Political Economy of China-Taiwan Relations Chien-Kai Chen, 2018-04-30 China Taiwan economic ties are now among the key factors influencing the relations between the two sides of the Taiwan Strait which is still one of the flashpoints in today's world This book traces the origin and the process of how so called cross strait economic ties became such a key factor in China Taiwan relations throughout the 1990s and how this factor has affected China Taiwan relations since then By focusing on Taiwan's domestic politics as it relates to the domestic conflicts between opposing political and economic forces in Taiwan over the political relations and economic ties across the Taiwan Strait the book demonstrates that the growth of cross strait economic ties since 1990 has significantly affected Taiwan's domestic politics which in turn has had a profound impact on China Taiwan relations Although the growth of China Taiwan economic ties could hardly resolve the so called Taiwan problem and might even lead to some political and economic conflicts between the two sides at times through Taiwan's domestic politics it has reduced the likelihood of severe confrontation especially the military one in the Taiwan Strait As this book reveals the interactions between the economic winners the economic losers the political parties the government and the general public in Taiwan's domestic politics as a result of the growth of cross strait economic ties have played an important role in the development of China Taiwan relations leading to a very confrontational situation from 1995 to 2008 a relatively peaceful Taiwan Strait from 2008 to 2016 and a cold peace between the two sides since 2016

Nigeria Julius Omozuanvbo Ihonvbere, 1994-01-01 Nigeria is in a long standing crisis Military rule has suffocated civil society and has entrenched a culture of repression corruption and official irresponsibility The reign of Ibrahim Babangida has resulted in near total economic disaster for the country The situation is so bad as Julius Ihonvbere shows that Nigerians are now saying that the days of colonialism were better In this major new

study Ihonvbere searches out the sources of Nigeria's predicament. He finds them in the country's historical experience and the consequences of that experience since gaining political independence. Nigeria has become a society in which its citizens live in fear and its youth emigrate to other countries. It is now impossible to survive in the country without belonging to a certain religion, living in a particular region, having connections with top military officers, and being involved with some form of corruption. Even involvement in drug pushing or extrajudicial murder is no longer considered a crime but a circumstance of life. Such conditions have encouraged the emergence of several popular organizations. New alliances of students, workers, women, youths, intellectuals, professionals, and the unemployed transcend ethnic, regional, and religious differences. For the author, it is at this emerging level of struggle and interaction that the future of Nigeria lies. This work examines several critical but often overlooked or underresearched aspects of Nigeria's political economy. Ihonvbere analyzes in detail Nigeria's foreign policy, its economic crisis, the military, the decay of its educational system, and democratization. He pays particular attention to the paradoxical connection between IMF/World Bank supervised structural adjustment and the struggle for democracy. His book will be of interest to experts in socioeconomic development, foreign policy analysts, students of military science, and scholars of African politics and history.

Religions in International Political Economy Sabine

Dreher, 2020-07-02. This book shows how religions and their internal struggles shape key actors and processes in the international political economy. It highlights how fundamentalist, business-oriented Christians in the United States were instrumental in the neoliberal turn in US hegemony; how Christianity in the form of prosperity religion transformed Latin America; and how reactionary religious movements sharpened state competition through illiberal politics in Turkey, India, and elsewhere. But reactionary movements are also confronted by liberationist or more progressive movements such as Islamic feminism that seek to build a more inclusive global economy. Religions and their ideas should be seen as a constitutive part of neoliberal globalization and its contestation in IPE.
