

## MODERNIZATION

Introduction to Sociology, 10th Edition, 2014

Modernization is the process by which agrarian societies are transformed into industrial societies.) This transition entails the development of advanced industrial technology and the political, cultural, and social arrangement appropriate to sustaining, directing, and utilizing that technology.) The aim of modernization is to approximate the characteristics of economically developed and relatively stable nations (Chiot, 1985; Germani, 1981:10-14; Moore, 1974:94). This transition seldom, if ever, takes place smoothly or evenly (see, for example, Tilly, 1997). Still, it affects every social institution, touches every community, and is felt in all walks of life (see, for example, Savelsberg, 2002). Evidence from both objective and subjective measures indicates that modernization is associated with an improved quality of life for most people (Inkeles, 1993). Modernization is a comprehensive term that describes many simultaneous changes at several levels. Industrialization, urbanization, and bureaucratization are closely related to modernization. For the purpose of analysis, however, these interrelated change patterns will be discussed separately.

In a sense, modernization is a form of imitation, emulation, and transplantation of patterns, products, and technologies from Western countries to less developed countries. Thus, a prerequisite of modernization is communication and contact among the various cultures and societies. It is usually the leaders of developing countries who set the plans and policies for changing a particular society in motion in the direction of contemporary societies. Industrialization is not always a crucial factor in modernization. For example, African and Asian nations usually start the process of modernization with nation building and the development of modern political systems. The object is the transformation of their social structure and the dissemination of new norms and values through education. The development of industry usually follows later.
