

Political Philosophy

European Renaissance

- During the Renaissance secular political philosophy began to emerge after about a century of theological political thought in Europe. While the Middle Ages did see secular politics in practice under the rule of the Holy Roman Empire, the academic field was wholly scholastic and therefore Christian in nature. One of the most influential works during this burgeoning period was Niccolò Machiavelli's *The Prince*, written between 1511-12 and published in 1532, after Machiavelli's death. That work, as well as *The Discourses*, a rigorous analysis of the classical period, did much to influence modern political thought in the West. A minority (including Jean-Jacques Rousseau) could interpret *The Prince* as a satire meant to give the Medici after their recapture of Florence and their subsequent expulsion of Machiavelli from Florence. Though the work was written for the di Medici family in order to perhaps influence them to free him from exile, Machiavelli supported the Republic of Florence rather than the oligarchy of the di Medici family. At any rate, Machiavelli presents a pragmatic and somewhat consequentialist view of politics, whereby good and evil are mere means used to bring about an end, i.e. the secure and powerful state. Thomas Hobbes, well known for his theory of the social contract, goes on to expand this view at the start of the 17th century during the English Renaissance.
