Political Economy Of Social Control In Singapore

Political Economy Of Social Control In Singapore:

The Political Economy of Social Control in Singapore Chris Tremewan, 1994 Singapore's rapid economic growth has attracted much admiration. But can this success be sufficiently explained by canny exploitation of a niche in the global free market? This book shows that there is a complex relationship between economic strategy, social control and political conflict in Singapore. It does this by looking at the regulatory functions of major state institutions. Public housing increases state control and forces people into wage labour even while supplying a high standard of accommodation. Singaporeans are sorted, stratified and fragmented by the education system. Racism and patriarchal relations seen in language, population planning and eugenics policies are integral to education. Elections and parliament in Singapore are mechanisms for forcing submission, converting submission into consent and confining politics to parliamentary politics. The legal system functions to criminalise politics and politicise crime. The findings of all the chapters are drawn together to show how the system of social control has developed in phases in response to the changing nature of political resistance. BOOK JACKET Title Summary field provided by Blackwell North America Inc. All Rights Reserved **The Political Economy of Social Control in Singapore** C.

Tremewan, 1996-04-29 The thesis presented here will not only change the way in which we understand contemporary Singaporean society and the relationship between the state and its citizens but will also provoke a debate about the social costs of economic development in other parts of the world and the future security of the island republic increasingly a Chinese enclave in a Malay sea in the twenty-first century. Peter Carey, Trinity College, Oxford. This study examines the development of Singapore's complex system of social regulation in relation to the phases of its economic strategy and political transition. It focuses on the way social control works through public housing and welfare, education, parliamentary politics and the law. It draws out the implications of such comprehensive control for political conflict. Popular explanations for Singapore's success and its status as a model for other developing countries are brought into question. **The**

International Political Economy of Work and Employability P. Moore, 2010-08-17 International competition and skills shortages caused by technological advancement have raised entirely new issues for workers: not least how responsibility is increasingly being transferred to them. This book looks at how workers are expected to survive unstable job market conditions in three locations: the UK, Singapore and South Korea. **The Political Economy of Capital Market Reforms**

in Southeast Asia X. Zhang, 2011-09-13 In this book Xiaoke Zhang addresses two fundamental political and policy questions: why do politicians have heterogeneous incentives to pursue public regarding policies through capital market reforms and why do they differ in their abilities to initiate and implement market reform policies decisively and resolutely. *Examining Practice, Interrogating Theory* Penelope (Pip) Nicholson, Sarah Biddulph, 2008 Legal transplantation and reform in the name of globalisation is central to the transformation of Asian legal systems. The contributions to *Examining Practice, Interrogating Theory* Comparative Legal Studies in Asia analyse particular legal changes in China, Indonesia, Malaysia, Singapore, Thailand.

Taiwan and Vietnam The contributions also concurrently critically analyse the utility of scholarly developments in comparative legal studies particularly discourse analysis regulatory theory legal pluralism and socio legal approaches in the study of Asian legal systems While these approaches are regularly invoked in the study of transforming European legal systems the debate of their relevance and explanatory capacity beyond the European context is recent By bringing together these diverse analytical tools and enabling a comparison of their insights through Asian empirical case studies this book makes an invaluable contribution to the debates concerning legal change and the methods by which it is analysed globally and within Asia

Political Transitions in Dominant Party Systems Joseph Wong, Edward Friedman, 2008-10-27 Using country specific case studies top rank analysts in the field focus on the lessons that dominant parties might learn from losing and the adaptations they consequently make in order to survive to remain competitive or to ultimately regain power

My Nantah Story Tan Kok Chiang, In 1958 more than a hundred thousand people attended the inauguration ceremony of Nanyang University Nantah a true people's university that was founded with the support of all strata of society from tycoons to trishaw men After producing 12 000 graduates and winning global recognition the institution the first Chinese medium university outside China held her final convocation in 1980 Drawing from the author's own research and diverse sources that have never before been available in English this book tells the fascinating story of Nantah's short and eventful life and deconstructs the many myths and misconceptions that continue to surround her Errata Mr Lee Hsien Loong's quote on page 23 was taken from NUSS 60th anniversary lecture and not the 16th anniversary lecture as printed Reader Reviews This book is important reading for all Malaysians It captures a brief moment in our history when a group of oppressed people rose up set aside differences and joined hands in the face of great challenges and severe resistance to build an edifice that aspired to a greater vision for mankind Nanyang University is gone but the Nantah spirit lives on May we one day reclaim it for Malaya Thum Ping Tjin Historian Director of Project Southeast Asia Oxford University Tan Kok Chiang has succeeded in writing a remarkable book which can certainly be regarded as a comprehensive history of the old Nanyang University More than this his monumental work can also be upheld as a significant addition to the growing corpus of books considered to be alternative or people's history different from and breaking the monopoly of such official elite versions of history as exemplified by Lee Kuan Yew's *The Singapore Story* Syed Husin Ali Member Malaysian Senate and President People's History Centre

Political Participation and Democratic Capability in Authoritarian States Lien Pham, Ance Kaleja, 2021-02-22 This book provides an innovative theoretical and empirical exploration of the political participation and democratic capability of people living in authoritarian states Merging perspectives from sociology and political science the book demonstrates that despite autocratic restrictions on opposition there is often still leeway for people to express themselves as political agents and to develop democratic capability The first two chapters problematise political participation and develop an interdisciplinary three domain framework that allows for critical engagement with and appreciation of the contexts and

varied ways in which participatory activities occur This framework is applied to analyse six country case studies Singapore Jordan Belarus Cuba Nigeria and Vietnam Drawing on a range of data sources and different analytical entry points the book investigates the substantive opportunities people have in exercising political agency and the implications for democratic capability The book concludes by summarising the emergent themes and examining the potential of applying this method of inquiry in other political contexts Encompassing both governmental and societal practices the book offers insights into state society relations and their role in constructing political values and goals for participation which people negotiate and mediate to inform their choices modes and forms of civic engagement These insights present a broad approach towards the study of participation with relevance for understanding political participation in various societies under non democratic and democratic rule alike This book will be useful for researchers and students interested in political dynamics and intersections with economic cultural and social aspects of development It will also be beneficial for practitioners interested in participatory actions and social change

Singapore Politics Under the People's Action Party Diane K. Mauzy, Robert Stephen Milne, 2002 The party has

coped successfully with the needs of a multiethnic population claims for more extensive human rights the nascent development of a civil society and the problems of defending a small country in a turbulent region **Communitarian Politics in Asia** Beng Huat Chua, 2004-07-31 This book examines instances in Southeast and East Asian countries where communitarianism is both articulated as national ideology and embedded as the ethos of social life **Dictators and Autocrats** Klaus Larres, 2021-10-31 In order to truly understand the emergence, endurance and legacy of autocracy this volume of engaging essays explores how autocratic power is acquired, exercised and transferred or abruptly ended through the careers and politics of influential figures in more than 20 countries and six regions. The book looks at both traditional hard dictators such as Hitler, Stalin and Mao and more modern soft or populist autocrats who are in the process of transforming once fully democratic countries into autocratic states including Recep Tayyip Erdoğan in Turkey, Brazilian leader Jair Bolsonaro, Rodrigo Duterte in the Philippines, Narendra Modi in India and Viktor Orbán in Hungary. The authors touch on a wide range of autocratic and dictatorial figures in the past and present including present day autocrats such as Vladimir Putin and Xi Jinping, military leaders and democratic leaders with authoritarian aspirations. They analyze the transition of selected autocrats from democratic or benign semi-democratic systems to harsher forms of autocracy with either quite disastrous or more successful outcomes. An ideal reader for students and scholars as well as the general public interested in international affairs, leadership studies, contemporary history and politics, global studies, security studies, economics, psychology and behavioral studies **The Southeast Asia Handbook** Patrick Heenan, Monique Lamontagne, 2013-04-03 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts, focusing on the relations among regions as they meet the challenges of the twenty-first century. The series allows the non-specialist student to explore a wide range of complex factors, social and political as well as economic, that affect the growth of developing regions in Asia, Europe and South America. Each Handbook provides an overview chapter discussing the region's economic conditions within an historical and political context as well as 20 or more chapter-length essays written by recognized experts which analyze the key issues affecting a region's economy, its population, natural resources, foreign trade, labor problems and economic inequalities and other vital factors. In addition, the volumes offer useful support materials including a series of appendices that include a detailed chronology of events in the region, a glossary of terms, biographical entries on key personalities, an annotated bibliography of further reading and a comprehensive analytical index **Confucianism, Democratization, and Human Rights in Taiwan** Joel Fetzer, J. Christopher Soper, 2013 Responding to the Asian values debate over the compatibility of Confucianism and liberal democracy, *Confucianism, Democratization and Human Rights in Taiwan* by Joel S. Fetzer and J. Christopher Soper offers a rigorous systematic investigation of the contributions of Confucian thought to democratization and the protection of women, indigenous peoples and press freedom in Taiwan. Relying upon a unique combination of empirical analysis of public opinion

surveys legislative debates public school textbooks and interviews with leading Taiwanese political actors this essential study documents the changing role of Confucianism in Taiwan's recent political history While the ideology largely bolstered authoritarian rule in the past and played little role in Taiwan's democratization the belief system is now in the process of transforming itself in a pro democratic direction In contrast to those who argue that Confucianism is inherently authoritarian the authors contend that Confucianism is capable of multiple interpretations including ones that legitimate democratic forms of government At both the mass and the elite levels Confucianism remains a powerful ideology in Taiwan despite or even because of the island's democratization Borrowing from Max Weber's sociology of religion the writers provide a distinctive theoretical argument for how an ideology like Confucianism can simultaneously accommodate itself to modernity and remain faithful to its core teachings as it decouples itself from the state In doing so Fetzer and Soper argue Confucianism is behaving much like Catholicism which moved from a position of ambivalence or even opposition to democracy to one of full support The results of this study have profound implications for other Asian countries such as China and Singapore which are also Confucian but have not yet made a full transition to democracy

The Awkward Embrace Charles Simkins, 2005-08-08

Democracies derive their resilience and vitality from the fact that the rule of a particular majority is usually only of a temporary nature By looking at four case studies *The Awkward Embrace* studies democracies of a different kind rule by a dominant party which is virtually immune from defeat Such systems have been called Regnant or Uncommon Democracies They are characterized by distinctive features the staging of unfree or corrupt elections the blurring of the lines between government the ruling party and the state the introduction of a national project which is seen to be above politics and the erosion of civil society This book addresses major issues such as why one such democracy namely Taiwan has been moving in the direction of a more competitive system how economic crises such as the present one in Mexico can transform the system how government business relations in Malaysia are affecting the base of the dominant party and whether South Africa will become a one party dominant system

East Meets West Daniel A. Bell, 2000-05-08

Is liberal democracy a universal ideal Proponents of Asian values argue that it is a distinctive product of the Western experience and that Western powers shouldn't try to push human rights and democracy onto Asian states Liberal democrats in the West typically counter by questioning the motives of Asian critics arguing that Asian leaders are merely trying to rationalize human rights violations and authoritarian rule In this book written as a dialogue between an American democrat named Demo and three East Asian critics Daniel A Bell attempts to chart a middle ground between the extremes of the international debate on human rights and democracy Bell criticizes the use of Asian values to justify oppression but also draws on East Asian cultural traditions and contributions by contemporary intellectuals in East Asia to identify some powerful challenges to Western style liberal democracy In the first part of the book Bell makes use of colorful stories and examples to show that there is a need to take into account East Asian perspectives on human rights and democracy The second part a fictitious dialogue between Demo

and Asian senior statesman Lee Kuan Yew examines the pros and cons of implementing Western style democracy in Singapore. The third part of the book is an argument for an as yet unrealized Confucian political institution that justifiably differs from Western style liberal democracy. This is a thought provoking defense of distinctively East Asian challenges to Western style liberal democracy that will stimulate interest and debate among students of political theory, Asian studies and international human rights.

Taiwan's Presidential Politics Muthiah Alagappa, 2017-07-28. The March 2000 presidential election was an important milestone in the democratic development of Taiwan with the Kuomintang turned out of power after five decades of control and replaced by the Democratic Progressive Party. This book addresses the variety of effects that Taiwan's democratic development and the election will have on domestic policy in the region. Part one looks at trends and changes in Taiwan's politics and analyzes the outcome of the March 2000 election. The chapters in part two discuss the international implications of Taiwan's democratic evolution for a variety of issues including political, economic and security relations on both sides of the Taiwan strait, Japan's foreign policy in the region, U.S. foreign policy in the region and peace and security in Southeast Asia. The challenges and prospects for continued democratic consolidation and the implications and lessons for the PRC and Southeast Asia are also explored.

Handbook of Global Economic Policy Stuart Nagel, 2019-02-21. Written by over 20 leading international economists, this book offers win-win scenarios to economic problems. As in the other volumes of this set of public policy handbooks, the Handbook of Global Economic Policy employs a unique organizational principle: from viewing economic problems from conservative and liberal perspectives to developing practical, non-ideological solutions to the problems and finally testing the solution's feasibility in terms of economic, administrative, political, psychological, legal, international and technological obstacles. The authors confront conventional wisdom about tradeoffs between unemployment and inflation, economic growth and displaced workers, and so on.

Class and Politics in Malaysian and Singaporean Nation Building Muhamad M. N. Nadzri, 2025-05-23. Nadzri explores a range of factors that have influenced nation building in Malaysia and Singapore with principal emphasis on the importance of social and economic class. In contrast to previous studies on nation building which overwhelmingly rely on the explanatory power of culture, race and ethnic community, the book foregrounds the importance of social and economic status. The three main themes explored in this book are how the nation building projected in each country is driven by the class interests of its ruling elites, how elections have impacted the politics of nation building and how each country's nation building policies are designed to build political loyalty and support for the ruling elites. The comparability of analytical outcomes using the prism of class interests uncovers the limitations of the explanatory power of race, ethnic community and culture in understanding the social and political dynamics of the two countries. A valuable read for scholars and students of politics in Malaysia and Singapore that will also be of interest to scholars of comparative approaches to nation building.
