*Political Parties and Generations in Paraguay's Liberal Era, 1869-1940* Paul H. Lewis, 1993 Political Parties and Generations in Paraguay s Liberal Era 1869 1940 *The Oil Wars Myth* Emily L. Meierding, 2020-05-15 Do countries fight wars for oil Given the resource s exceptional military and economic importance most people assume that states will do anything to obtain it Challenging this conventional wisdom The Oil Wars Myth reveals that countries do not launch major conflicts to acquire petroleum resources Emily Meierding argues that the costs of foreign invasion territorial occupation international retaliation and damage to oil company relations deter even the most powerful countries from initiating classic oil wars Examining a century of interstate violence she demonstrates that at most countries have engaged in mild sparring to advance their petroleum ambitions The Oil Wars Myth elaborates on these findings by reassessing the presumed oil motives for many of the twentieth century s most prominent international conflicts World War II the two American Gulf wars the Iran Iraq War the Falklands Malvinas War and the Chaco War These case studies show that countries have consistently refrained from fighting for oil Meierding also explains why oil war assumptions are so common despite the lack of supporting evidence Since classic oil wars exist at the intersection of need and greed two popular explanations for resource grabs they are unusually easy to believe in The Oil Wars Myth will engage and inform anyone interested in oil war and the narratives that connect them **The Best Books for Academic Libraries: History of the Americas** ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers **The Politics of Exile** Paul H. Lewis, 1968 *Partidos políticos y generaciones en Paraguay, 1869-1940* Paul H. Lewis, 2016 From a North American perspective the turbulence that dominated Paraguayan politics during the Liberal Era 1869 1940 appears so pervasive as to approach anarchy But in this seemingly haphazard succession of administrations political machines and governmental systems Paul Lewis sees a pattern of evolution His pathbreaking examination of political institutionalization employs the concept of political generations to explain Paraguayan conflict and change while analyzing a significant but understudied period of Paraguayan history Lewis chronicles the growth of the two major Paraguayan parties the Liberals and the Colorados from their early days as political clubs through a period of personalist caudillo politics national machine politics and finally institutionalized party politics He argues that coalitions formed along generational lines to pursue goals based on shared interests and then held power until a new and often younger group with a different political agenda pushed them aside By tying the rise and fall of party fortunes to generational change Lewis constructs a multistage theory of political party development Through this case study he makes sense not only of Paraguay s Liberal Era but also of political turmoil in many Latin American states
