

The Biopolitics of the War on Terror: a critique of the 'return of imperialism' thesis in international relations

JULIAN REID

ABSTRACT *The 'war on terror' is widely regarded as instigating a major regression within the development of the international system. Processes of globalisation are being challenged, it is argued, by a reassertion of the sovereign power of nation-states, most especially the USA. In more overt terms this regression is represented as a 'return' of a traditional form of imperialism. This 'return of imperialism' thesis challenges the claims of theories developed during the 1990s which concentrate on the roles of deterritorialisation and the development of biopolitics in accounting for the constitution of the contemporary international order. In contrast this paper seeks to detail the important respects in which biopolitical forces of deterritorialisation continue to play an integral role within the strategies of power that make the war on terror possible. Rather than understanding the war on terror as a form of 'regression' it is necessary to pay heed to the complex intertwining that continue to bind sovereign and biopolitical forms of power in the 21st century. Such an understanding is urgent in that it provides for different grounds from which to reflect on the processes by which international order is currently being reconstituted and to help think about how to engage in reshaping them.*

The final decade of the 20th century was characterised by vast changes in the organisation of power internationally. The end of the Cold War, the development and strengthening of international organisations, intensive technological innovation, the growth and spread of practices and institutions of liberal democracy, the proliferation of non-governmental organisations and spread of a 'global' civil society, the penetration of capitalism into previously non-capitalist societies, the emergence of new systems of global governance, all subsumed within the onslaught of what came to be known both heroically and pejoratively as globalisation, were major hallmarks of the immediately post-cold war era. These forms of change served to challenge and undermine many of the most traditional assumptions made by international relations theorists as to what constitutes power internationally. At the centre of the discipline liberal conceptions of power that privileged the

Political Terrorism Yu Pankov, 1983-01-01 **Political Terrorism** A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of **Political Terrorism** was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection *Chronicles of Culture* called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against **Political Terrorism, an Indictment of Imperialism** , 1983

Terrorism in the Cold War Adrian Hänni, Thomas Riegler, Przemyslaw Gasztold, 2020-09-17 Accounts of the relationships between states and terrorist organizations in the Cold War era have long been shaped by speculation a lack of primary sources and even conspiracy theories In the last few years however things have evolved rapidly Using a wide range of case studies including the KGB's Abduction Program Polish Military Intelligence and North Korea's Terrorism and Counterterrorism this book sheds new light on the relations between state and terrorist actors allowing for a fresh and much more insightful assessment of the contacts dealings agreements and collusion with terrorist organizations undertaken by state actors on both sides of the Iron Curtain This book presents the current state of research and provides an assessment of the nature motives effects and major historical shifts of the relations between individual states and terrorist organizations The articles collected demonstrate that these state terrorism relationships were not only much more ambiguous than much of the older literature had suggested but are in fact crucial for the understanding of global political history in the Cold War era

Terrible Beyond Endurance? Michael Stohl, George Lopez, 1988-02-11 Stohl and Lopez argue that such developments in international aggressive policies demand more serious scholarly attention than has up to now been paid them and they suggest a number of emerging trends that warrant examination by political scientists Such trends include superpower deployment of the troops of regional power centers to avoid direct military action in the Third World renewed efforts by the United States to develop counterterrorist and rapid deployment approaches and the rise of terror bombing and related military acts even in arenas where conventional warfare is already being conducted The editors also argue that these trends will intensify in the future *Bibliographic Guide to Soviet and East European Studies*, 1979 *Political Terrorism* Francis M.
