Political Situation In Egypt During The Second Intermediate Period C 1800 1550 Bc:

The Political Situation in Egypt During the Second Intermediate Period, C. 1800-1550 B.C. K. S. B. Ryholt, Adam Bülow-Jacobsen, 1997 The Second Intermediate Period designates the 250 year period 1800-1550 BC which separates the two glorious periods of the Middle Kingdom and the New Kingdom During the 19th century BC an invasion by Canaanite tribes into the Delta took place Around 1800 BC these people proclaimed their own king and the Delta thus became independent from the rest of Egypt Egypt remained split between the Canaanitic rulers in North and the native Egyptian Kings in the South for the rest of the Second Intermediate Period The division of Egypt brought about an economic decline and the entire period is characterized by a lack of royal monuments This circumstance has greatly hampered any attempts to establish a chronology of the period and as a consequence it has been very difficult to date many sources which are relevant for the social and political situation of the period The Second Intermediate Period has therefore remained one of the most obscure periods of Egypt's ancient history The dissertation is a new attempt to establish a chronology for the Second Intermediate Period and define the different kingdoms their territories and political relations The study consists of four main chapters three appendixes a catalogue of sources bibliography and indices Included is a catalogue of all the historical sources about 1500 known to certify the names of the Egyptian kings of the Second Intermediate Period Each source is described in terms of type origin and present location followed by bibliographical references

The Ancient Egyptian Economy Brian Muhs, 2016-08-02 This book is the first economic history of ancient Egypt covering the entire pharaonic period 3000-30 BCE and employing a New Institutional Economics approach It argues that the ancient Egyptian state encouraged an increasingly widespread and sophisticated use of writing through time primarily in order to better document and more efficiently exact taxes for redistribution The increased use of writing however also resulted in increased documentation and enforcement of private property titles and transfers gradually lowering their transaction costs relative to redistribution The book also argues that the increasing use of silver as a unified measure of value medium of exchange and store of wealth also lowered transaction costs for high value exchanges The increasing use of silver in turn allowed the state to exact transfer taxes in silver providing it with an economic incentive to further document and enforce private property titles and transfers

Ancient Egyptian Administration Juan Carlos Moreno García, 2013-06-03 Ancient Egyptian Administration provides the first comprehensive overview of the structure organization and evolution of the pharaonic administration from its origins to the end of the Late Period The book not only focuses on bureaucracy departments and official practices but also on more informal issues like patronage the limits in the actual exercise of authority and the competing interests between institutions and factions within the ruling elite Furthermore general chapters devoted to the best documented periods in Egyptian history are supplemented by more detailed ones dealing with specific archives regions and administrative problems The volume thus produced by an international team of leading scholars will be an indispensable up to date tool of research covering a much

neglected aspect of pharaonic civilization **Dynasties of Egypt** Norah Romney,2021-02-10 In ancient Egyptian history some dynasties prospered and some faded out of existence They are traditionally divided into thirty two pharaonic dynasties they are classified into kingdoms and intermediate periods from these dynasties Manetho the third century Egyptian priest gives us the first thirty dynasties which he published in Aegytiaca now lost to ravages of time These likely stems from the Ptolemaic rule in Egypt The Ptolemaic Dynasty and the 31st dynasty form the remaining two While widely used and valuable the system does have its weaknesses Some dynasties only governed part of Egypt and endured concurrently with other dynasties based in other cities The Seventh might not have been at all the Tenth appears to be a succession of the Ninth and there may have been one or numerous Upper Egyptian Dynasties before the First Dynasty The privilege of Pharaoh is utilized for those leaders of Ancient Egypt who governed after the alliance of Upper Egypt and Lower Egypt by Narmer throughout the Early Dynastic Period circa 3100 BC However the specific title Pharaoh was not employed to direct Egypt's kings by their peers until the dominion of Merneptah in the 19th Dynasty c 1200 BC Along with the name Pharaoh for later rulers an Ancient Egyptian sovereign titulary was used by Egyptian kings which prevailed relatively consistent during Ancient Egyptian history originally featuring a Horus name Egypt was steadily administered at least in part by domestic ruler pharaohs for nearly 2500 years until it was overcome by the Kingdom of Kush in the late 8th century BC whose kings embraced the classical pharaonic titular for themselves Following the Kushite victory Egypt underwent another independent constitutional rule before being subdued by the Achaemenid Empire whose governors also assumed the title of Pharaoh The last regional Pharaoh of Egypt was Nectanebo II Pharaoh before the Achaemenids defeated Egypt for a second time Achaemenid control over Egypt ended abruptly through Alexander the Great's triumphs in 332 BC after which it was controlled by the Hellenic Pharaohs of the Ptolemaic Dynasty Their government and Egypt's sovereignty came to an end when Egypt became a Rome province in 30 BC Augustus and succeeding Roman dictators were styled as Pharaohs when in Egypt until Maximinus Data in 314 AD The dates provided in this list of pharaohs are estimated They are based fundamentally on Ancient Egypt's established chronology often based on the Digital Egypt for Universities database generated by the Petrie Museum of Egyptian Archaeology but other dates taken from other professionals may be designated separately **A Compendium of World Sovereigns: Volume I Ancient** Timothy Venning,2023-06-30 The Compendium of World Sovereigns series contains three volumes Ancient Medieval and Early Modern These volumes provide students with easy to access who's who with details on the identities and dates ages and wives where known of heads of government in any given state at any time within the framework of reference The relevant original and secondary sources are also listed in a comprehensive bibliography Providing a clear reference guide for students to who was who and when they ruled in the dynasties and other ruler lists for the Ancient Medieval and Early Modern worlds primarily European and Middle Eastern but including available information on Africa and Asia and the pre Columbian Americas The trilogy accesses and interprets the

ranged from mudbrick lined pits in the desert through pyramid topped labyrinths to superbly decorated galleries penetrating deep into the rock of the Valley of the Kings The Royal Tombs of Ancient Egypt is the most comprehensive study of ancient Egyptian funerary monuments to date Egyptologist Aidan Dodson examines not only the burial places themselves but also the temples built to provide for the dead pharaoh's soul The volume covers the tombs of both native and foreign monarchs as well as royal family members

The Middle Kingdom of Ancient Egypt Wolfram Grajetzki, 2024-05-16 For the ancient Egyptians the Middle Kingdom c 2000 1700 BC was a classical period of art history and literature The Twelfth Dynasty was one of the strongest ever to rule on the banks of the Nile some of its kings were later worshipped as local gods and were made famous by classical Greek authors Yet Egyptologists tend not to look beyond the extraordinary royal sculpture and literary masterpieces of the time Although the picture is fragmentary as with any archaeological record the last two hundred years of exploration and excavation have revealed much of the splendour of the period This book examines the evidence for the culture history and society of both central and provincial Egypt at the time revealing the wealth of the entire country In this second edition Wolfram Grajetzki incorporates recent discoveries discussions and publications which have emerged over the intervening fifteen years including new excavation reports for the mastabas at Lisht and excavations at Abydos Too often overshadowed by the better preserved architecture of other periods Middle Kingdom Egypt emerges for the reader as a fascinating age in its own right

Powerful Gods and Ancient Sites in Egypt, Egypt is a land of ancient wonders From the pyramids to the Sphinx Egypt has been home to many great civilizations It's also known for its temples and tombs These ancient sites were not just places where people lived and worked they were also places where people would worship their Gods to please them The Egyptians believed that their gods lived in heaven on top of mountains or under oceans so they built temples to bring them closer together with these gods Heliopolis is Greek meaning City of the Sun the city of Heliopolis was the center of worship for the sun god Ra It was located in the Nile delta The local name for this city was On or Iwn In ancient times it was an important religious and educational center it served as a significant temple to Ra and housed one of three Egyptian universities the other was Memphis and Thinis where students studied subjects like philosophy astronomy theology and healing arts The Valley of the Kings or Theban Necropolis is a valley in Egypt It's where pharaohs were buried so it's essential to the history of Egypt There are over 60 tombs in this area including several that have not been fully excavated yet The Valley of the Kings is one of UNESCO's World Heritage Sites and is open to visitors daily Memphis was the capital of Egypt during the Old Kingdom Middle Kingdom

and the New Kingdom During these periods Memphis was also the religious center of ancient Egypt Its importance can be attributed to its strategic position along important trade routes between Upper and Lower Egypt The city was first established by Menes Narmer who united Upper and Lower Egypt into one kingdom around 3100 BCE He chose the site due to its strategic location on a north south trade route connecting Thebes with Avaris it would later serve as an important center for foreign affairs in later years as well The city flourished under various kings during this period namely Ahmose I who moved his capital from Thebes to Memphis after defeating Nubia during his reign ca 1550 1525 BCE Thutmose III who expanded it further upon becoming king Hatshepsut who established temples there while building new ones at Deir el Bahri Rameses II whose temple complex included four obelisks weighing over 200 tons each Ramses III who built another temple at Medinet Habu near Aswan where he inscribed texts detailing military campaigns against Corfu Island in Crete modern day Greece In ancient times the people would worship the Gods by building a temple It was their way of showing that they loved and respected their gods Temples were built in honor of the god related to that place For example a temple for Ra sun god will be built close to where there is plenty of sunlight so he can shine on his followers daily Temples usually have columns around them but only from one side this was done because the Egyptians believed that if they built it from all four sides it would block out some of Ra s light which could anger him and make him hurt them or even kill them The inside temples were made with beautiful decorations like paintings on walls showing what happens after death or statues made out of stone showing how someone looks when they die peacefully hint very old looking The primary purpose for building these temples was because they served three primary purposes worshiping your god s learning about them libraries were often included and performing rituals prayers whenever you needed something important done quickly for example curing sicknesses

Art, Architecture, and Temples in Ancient Egypt Ezra Ivanov, 2022-07-25 Ancient Egyptian art and architecture are fascinating beautiful and complex I ve always been fascinated by the pyramids of Egypt and how they were built They are incredible feats of engineering but also religious centers where worshipers would go to pray and make offerings to their gods In addition to temples there were also tombs for royalty known as mastabas and commoners known as shaft tombs which were all made with an eye toward eternal life Ancient Egyptian gods and goddesses were important in Egyptian culture They were often represented in art or architecture and played an integral role in daily life Though the god Osiris was known to be king of the dead he did not hold the same power as other gods such as Ra or Hathor a cow headed goddess The priesthoods of these deities generally ruled over specific cities or professions for example priests at a temple dedicated to Amun would preside over all matters related to agriculture Such temples were built throughout Egypt s history one example is Deir el Bahari meaning monastery of the northern valley which served as both a royal mortuary temple and monastery for Nefertari during her lifetime Many structures built during this period reflect traditional architectural practices thick columns made from stone support large roof beams made from wood outer walls are covered with painted plaster decorated with scenes

depicting daily life for example artists working on wall paintings inside temples such as this one often described themselves taking part in those very activities You may have heard that pyramids were built as tombs for pharaohs but there s more to it The pharaohs were buried in the Valley of the Kings part of the Great Pyramids complex The pyramids are made up of stone blocks of limestone built with ramps rather than cranes or scaffolding so that workers could move them into place In terms of shape they re somewhere between a cube and a cone this helps keep them stable during construction and makes them look good from afar Temples were the most important buildings in ancient Egypt They were places of worship and learning government and justice The temple was the most important place for any Egyptian because it was where people could connect with their gods and get guidance on how to lead a good life

Ancient Israel in Egypt Daniel Tompsett,2023-02-07 This book looks back over thousands of years to explore the period in Egyptian history when the Bible identifies that Ancient Israel was resident in Egypt It asks and answers one very simple question What new things can we learn about this period of history if we treat the Bible as a valid historical document Whereas this topic is

often approached from either the perspective of the Bible or Egyptology this work genuinely attempts to occupy the ground between the two It uses Scripture like a torch carried into the deepest recesses of the established historical facts and theories concerning the late Middle Kingdom period the Second Intermediate period and the early New Kingdom period in Egyptian history Along the way it considers some of the latest discoveries innovations and theories from the world of Egyptology and unearths a trove of tangible points of connection As such the narrative forms a two way perspective where the biblical account illuminates stubbornly opaque moments in Egyptian history and chronology and where the meticulous work of Egyptologists provides appropriate additional background to the Bible The result is a sharper perspective of an ancient account that has a surprisingly current application for us all *The Oxford Handbook of Egyptology* Ian Shaw,Elizabeth Bloxam,2020-11-10 The Oxford Handbook of Egyptology offers a comprehensive survey of the entire study of ancient Egypt from prehistory through to the end of the Roman period It seeks to place Egyptology within its theoretical methodological and historical contexts indicating how the subject has evolved and discussing its distinctive contemporary problems issues and potential Transcending conventional boundaries between archaeological and ancient textual analysis the volume brings together 63 chapters that range widely across archaeological philological and cultural sub disciplines highlighting the extent to which Egyptology as a subject has diversified and stressing the need for it to seek multidisciplinary methods and broader collaborations if it is to remain contemporary and relevant Organized into ten parts it offers a comprehensive synthesis of the various sub topics and specializations that make up the field as a whole from the historical and geographical perspectives that have influenced its development and current characteristics to aspects of museology and conservation and from materials and technology as evidenced in domestic architecture and religious and funerary items to textual and iconographic approaches to Egyptian culture Authoritative yet accessible it serves not only as an invaluable reference work for scholars and students working within the discipline but also as a gateway into Egyptology for classicists archaeologists anthropologists sociologists and linguists Stone Canvas Pawel Lech Polkowski,2023-03-27 This book presents proceedings of the conference devoted to rock art and graffiti studies in Egypt and Sudan that took place in Cairo from 10th to 12th November 2019 The thematic spectrum of the contributions is very wide in terms of both their geographical and their chronological range encompassing figural and textual sources dating from the Late Palaeolithic through the Predynastic Dynastic and Graeco Roman periods up to Christian and Islamic times Many of the papers combine evidence from various archaeological domains and also attempt to better integrate graffiti and rock art materials in search of a common ground for research Thus the volume provides a good overview of the current state of investigations in these two fields of study in Egypt and Nubia *A Delta-man in Yebu* A. K. Eyma,C. J. Bennett,2003 A collection of papers from the Egyptologists Electronic Forum [http welcome to EEF](http://www.eef.org) on a variety of Egyptological topics of interest to both professionals and laypersons Five broad themes may be discerned royalty in ancient Egypt scarabs and funerary items archaeology and early
