock to the System offers new perspectives on how regimes are transformed **The Study of Politics** Greg Pycrz,2011-01-01 The Study of Politics explores and addresses the implications of committing to specific principles and methodologies in political science research while offering balanced assessments of the strengths and weaknesses of each method Pycrz also considers the assumptions regarding human agency inherent to each approach and attends more generally to the state of political science as a discipline Readers will gain a strong foundation in theoretical work and a greater appreciation for its practical value The Study of Politics both challenges and enables students of politics and government to conduct research with a deeper awareness of the intellectual traditions underlying their work

*Soldiers of Democracy?* Sharan Grewal,2023-07-04 Why do some militaries support and others thwart transitions to democracy After the Arab Spring revolutions why did Egypt s military stage a coup to end the transition Conversely why did Tunisia s military initially support the transition only to later facilitate the elected president s dismantling of democracy In *Soldiers of Democracy* Military Legacies and the Arab Spring Sharan Grewal argues that a military s behavior under democracy is shaped by how it had been treated under autocracy Autocrats who had empowered their militaries produce soldiers who will repress protests and stage coups to preserve their privileges Meanwhile autocrats who had marginalized

their militaries produce soldiers who support democratization but who are also more susceptible to incumbent takeovers and civil wars The dictator's choice to either empower or marginalize the military thus creates legacies that shape both the likelihood of democratization and the forms by which it breaks down Drawing on over 140 interviews with civilian and military leaders and three surveys of military personnel this scholarly volume illustrates this theory through detailed case studies of Egypt and Tunisia Grewal also probes the generalizability of the theory through a cross national analysis of all countries between 1946-2010 Overall he brings the military front and center to the study of democratic transition and consolidation

**Foundations of Comparative Politics** Kenneth Newton, Jan W. van Deth, 2010 Now with global coverage this second edition brings key concepts theories and methods of comparative politics to life *Foundations of Comparative Politics* Ken Newton, Jan W. Van Deth, 2005-09-01 This authoritative new introductory text covers the key concepts theories and issues involved in the study of comparative politics Focusing on democratic government it covers all important topics in the field from constitutional design and institutions through mass and elite politics groups parties the media and governments to policy making and implementation The final chapter considers the future of the state and democracy in a globalising world The authors draw on experiences and examples from around the world and the book includes extensive supporting apparatus for students and teachers including briefings fact files key terms guides to further reading and related websites Each chapter ends with a section dealing with the major theoretical approaches to the subject The aim is to give students a clear and comprehensive account of democratic politics and government at the start of the twenty first century

**Comparative Politics** Daniele Caramani, 2014 This exciting and authoritative introduction to comparative politics provides a range of perspectives methods and theories at the heart of political systems around the world Alongside explanations of the most important themes students are presented with a wealth of empirical data to demonstrate similarities and differences in practice and to encourage research This new edition takes account of the latest developments in the wake of democratic uprisings in North Africa and the Middle East and sees a much stronger emphasis on the financial crisis paying particular attention to state finances and stressing the effects of the crisis on political attitudes and forms of participation

An Introduction to Comparative Politics Johannes Lindvall, 2025 Johannes Lindvall provides a uniquely accessible and truly global introduction to the principles and methodology of comparative politics with learning features that build students confidence in thinking critically about political systems and the data through which we can study them
