Political Dialogue , 2021-09-20 **The European Union and China, 1949-2008** Francis Snyder, 2009-03-17 This book is a comprehensive reference book and commentary on basic documents about relations between the EU and the People's Republic of China from 1949 to the present. It contains all significant official and unofficial documents in English and Chinese about EU-China relations since the founding of the PRC in 1949. Since the opening up of China in 1979 and especially after the establishment of the EU in 1992, relations between the EU and China have developed apace. Today the EU and China are strategic partners with a very broad-based relationship extending far beyond trade to encompass a growing number of important economic, political, social, and cultural domains. The relationship is certain to gain in importance with increasing globalisation, EU expansion, Chinese membership of the World Trade Organisation (WTO), the renewal and development of China, and changes in the international trading system and international politics. This book provides an indispensable foundation for teaching, research, policy making, and advising on EU-China relations. It includes both documents originally published in English and English translations of documents previously available only in Chinese, French, or Portuguese. Essential to every library, it will also be required reading for students, teachers, researchers, policy makers, legal practitioners, and government officials in the EU, China, the United States, and elsewhere.

Latin America-European Union relations in the twenty-first century Arantza Gomez Arana, María J. García, 2022-03-22 Latin America-European Union relations in the twenty-first century provides a valuable overview of transatlantic trade agreement negotiations and developments in the first decades of the twenty-first century. This edited collection examines key motivations behind trade agreements, traces the evolution of negotiations, and explores some of the initial impacts of new generation trade agreements with the EU on South American countries. The book makes an important contribution to our understanding of relations between these regions by

contextualising relations and trade agendas both in terms of domestic political and economic policies and broader global trends It demonstrates the importance of a shift toward mega regional trade agreements in the 2010s particularly under the Obama administration in the United States in shaping South American and European agendas for trade agreement negotiations and their outcomes Detailed case studies in the book investigate EU relations and negotiations with countries that have successfully negotiated new generation trade agreements with the EU Mercosur the Andean states Chile and Mexico Other contributions offer a wider overview of EU Latin American relations including parliamentary and civil society relations The net result is a balanced analysis of contemporary EU relations with South America useful for students and scholars of foreign policy and political economy in both regions
