## **Political Economy Power And The Body Global Perspectives:**

**Political Economy, Power and the Body** G. Youngs, 1999-10-28 Political Economy Power and the Body is carefully organized to provide an introductory section of three chapters which set out a number of detailed theoretical arguments relevant to the work developed in the next two sections In this sense the collection should be a major contribution in laying the groundwork in the new area The strength of the volume lies in the way the individual chapters bring theory and practice together It could be argued that it represents the maturity of feminist work in international political economy now The book will be a vital teaching as well as research text especially in international relations international political economy women's studies generally

**A Critical Rewriting of Global Political Economy** V. Spike Peterson, 2004-03-01 Moving beyond a narrow definition of economics this pioneering book advances our knowledge of global political economy and how we might critically respond to it V Spike Peterson clearly shows how two key features of the global economy increasingly determine everyday lives worldwide The first is explosive growth in financial markets that shape business decision making and public policy making and the second is dramatic growth in informal and flexible work arrangements that shape income generation and family wellbeing These developments though widely recognized are rarely analyzed as inextricable and interacting dimensions of globalization Using a new theoretical model Peterson demonstrates the interdependence of reproductive productive and virtual economies and analyzes inequalities of race gender class and nation as structural features of neoliberal globalization Presenting a methodologically plural cross disciplinary and well documented account of globalization the author integrates marginalized and disparate features of globalization to provide an accessible narrative from a postcolonial feminist vantage point

Gramsci, Political Economy, and International Relations Theory A. Ayers, 2008-11-10 This book seeks to provide the most comprehensive and sustained engagement and critique of neo Gramscian analyses available in the literature In examining neo Gramscian analyses in IR IPE the book engages with two fundamental concerns in international relations i The question of historicity and ii The analysis of radical transformation

Global Political Economy in the Information Age Gillian Youngs, 2007-01-24 This volume is an insightful fresh and wide ranging evaluation of the conceptual challenges of globalization and the new information era

**Global Transformations and World Futures - Volume I** Sohail Tahir Inayatullah, 2009-10-20 Global Transformations and World Futures is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Global Transformations and World Futures in two volumes deals with the diversity of points of view on this complex subject The chapters in these volumes are organized into three groups The first starts with chapters introducing the Global transformations in Knowledge Social and Cultural issues Issues such as the nature of global science the challenge of building real communities in a virtual world and the transition from an information economy to a communicative economy are explored The second presents the Global Economy The final group

discusses the World Futures These two volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs

*Feminist International Relations Through a Technospatial Lens* Gillian Youngs, 2024-11-14 *Feminist International Relations Through a Technospatial Lens* is a rich thought provoking and wide ranging assessment of power and empowerment in the digital age Artificial intelligence AI innovations have launched a new era of policy and public engagement with the workings of digital economy and the scale of its possibilities and risks How beneficial will its data driven technological advances be across scientific medical and commercial sectors and what are the dangers of its increasing capacities to replace human presence and interactions with convincing replications These are the kinds of big new questions societies confront Answers will need to draw on deep understanding of technospatial and technosocial dimensions of digital economy and how it has extended deepened and transformed automation as a continuing feature of earlier industrial economy transitions These are the central themes addressed in this book which presents a new analysis supported by a range of material related to more than a quarter of a century of Gillian Youngs applied research and practice on power and empowerment in the digital world The book examines the complex masculinist abstractions and structures that have framed technology as intrinsic to the momentum of change in unquestioned ways in political economy and its state and market drivers including in research policy corporate and profit driven strategies To transcend these abstractions and open up pathways for full sociotechnical interrogation of the promise and hazards of advances such as AI the author's distinctive critical approach combines insights from feminist theory and practice political economy and media and communications Contributing to advancing feminist international relations and consolidating its distinctive place in cutting edge social and political science this book will speak to scholars and students of international relations politics women's and gender studies as well as geography sociology and media and communications

**Rethinking Empowerment** Jane L. Parpart, Shirin M. Rai, Kathleen A. Staudt, 2003-08-29 *Rethinking Empowerment* looks at the changing role of women in developing countries and calls for a new approach to empowerment An approach that adopts a more nuanced feminist interpretation of power and empowerment recognises that local empowerment is always embedded in regional national and global contexts pays attention to institutional structures and politics and acknowledges that empowerment is both a process and an outcome Moreover the book warns that an obsession with measurement rather than process can undermine efforts to foster transformative and empowering outcomes It concludes that power must be restored as the centrepiece of empowerment Only then will the term and its advocates provide meaningful ammunition for dealing with the challenges of an increasingly unequal and often sexist global local world

*Feminist Interventions in International Communication* Katharine Sarikakis, Leslie Regan Shade, 2008 This cutting edge work critiques today's global mediascape through feminist perspectives highlighting concerns of policy power labor and technology Starting with the general state of international communications

the book uses feminist political economic and policy analyses to explore the globalization of media industries including questions about women's employment and media content that is globally produced and consumed. A top notch group of authors covers cases on online news pornography and explicit material political participation and democracy policies for women's development violence against women labor practices and information workers print media and publishing public telecentres media coverage of HIV AIDS and more. Providing fresh feminist insights into international communication this essential book shows the important strides taken toward women's justice in these areas and how far there is yet to go.

Globalisation and Equality Keith Horton, Haig Patapan, 2004-07-31 Is globalisation creating a more unequal world? Is it creating new forms of inequality? Does it make certain pre-existing forms of inequality more morally or politically significant than they would otherwise have been? *Globalisation and Equality* examines these and related questions exploring the way increasing globalisation is challenging our conceptions of equality. The contributors explore these themes from both theoretical and empirical perspectives. Some adopt a more abstract approach exploring foundational questions concerning the meaning of equality its social and political dimensions and more specifically its moral implications in a global context. Others engage the general themes of globalisation and equality by focusing on specific topics such as welfare citizenship gender culture and the environment. Original in the questions it poses and interdisciplinary in its approach this collection of essays will appeal to all those with an interest in globalisation and equality.

*Gender and Global Restructuring* Marianne H. Marchand, Anne Sisson Runyan, 2005-08-08 First published in 1999 Routledge is an imprint of Taylor Francis an information company.

**Critical Perspectives in International Studies** Frank P. Harvey, Michael Brecher, 2002 *Critical Perspectives in International Studies* offers an exciting survey of recent approaches to the study of international politics including critical theory radical theory constructivism postmodernism system change and feminist and gender perspectives. The authors among the founders and leaders of these innovative ways to comprehend and represent world politics reflect on the strengths and weaknesses of each school of thought and suggest future research agendas.

*War, Ethics and Justice* Annika Bergman-Rosamond, Mark Phythian, 2011-01-28 This edited volume addresses the key issues of ethics war and international relations in the post 9/11 world. There is a lively debate in contemporary international relations concerning the relationship between statist obligations to one's own political community and cosmopolitan duties to distant others. This volume contributes to this debate by investigating aspects of the ethics of national military and security and intelligence policies in the post 9/11 environment. The discursive transformation of national militaries into forces for good became normalized as the Cold War subsided. While the number of humanitarian military interventions and operations rose considerably in the immediate post Cold War period the advent of the war on terror raised questions about exactly what we mean by ethical behaviour in terms of military and security policies. This volume interrogates this key question via a focus that is both distinctive and illuminating on national military ethics femininities masculinities and difference and intelligence ethics. The

key objectives are to demonstrate the important linkages between areas of international relations that are all too often treated in isolation from one another and to investigate the growing tension between cosmopolitan and communitarian conceptions of intelligence and security and the use of armed force This book will be of much interest to students of security studies ethics gender studies intelligence studies and international relations in general Mark Phythian is Professor of Politics in the Department of Politics and International Relations at the University of Leicester He is the author or editor co editor of ten books Annika Bergman Rosamond is Senior Researcher at the Danish Institute for International Studies in Copenhagen

Relatedness in a Global Economy Edward B. Klein, Ian L. Pritchard, 2018-03-28 Massive social changes have brought prosperity to many groups and nations Technological developments continue to facilitate the transformation of our lives More employees are working in teams connected technologically throughout the world Many have participated in some times disconnected discussions involving managers on different continents How we understand the dynamics of such virtual environments are challenges for workers and managers Institutional transformation often involves a process of continuous change which is both exciting and challenging and calls for flexibility on the part of the employees and executives This book combines psychodynamic small group and social systems theories in addressing consultations in various countries The authors from India Australia England and the United States provide rich case material as well as theoretical background in explicating current consultations It will appeal to executive coaches organizational consultants NGOs specialists in finances and management human relations and those interested in third world development
