Media Audiences John L. Sullivan, 2019-07-24 Whether we are watching TV surfing the Internet listening to our iPods or reading a novel we all engage with media as an audience Despite the widespread use of this term in our popular culture the meaning of audience is complex and it has undergone significant historical shifts as new forms of mediated communication have developed from print telegraphy and radio to film television and the Internet Media Audiences Effects Users Institutions and Power 2nd Edition explores the concept of media audiences from four broad perspectives as victims of mass media as market constructions and commodities as users of media and as producers and subcultures of mass media The goal of the text is for students to be able to think critically about the role and status of media audiences in contemporary society reflecting on their relative power in relation to institutional media producers

Alternative Journalism Chris Atton, James F Hamilton, 2008-11-20 A provocative inspiring and challenging intervention in both journalism and media studies Alternative Journalism is that rare book that services students as much as scholars It widens the trajectory of media studies and creates different modes of reading writing and thinking It offers an alternative history beyond the tales of great men great newspapers great editors and great technologies It adds value and content to overused and ambiguous words such as community and citizenship and captures the spark of new information environments THE Times Higher Education Alternative Journalism investigates and analyses the diverse forms and genres of journalism that have arisen as challenges to

mainstream news coverage From the radical content of emancipatory media to the dizzying range of citizen journalist blogs and fanzine subcultures this book charts the historical and cultural practices of this diverse and globalized phenomenon This exploration goes to the heart of journalism itself prompting a critical inquiry into the epistemology of news the professional norms of objectivity the elite basis of journalism and the hierarchical commerce of news production In investigating the challenges to media power presented by alternative journalism Atton addresses not just the issues of politics and empowerment but also the journalism of popular culture and the everyday The result is essential reading for students of journalism both mainstream and alternative *Theories of Information, Communication and Knowledge* Fidelia

Ibekwe-SanJuan,Thomas M Dousa,2013-08-30 This book addresses some of the key questions that scientists have been asking themselves for centuries what is knowledge What is information How do we know that we know something How do we construct meaning from the perceptions of things Although no consensus exists on a common definition of the concepts of information and communication few can reject the hypothesis that information whether perceived as object or as process is a pre condition for knowledge Epistemology is the study of how we know things anglophone meaning or the study of how scientific knowledge is arrived at and validated francophone conception To adopt an epistemological stance is to commit oneself to render an account of what constitutes knowledge or in procedural terms to render an account of when one can claim to know something An epistemological theory imposes constraints on the interpretation of human cognitive interaction with the world It goes without saying that different epistemological theories will have more or less restrictive criteria to distinguish what constitutes knowledge from what is not If information is a pre condition for knowledge acquisition giving an account of how knowledge is acquired should impact our comprehension of information and communication as concepts While a lot has been written on the definition of these concepts less research has attempted to establish explicit links between differing theoretical conceptions of these concepts and the underlying epistemological stances This is what this volume attempts to do It offers a multidisciplinary exploration of information and communication as perceived in different disciplines and how those perceptions affect theories of knowledge **APAIS 1994: Australian public affairs**
