The Sexual Politics of Meat Carol J. Adams, 2015-10-22 Many cultures equate meat eating with virility and in some societies women offer men the best i.e. bloodiest food at the expense of their own nutritional needs Building upon these observations feminist activist Adams detects intimate links between the slaughter of animals and violence directed against

women She ties the prevalence of a carnivorous diet to patriarchal attitudes such as the idea that the end justifies the means and the objectification of others In *Frankenstein* Mary Shelley made her Creature a vegetarian a point Adams relates to the Romantics radical politics and to visionary novels by Charlotte Perkins Gilman Dorothy Bryant and others Adams who teaches at Perkins School of Theology Dallas sketches the alliance of vegetarianism and feminism in antivivisection activism the suffrage movement and 20th century pacifism Her original provocative book makes a major contribution to the debate on animal rights Writer activist university lecturer Adams s important and provocative work compares myths about meat eating with myths about manliness and explores the literary scientific and social connections between meat eating male dominance and war Drawing on such diverse sources as butchering texts cookbooks Victorian hygiene manuals and Alice Walker the author provides a compelling case for inextricably linking feminist and vegetarian theory This book is likely to both inspire and enrage readers across the political spectrum we learn for example that veal was served at Gloria Steinem s 50th birthday as well as of the atrocities of the slaughterhouse One wishes Adams had been more careful about documenting some of her claims her contention for instance that early humans were entirely vegetarian requires scholarly support Nevertheless this is recommended for both public and academic collections **Tastes of Faith** Leah Hochman,2017-12-15 Tell me what you eat and I will tell you what you are wrote the 18th Century French politician and musician Jean Brillat Savarin giving expression to long held assumptions about the role of food taste and eating in the construction of cultural identities *Foodways* the cultural religious social economic and political practices related to food consumption and production unpack and reveal the meaning of what we eat our tastes They explain not just our flavor profiles but our senses of refinement and judgment They also reveal quite a bit about the history and culture of how food operates and performs in society More specifically Jewish food practices and products expose and explain how different groups within American society think about what it means to be Jewish and the values as well as the prejudices people have about what Jewish means Food what one eats how one eats it when one eats it is a fascinating entryway into identity for Jews it is at once a source of great nostalgia and pride and the central means by which acculturation and adaptation takes place In chapters that trace the importance and influence of the triad of bagels lox and cream cheese southern kosher hot barbecue Jewish vegetarianism American recipes in Jewish advice columns the draw of eating treyf nonkosher and the geography of Jewish food identities this volume explores American Jewish foodways predilections desires and presumptions Neither Man nor Beast Carol J.
