Abstract: The study of German *Begriffsgeschichte* (conceptual history) by scholars such as Koselleck focuses on historiography, but its basic hypotheses are highly philosophical. One of its tasks is to explore modernity from the perspective of language, hence can be understood as the “linguistic approach” in the study of modernity. As for the origin of the theory, the conceptual evolution of *Verzeitlichung* (temporalization), *Demokratisierung* (democratization), *Politisierung* (politicization), and *Ideologisierung* (ideologicalization) proposed by Koselleck was not only largely affected by Gadamer’s hermeneutics and Heidegger’s existential phenomenology but also deeply influenced by Carl Schmitt’s political philosophy. In Koselleck’s view, conceptual upheaval in the revolutionary era from 1750 to 1850 was, essentially, a semantic struggle in which old and new forces competed fiercely.

Some professionals argue that the alternative approach to compilation reflects the rigorous and profound pursuit of epistemology by German conceptual historians (Fang, 2020: 27). To some extent, the argument makes sense, but is this the whole story?

In recent years, the study of German *Begriffsgeschichte* has become popular in the Chinese academic community. Given this context, it is necessary to outline the basic logic of the approach with the special concerns as a foreign researcher in mind, as the gist of this theory can be summarized as follows: (1) An interdisciplinary team of numerous
