Social and Gender Inequality in Oman Khalid M. Al-Azri, 2013 Looking at the social political and legal changes in Oman since 1970 this book challenges the Islamic and tribal traditional cultural norms relating to marriage divorce and women s rights which guide social and legal practice in the modern Omani state The book argues that despite the establishment of legal instruments guaranteeing equality for all citizens the fact that the state depends upon Islamic and tribal elites for its legitimacy invalidates these guarantees in practice Two particular features of the legal and cultural regulation of marriage and marital rights are focused on the perceived requirement for kafa aor equality in marriage between so called high and low socio economic status peoples is examined and the institution of talaq which grants greater rights to men than to women in appeals for divorce This book addresses highly complex subjects with great rigor in terms of empirical research and engagement with theory sociological and political as well as theological and legal It is an interesting investigation of the divisions of authority between the state Islam and tribal norms highlighting barriers to reform in both Oman and wider Islamic society and advocating the removal of such obstacles

state of Israel **The African Studies Companion** Hans Zell, 2021-11-15 Published in dual print and electronic formats this is a new edition of a much acclaimed reference source that brings together a wide range of sources of information in the African studies field covering both print and electronic sources It evaluates the best online resources the major general reference tools in print format current bibliographies and indexing services biographical cartographic statistical and economic resources as well as film and video resources Additionally there are separate sections on African studies library collections and repositories throughout the world a directory of over 250 African studies journals listings of news sources profiles of publishers active in the African studies field dealers and distributors of African studies materials African studies societies and associations major African and international organizations donor agencies and foundations awards and prizes in African studies electronic mailing lists and discussion forums and more **Islamists of the Maghreb** Jeffry Halverson, Nathaniel Greenberg, 2017-10-05 In 2011 the Maghreb occupied a prominent place in world headlines when Sidi Bouzid Tunisia became the birthplace of the so called Arab Spring Events in Tunisia sparked huge and sometimes violent uprisings Longstanding dictatorships fell in their wake The ensuing democratic reforms resulted in elections and the victory of several Islamist political parties in the Arab world This book explores the origins development and rise of these Islamist parties by focusing on the people behind them In doing so it provides readers with a concise history of Sunni Islam in North Africa the violent struggles against European colonial occupation and the subsequent quest for an affirmation of Muslim identities in its wake Exploring Islamism as an identity movement rooted in the colonial experience this book argues that votes for Islamist parties after the Arab Spring reflected a universal human need for an authentic sense of self This view contrasts with the popular belief that support for Islamists in North Africa reflects a dangerous fundamentalist view of the world that seeks to simply impose archaic religious laws on modern societies Rather the electoral success of Islamists in the Maghreb like Tunisia's Ennahdha party is rooted in a reaffirmation of the Arab Islamic identities of the Maghreb states long delayed by dictatorships that mimicked Western models and ideologies e.g. Socialism Ultimately however it is argued that this affirmation is a temporary phenomenon that will give way in time to the fundamental need for good governance accountability and a stable growing economy in these countries Written in an accessible format and providing fresh analytical perspectives on Islamism in the Maghreb this book will be a valuable tool for students and scholars of Political Islam and North African Politics **Educational Transitions in Post-Revolutionary Spaces** tavis d. jules, Teresa Barton, 2018-02-22 Educational Transitions in Post Revolutionary Spaces explores the transformation of the education system in Tunisia following the Jasmine Revolution the first of a wave of revolutions known as the Arab Spring The authors provide a detailed account of how Tunisia's robust education system shaped and sparked the conflict as educated youth became disgruntled with their economic conditions Exploring themes such as radicalization gender activism and social media the chapters map out the steps occurring during transitions from authoritarian rule to democracy Educational Transitions in Post

Revolutionary Spaces traces the origins of the conflict and revolution in societal issues including unemployment inequality and poverty and explores how Islam and security influenced the transition The book not only offers a thorough understanding of the role of youth in the revolution and how they were shaped by Tunisia s educational system Crucially it provides a comprehensive understating of theoretical and methodological insights needed to study educational transitions in other post revolutionary contexts *State and Society in Iraq* Benjamin Isakhan,Shamiran Mako,Fadi Dawood,2017-03-17 The activities of ISIS since 2014 have brought back to centre stage a series of very old and very troubling questions about the integrity and viability of the Iraqi state However most analysts have framed recent events in terms of their immediate past and without the contextual background to explain their evolution State and Society in Iraq moves beyond a short sighted analysis to place the complex and contested nature of Iraqi politics within a broader and deeper historical examination In doing so the chapters demonstrate that beyond the overwhelming emphasis on failed occupations cruel tyrants ethnic separatists and violent religious fanatics is an Iraqi people who have routinely agitated against the state advocated for legitimate and accountable government and called for inter communal harmony When the authors maintain the Iraqi people are given agency in the complex process of consent negotiation and resistance that underpin successful state society relations the nation can move beyond patterns of oppression and cruelty of dangerous rhetoric and divisive politics and towards a cohesive peaceful and prosperous future despite the many difficulties and the steep challenges that lie ahead

Encyclopedia of Government and Politics M. E. Hawkesworth,Maurice Kogan,1992 *The Great Betrayal* Fawaz A. Gerges,2025-04-29 A history of the political instability in the Middle East driven largely by great power conflict and predictions for the future of the region The Sykes Picot Agreement of 1916 divided the Middle East into states with unnatural boundaries drawn by colonial powers with short term interests and no consideration for the people or future of the region The century that followed saw bad governance systemic corruption geopolitical rivalries and endless foreign intervention and meddling effectively redrawing borders by force While there is no singular cause for instability in the Middle East Gerges s analysis explains the origins of numerous past and ongoing conflicts to draw conclusions about where the region is heading using the past to predict the future of Arab politics religion and life The Hundred Years War for the Middle East introduces Gerges s new Middle East shaped by the changes and discontinuity of present day He presents five major predictions for the next century state collapse and the emergence of new states the present state system enduring with minor alteration durability of political authoritarianism a new social contract based on constitutional arrangements and a combination of both constitutionalism and political authoritarianism From the Sykes Picot Agreement to the rise of ISIS our modern understanding of the key actors non state organizations like Al Quaeda and ISIS and dominant forces allows us to examine how changing relationships and rising tensions will shape the next century **The African Charter on Human and Peoples' Rights Volume 2** Nat Rubner,2023 Landmark study of the African Charter on Human and Peoples Rights

Documents on one side the international community's inability to foist a human rights system upon Africa and on the other the process within the OAU now African Union that eventually brought it into being and determined its content The African Charter on Human and Peoples Rights ACHPR which was proposed in 1979 adopted in 1981 and came into effect in 1986 was the first non Western declaration of human rights and the first official statement of an African human rights perspective With Africa largely absent in 1948 when the Universal Declaration of Human Rights UDHR was adopted it stands in stark historical reproach to the Western conception of universal human rights as a pivotal document in the decolonisation of the continent This book for the first time presents a comprehensive account of the development of the ACHPR which is key to a proper understanding of its fundamental nature Through documenting its process of construction it becomes possible to understand how Africans themselves understood the process and the issues involved and how the ACHPR became a political text asserted by African leaders and not a continuum of a so called universal human rights tradition The result is a radical repositioning of the underlying context of the ACHPR one of the most important documents in modern African history of how it came to be and how it should therefore be understood Volume 2 describes the process through which the ACHPR came into being Analysing the role of Western governments the UN and NGOs it shows that contrary to the prevailing view of African human rights commentators their influence was limited and at times counter productive That in fact the formulation of the ACHPR was a profoundly political process that was primarily a product of an African desire to instigate its own human rights perspective as a counter to the human rights universalism advanced by the Western post war human rights tradition

Financial reforms, stabilization and development in 21st-century Turkey Haluk Haksal, 2019-03-28 The central argument of this book is that while central bank independence can contribute to stabilization inflation targeting monetary policy is quite powerless in promoting economic development The basic message is simple Policy makers should not strive to achieve price stability at any cost as stability in product markets does not necessarily translate into economic development The recent experience of Turkey is illuminating and other developing countries in particular those using inflation targeting monetary policy framework can draw useful lessons from this experience Early chapters summarize the deregulation process from 1980 to 2001 The Turkish Central Bank is placed at the center of the analysis as monetary policies have a significant impact both on stability and development Although the 1994 and 2001 financial crises have been extensively studied elsewhere they are nevertheless summarized to underscore the importance of central bank independence Later chapters investigate the impact of an independent central bank on stabilization and development from 2001 onwards Upon visiting the Turkish Central Bank's website readers are greeted with the following statement The primary objective of the Bank is to achieve and maintain price stability By the end of this book the reader should be able to assess the relative merits of a monetary policy that focuses on price stability versus an alternative where price stability is accompanied by other objectives targeting development for instance monitoring also unemployment rates which would undermine its independence to some

degree The study aims to provide a perspective on the need for such an alternative in line also with the vision of some international agencies on development such as the UNCTAD and the ILO This is the first book length study examining the financial reforms Turkey undertook in its path towards EU accession This unique work will be of interest to economists and other experts in financial history de regulation institutional economics and economic development as well as a broad range of scholars interested in the dramatic transformation of Turkey s economy and society in the 21st century **Oil** Xiaobing Li,Michael Molina,2014-10-14 Despite ongoing efforts to find alternatives oil is still one of the most critical and valuable commodities on earth This two volume set provides extensive background information on key topics relating to oil profiles countries that are major producers and consumers of oil and examines relevant political issues Aside from air and water oil is perhaps the most valuable natural resource Oil supplies the tremendous energy needs of the modern world What exactly is oil where does it come from how does it get consumed and who is using it This encyclopedia provides clear answers to these questions and more offering students entries on the fundamentals of the oil industry and profiles of the countries that play a major role in oil production and consumption Volume 1 presents topical entries on critical concepts key terms major oil spills and disasters and important organizations and individuals relating to the oil industry Entries define terms such as barrel and reserve cover incidents such as the BP oil spill and explain the significance of organizations such as OPEC The second volume spotlights specific countries that are major producers consumers exporters and importers of oil from the United States to Russia to Saudi Arabia to Venezuela Each profile shows readers the importance of oil in that country through a brief background history data on its oil usage or production information about major trading partners and an explanation of political issues *Survival* 49.4 Dana Allin,2017-10-03 *Survival* the Institute of Strategic Studies quarterly journal is a leading forum for analysis and debate of international and strategic affairs With a diverse range of authors eight to ten articles per issue plus thoughtful reviews and review essays *Survival* is scholarly in depth while vivid well written and policy relevant in approach Shaped by its editors to be both timely and forward thinking the journal encourages writers to challenge conventional wisdom and bring fresh often controversial perspectives to bear on the strategic issues of the moment

Censorship of Historical Thought Antoon De Baets,2001-12-30 History is an important dangerous and fragile subject Historical thought can be censored in widely diverging political and historiographical contexts as historians are well aware Yet the problems of censorship often thought to be obvious are rarely studied Filling a significant void this guide supplies information on the censorship of historical thought and the fate of persecuted historians in over 130 countries from Afghanistan to Zimbabwe and from 1945 to 2000 With each entry providing a chronological overview of cases and giving a full listing of sources the book is the first systematic effort to overview the repression of historical thought Aiming to encompass all countries in which censorship and persecution have taken place De Baets sketches a world map of repression that goes beyond the well known and well studied cases It assembles scattered data from three types of sources the works of

censors and censored historical and biographical dictionaries and historiographical surveys and reports from international human rights organizations Showing the universality of historical censorship and its infinite variety in amount and degree the book also provides a basis for further comparative research Turkey: facing a new millennium Amikam

Nachmani,2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license Turkey's involvement in the Gulf War in 1991 paved the way for the country's acceptance into the European Union This book traces that process and in the first part looks at Turkey's foreign policy in the 1990s considering the ability of the country to withstand the repercussions of the fall of communism It focuses on Turkey's achievement in halting and minimising the effects of the temporary devaluation in its strategic importance that resulted from the waning of the Cold War and the disintegration of the Soviet Union the skilful way in which Turkey avoided becoming embroiled in the ethnic upheavals in Central Asia the Balkans and the Middle East and the development of a continued policy of closer integration into the European and western worlds Internal politics are the focus of the second part of the book addressing the curbing of the Kurdish revolt the economic gains made and the strengthening of civil society Nachmani goes on to analyse the prospects for Turkey in the twenty first century in the light of the possible integration into Europe which may leave the country's leadership free to deal effectively with domestic issues This book will make crucial reading for anyone studying Turkish politics or indeed European or European Union politics **The African Charter on Human and Peoples' Rights [2 Volume Set]**

Nat Rubner,2023 A landmark study of the African Charter on human and peoples rights one of the most important documents in modern African history that positions it within the African Lives Matter struggle to assert an African identity rather than as simply a human rights document This set describes its underlying African origins and how the principles of the OAU influenced its path and content *The Politics of Authoritarian Rule* Milan W. Svolik,2012-09-17 What drives politics in dictatorships Milan W Svolik argues authoritarian regimes must resolve two fundamental conflicts Dictators face threats from the masses over which they rule the problem of authoritarian control Secondly from the elites with whom dictators rule the problem of authoritarian power sharing Using the tools of game theory Svolik explains why some dictators establish personal autocracy and stay in power for decades why elsewhere leadership changes are regular and institutionalized as in contemporary China why some dictatorships are ruled by soldiers as Uganda was under Idi Amin why many authoritarian regimes such as PRI era Mexico maintain regime sanctioned political parties and why a country's authoritarian past casts a long shadow over its prospects for democracy as the unfolding events of the Arab Spring reveal Svolik complements these and other historical case studies with the statistical analysis on institutions leaders and ruling coalitions across dictatorships from 1946 to 2008 *A Movement's Promise* Samer Al-Saber,2025-08-26 Starting in the

1970s Palestinian theater flourished as part of a Palestinian cultural spring In the absence of local radio television and uncensored journalism theater production became the leading form of artistic expression and Palestinian theater artists self

identified as a movement Although resistance was not their sole function these theater makers contributed to an active cultural resistance front With this book Samer Al Saber tells the story of the Palestinian Theater Movement over nearly three decades as they created plays and productions that articulated versions of Palestinian identity critiqued social norms celebrated and extended Palestinian cultural values and challenged the power disparity created by the Occupation The struggles between Palestinian theater artists and Israeli authorities form the central relationships in this history Al Saber juxtaposes the agency of Palestinian theater artists in their determination to perform against immense challenges with the power of Israeli authorities to grant or deny permission to theatrical productions The legal structure of institutionalized censorship prevented Palestinian artists from expressing their chosen message and the theater movement's search for permission to perform illuminates the disparity in power between the occupier and the occupied In writing the first history of the Palestinian Theater Movement Al Saber amplifies necessary voices in this Palestinian cultural history told from below

Israel's Foreign Policy Beyond the Arab World Jean-Loup Samaan, 2017-11-28 For over 60 years Israel's foreign policy establishment has looked at its regional policy through the lens of a geopolitical concept named the periphery doctrine The idea posited that due to the fundamental hostility of neighboring Arab countries Israel ought to counterbalance this threat by engaging with the periphery of the Arab world through clandestine diplomacy Based on original research in the Israeli diplomatic archives and interviews with key past and present decision makers this book shows that this concept of a periphery was and remains a core driver of Israel's foreign policy The periphery was borne out of the debates among Zionist circles concerning the geopolitics of the nascent Israeli State The evidence from Israel's contemporary policies shows that these principles survived the historical relationships with some countries Iran Turkey Ethiopia and were emulated in other cases Azerbaijan Greece South Sudan and even to a certain extent in the attempted exchanges by Israel with Gulf Arab kingdoms The book enables readers to understand Israel's pessimistic or realist in the traditional sense philosophy when it comes to the conduct of foreign policy The history of the periphery doctrine sheds light on fundamental issues such as Israel's role in the regional security system its overreliance on military and intelligence cooperation as tools of diplomacy and finally its enduring perception of inextricable isolation Through a detailed appraisal of Israel's periphery doctrine from its birth in the fifties until its contemporary renaissance this book offers a new perspective on Israel's foreign policy and will appeal to students and scholars of Middle East Politics and History and International Relations
