**Contrived Countryside** Keith Hoggart, 2021-03-26 This book shows how governance regimes before the 1970s suppressed rural prospects of housing improvement and created conditions for middle class capture Using original archival sources to reveal the intricacies of local and national policy processes weak rural housing performances are shown to owe more to national governance regimes than local under performance Looking behind the scenes at policy processes highlights neglected principles in national governance and shows how investigating rural housing is fundamental to understanding the national scene With original insights and a new analytical perspective this volume offers evidence and conclusions that challenge mainstream assumptions in public policy housing rural studies and planning      Perceptions of Self, Power, &

Gender Among Muslim Women Sarwar Alam, 2018-02-15 This book analyzes perceptions of self power agency and gender of Muslim women in a rural community of Bangladesh Rural women's limited power and agency has been subsumed within the male dominated Islamic discourses on gender However many Muslim women have their own alternative discourses surrounding power and agency Sarwar Alam intertwines an exploration of these power dynamics with reading of the Qur'an and Hadith and analyzes how Muslim women's perception of power and gender are linked to their relationship with religion

*Can Class Still Unite?* Guy Van Gyes, Hans De Witte, Patrick Pasture, 2018-10-24 This title was first published in 2001 This detailed study of European trade unions also addresses academic concerns about the continuing relevance of the class concept as an analytical tool As a social movement the trade union has always used the class principal to unite and defend workers and the diverse contributions to this volume enable the more accurate positioning of class discourse within both the debate about trade unions and wider sociological inquiry      The Force of Irony Gabriel Torres, 2020-08-25 Winner of the

Casa Chata Award for the Best Book of 1994 Spanish edition In charting the paradoxical effects of power and knowledge on the everyday life of subordinate people this book offers a major rethinking of domination and the agricultural labor process Challenging the belief that ethnography is theoretically weak the author provides a fresh perspective on rural workers responses to the development of transnational production systems and the transformations of agrarian structures brought about by the complex interactions of global and local forces In questioning ingrained assumptions about worker consciousness the author exposes the naivete of past approaches and the role of power and hegemony in the micro politics of human relations This book is obligatory reading for anyone interested in current debates about resistance development and

the future of rural societies      *English Farmworkers and Local Patriotism, 1900-1930* Nicholas Mansfield, 2017-03-02 This new study looks at the ways in which the years surrounding the First World War shaped the lives of the rural workforce in Britain and how the patriotism unleashed by the war was used by those in power to blur class divisions and build conservative attitudes in rural communities Using the area of Shropshire and the Marches as a focus the book looks at farmworkers and their trade unions the structures of agrarian economy class divisions local loyalties cultural institutions and political organisations From 1917 the growing power of the farmworkers unions and the rural labour movement mounted a challenge to the landed elites and sought a radical change from rural poverty The author shows how the elites met this threat dynamically by creating a range of new village institutions such as ploughing matches Women s Institutes village halls war memorials and the British Legion The extraordinary growth of rural radicalism at the end of the war was diffused by popular conservatism and local patriotism Influenced by wartime experiences the period 1900 1930 saw a change in rural society from parochial concerns to a new sense of loyalty to county and to the English nation      *The Death of Rural England* Alun Howkins, 2003-09-02 Alun Howkins panoramic survey is a social history of rural England and Wales in the twentieth century He examines the impact of the First World War the role of agriculture throughout the century and the expectations of the countryside that modern urban people harbour Howkins analyzes the role of rural England as a place for work as well as leisure and the problems caused by these often conflicting roles This overview will be welcomed by anyone interested in agricultural and social history historical geographers and all those interested in rural affairs      **Labour Regime Change in the Twenty-First Century** Tom Brass, 2011-09-09 Historical debates about capitalism unfreedom and primitive accumulation suggest Marxism accepts that where class struggle is global capitalists employ unfree workers Labour power as commodity means the free unfree distinction informs the process of becoming being remaining and acting as a proletariat

**Labour and the Countryside** Clare V. J. Griffiths, 2007-05-10 The common reputation of the British Labour Party has always been as a thing of the town an essentially urban phenomenon which has failed to engage with the rural electorate or identify itself with rural issues Yet during the inter war years Labour viewed the countryside as a crucial electoral battleground even claiming that the party could never form a majority administration without winning a significant number of seats across rural Britain Committing itself to a series of campaigns in rural areas during the 1920s and 30s Labour developed a rural and often specifically agricultural programme on which to attract new support and members Labour and the Countryside takes this forgotten chapter in the party s history as a starting point for a fascinating and wide ranging re examination of the relationship between the British Left and rural Britain The first account of this aspect of Labour s history this book draws on extensive research across a wide variety of original source material from local party minutes and trade union archives to the records of Labour s first two periods in government Historical literary and visual representations of the countryside are also examined along with newspapers magazines and propaganda materials In reconstructing the contexts

within which Labour attempted to redefine itself as a voice for the countryside the resulting study presents a fresh perspective on the political history of the inter war years      **Political Participation and Democracy in Britain** Geraint Parry, George Moyser, Neil Day, 1992-01-16 The results of a survey on the level and patterns of political involvement in Britain

**Labour History Review**, 1990      **William Cobbett and Rural Popular Culture** Ian Dyck, 1992-04-02 The first major study of the rural and cultural career of William Cobbett engages Cobbett's own writings and other innovative sources such as popular songs to tie Cobbett's radical politics to rural society      Agricultural Transformation, Food and Environment Henry Buller, Keith Hoggart, 2017-10-19 This title was first published in 2001 An interdisciplinary team of leading European scholars bring together case studies from Western and Eastern Europe to illustrate and critically analyze the shifting relationships of agricultural environmental and food policy in Europe In the most comprehensive book of its kind it examines the critical changes both in agricultural environmental and food politics and the way these domains have been investigated by European social scientists The book evaluates specific changes focussing in particular on agricultural restructuring in the face of globalization Europeanization and the collapse of the Soviet model of agricultural organization agriculture environmental relations and consumer preferences Beginning by examining the degree to which Europe offers a unique and identifiable rural experience the book includes a critical re examination of the process of agricultural transformation In the light of contemporary events and the over seductive and essentially mythical notion of post productivism      **Herds and Hinds** Richard F. Anthony, 1997 This is an analysis of the 20th century history of Scottish agriculture outside the Highlands It examines in detail East Lothian and Dumfriesshire and includes interviews      Rural Politics Michael Winter, 2013-05-13 The rural areas of Britain Europe and the developed world are undergoing massive changes with increasing concern about productivity agricultural methods and environmental policy Rural Politics examines the issues affecting rural areas such as water pollution forestry and the greening of agricultural policy It looks in particular at the political parameters to these issues and how concern for the countryside is essentially a part of a wider set of political processes Rural Politics provides a much needed examination of the evolution and content of policies affecting today's countryside both in terms of major land uses and economic and social development      **Trade Union Studies Journal**, 1980      Pressure Groups, Politics and Democracy in Britain Wyn Grant, 1989      **The Idea of the Village in Interwar England** Caitlin B.
