Political Life Why People Get Involved In Politics:

Political Life Robert Edwards Lane,1959 **The Political Culture of Japan** Bradley M. Richardson,2022-08-19 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 **Why Don't Americans Vote?** Bridgett A. King,Kathleen Hale,2016-07-11 This timely book provides a thought provoking discussion of issues that influence voter registration and turnout in contemporary America Elections not only determine who will fill an office they have a lot to say about how the democratic process works or doesn t work in 21st century America This fascinating book sheds light on that question by focusing on factors that currently shape elections and political participation in the United States It covers issues that are consistently in the media such as gerrymandering voter ID and rules pertaining to when where and how Americans register and vote But it also goes beyond the obvious to consider issues that are often overlooked civic education and engagement citizen apathy and political alienation for example The volume begins with an introduction to elections that includes a discussion of the history of voting in the United States Each subsequent chapter covers a different topic relative to registration and voting It addresses matters of education as well as socialization mobilization and the legal and political structures that shape U S political participation Ideal for readers who may be considering such concerns for the first time the work will foster an understanding of why political participation is important and of the causes and consequences of non voting **Young People's Political Participation in Western Europe** Gema Garcia Albacete,2014-10-10 Are young people today politically apathetic Or are they democratically mature citizens This book examines several types of involvement to reveal changes in young people s political participation in Europe in recent decades It uses various concepts of age to compare participation across countries and over time **Political Participation; how and why Do People Get Involved in Politics?** Lester W. Milbrath,1965 **The International Encyclopedia of Political Communication, 3 Volume Set** Gianpietro Mazzoleni,Kevin G. Barnhurst,Ken'ichi Ikeda,Rousiley C. M. Maia,Hartmut Wessler,2015-12-14 The International Encyclopedia of Political Communication is the definitive single source reference work on the subject with state of the art and in depth scholarly reflection on the key issues within political communication from leading international experts It is available both online and in print Explores pertinent salient topics within political science sociology psychology communication and many other disciplines Theory empirical research and academic as well as professional debate are widely covered in this truly international and comparative work Provides clear definitions and explanations which are both cross national and cross disciplinary by nature Offers an unprecedented level of authority accuracy and balance with contributions from leading international experts in their associated fields Part of The Wiley Blackwell ICA International Encyclopedias of Communication

series published in conjunction with the International Communication Association Online version available at Wiley Online Library www.wiley.com Named Outstanding Academic Title of 2016 by Choice Magazine a publication of the American Library Association Understanding Inequality: Social Costs and Benefits Amanda Machin, Nico Stehr, 2016-04-14 The contributions in this book highlight contextualize and analyze different aspects of social inequality What are the various cause and effects of inequality How have these changed over recent decades Which social policies might be best able to intervene Written by authors from a variety of disciplines and geographical regions these contributions provide a rich account of inequality within contemporary society The role of the state the media and the market in exacerbating and alleviating patterns of equality are all accessed alongside analysis of changing patterns of exclusion and hierarchy Political Participation in Beijing Tianjian Shi, 1997 In this first scientific survey of political participation in the People's Republic of China Tianjian Shi identifies twenty eight participatory acts and groups them into seven areas voting campaign activities appeals adversarial activities cronyism resistance and boycotts What he finds will surprise many observers Political participation in a closed society is not necessarily characterized by passive citizens driven by regime mobilization aimed at carrying out predetermined goals Beijing citizens acknowledge that they actively engage in various voluntary participatory acts to articulate their interests In a society where communication channels are controlled by the government Shi discovers access to information from unofficial means becomes the single most important determinant for people's engaging in participatory acts Government sponsored channels of appeal are easily accessible to ordinary citizens so socioeconomic resources are unimportant in determining who uses these channels Instead voter turnout is found to be associated with the type of work unit a person belongs to subjective evaluations of one's own economic status and party affiliation Those most likely to engage in campaign activities adversarial activities cronyism resistance and boycotts are the more disadvantaged groups in Beijing While political participation in the West fosters a sense of identification the unconventional modes of participation in Beijing undermine the existing political order *Political Life* Robert Edwards Lane, 1965 **NGOs, Political Protest, and Civil Society** Carew Boulding, 2014-06-23 This book argues that non governmental organizations NGOs have an important effect on political participation in the developing world Contrary to popular belief they promote moderate political participation through formal mechanisms such as voting only in democracies where institutions are working well This is a radical departure from the bulk of the literature on civil society that sees NGOs and other associations as playing a role in strengthening democracy wherever they operate Instead Carew Boulding shows that where democratic institutions are weak NGOs encourage much more contentious political participation including demonstrations riots and protests Except in extreme cases of poorly functioning democratic institutions however the political protest that results from NGO activity is not generally anti system or incompatible with democracy again as long as democracy is functioning above a minimal level **Sociologists, Economists, and Democracy** Brian Barry, 1988-09-15

Rationalist theories of political behavior have recently risen in status to that of a new or more accurately rediscovered paradigm in the systematic study of politics Brian Barry's short provocative book played no small part in the debate that precipitated this shift Without reservation Barry's treatise is the most lucid and most influential critique of two important competing perspectives in political analysis the sociological school of Talcott Parsons Gabriel Almond and other so called functionalists and the economic school of Anthony Downs and Mancur Olson among others Dennis J Encarnation *American Journal of Sociology*

Politics and Ideology in Canada Michael Ornstein, Michael Stevenson, 2003-02-18 Winner of the Harold Adams Innis Prize *Politics and Ideology in Canada* examines a period of crucial historical change in Canada beginning in the mid 1970s when the crisis of the Keynesian welfare state precipitated a transition to a new political order based on the progressive downsizing of state involvement in the economy and society Using class and ideology as key concepts Michael Ornstein and Michael Stevenson examine this transition in terms of the nature of hegemony and hegemonic crisis and the conditions of political order and instability These concepts guide the interpretation of three large surveys of representative samples of the Canadian public and two unique elite surveys conducted between 1975 and 1981 The surveys cover an exceptionally broad spectrum of political issues including social programs civil and economic rights economic policy foreign ownership labour relations and language issues and sovereignty A wide ranging analysis of public and elite attitudes reveals a hegemonic order through the early 1980s built around public support for the institutions of the Canadian welfare state But there was also widespread public alienation from politics Public opinion was quite strongly linked to class but not to party politics Regional variation in political ideology on a broad range of issues was less pronounced than differences between Quebec and English Canada Much deeper ideological divisions separated the elites with a dramatic polarization between corporate and labour respondents State elites fell between these two though generally more favourable to capital The responses of the business elites reveal the ideological roots of the Mulroney years in support for cuts in social programs free trade privatization and deregulation

Political Engagement of the Young in Europe Peter Thijssen, Jessy Siongers, Jeroen Van Laer, Jacques Haers, Sara Mels, 2015-12-14 Although many scholars are convinced of the apparent civic disengagement of youth others suggest that civic participation of young people is stable and increasingly expressed through non institutionalized forms of practicing politics This book makes a key contribution to this discussion by asking whether the decline or shift paradigm is sufficient in understanding political participation of the youth It argues that we need to move beyond this framework and develop a renewed reflection on the meaning of civic and political engagement It asks crucial questions such as How can the young be educated into assuming civic and political responsibility Why and how do young people engage in social and political action How do the principal mediating institutions education media and the family contribute to new or different forms of youth civic engagement This text contains contributions from acknowledged specialists such as Constance Flanagan Mark Elchardus Marc Hooghe and Bert Klandermans and will be of key interest to

team of political scientists it starts with an outline of the participatory traditions in both countries before turning to the theoretical foundations of empirical research regarding the role of political participation in modern democracies It provides an overview of how the perception of political participation has changed over the years and the forms of both conventional participation particularly with regard to electoral participation and unconventional participation like protest and other new forms of citizen involvement are analysed in detail Exploring new approaches in participation research social participation is seen as not just correlating with political participation but as a specific form of civic engagement in itself A broad range of activities such as electoral and party related participation political protest participation in voluntary associations voting in referenda and taking part in dialogue orientated participatory activities is examined and the analysis identifies which societal institutional and cultural factors account for the differences and similarities between the two countries **International**

for Democracy Sally A. Nuamah,2022-12-22 This book analyzes how public school closures and the costly battles waged to stop them undermine the citizenship of Black Americans *Children, politics and communication* Thomas, Nigel,2009-05-06

Even after 20 years of children s rights and new thinking about childhood children are still frequently seen as apolitical All over the world there has been a growing emphasis on participation but much of this is adult led and spaces for children s individual and collective autonomy are limited Children politics and communication questions many of the conventional ways in which children are perceived It focuses on the politics of children s communication in two senses children as political actors and the micropolitics of children s interaction with each other and with adults It looks at how children and young people communicate and engage how they organise themselves and their lives and how they deal with conflict in their relationships and the world around them These are children at the margins in various ways but they are not victims they are finding ways to take charge of their own lives The book is also about adults and how they can interact with children and young people in ways that are sensitive to children s feelings empowering and supportive of their attempts to be autonomous With international contributions from a range of disciplines Children politics and communication is timely and relevant for policy makers practitioners and researchers engaging with children and young people
