Political Geography Colin Flint, Peter J. Taylor, 2025-04-04 The new and updated eighth edition of

Political Geography once again shows itself fit to tackle a frequently and rapidly changing geopolitical landscape. It retains the intellectual clarity, rigour and vision of previous editions based upon its world systems approach and is complemented by the perspective of feminist geography. The book successfully integrates the complexity of individuals with the complexity of the world economy by merging the compatible but different research agendas of the co-authors. This edition explores political geography within the context of US-China competition, Russia's war with Ukraine, global climate change, new technologies and challenges to democracy. It advances the discussion from the previous editions on the dynamics of the capitalist world economy and the constant tension between the global scale of economic processes and the territorialization of politics in the current context of geopolitical change. The chapters have been updated with new examples, new sections on global climate change, populism and the growing threat of global war. The book offers a framework to help students make their own judgements of how we got where we are today and what may or should be done about it. Political Geography remains a core text for students of political geography, geopolitics, international relations and political science as well as more broadly across human geography and the social sciences.

Dr. H. Laldinmawia, 2020-12-21. My heartiest gratitude goes to my father who left on the 13th March 2005, whose love and inspiring messages put me up to this success. His insight, visions of selfless sacrifice push me to go on. It is distressful to celebrate when he is no more to rejoice along. This book is dedicated to His Memorial. I am deeply grateful to my beloved mother, Lalengmawii Colney, for her love, encouragement and prayers all through the work. The study would not to its present form without her constant moral support and suggestions. Last but not by any means least, I thank to Almighty God for giving me good health and strength, time and financial blessing to finish this manuscript. The views expressed in the book are entirely of the author and the others are duly cited in the text. Needless to say that the omissions in the study are either of ignorance or of negligence and the mistake, the sole responsibility lies with the scholar.

Alternative Capitalisms: Geographies of Emerging Regions Robert Gwynne, Denis Shaw, Thomas Klak, 2014-05-12. This book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now regularly referred to as emerging regions. These are Latin America and the Caribbean, East Central Europe and the former Soviet Union and East Asia. This book breaks new ground in three areas. First of all, it develops a critique of the use of the term emerging regions for geographers and social scientists and relates this to world systems theory. Secondly, it explores the development trajectories and challenges of countries in this so called emerging world, countries that will be crucial to the evolution of the world economy in the twenty first century. Thirdly, it compares and contrasts the pathways of both economic and political change in the three world regions under focus. This is a unique approach in terms of books published in both geography and the social sciences. Within the context of the three world regions, the book combines historical and contemporary analysis of the evolving world system. In these regions, we are concerned to understand the historical expansion and extension of capitalism and how its contemporary forms of production, exchange and regulation are evolving. The authors believe that at the present time, these processes have produced alternative capitalisms, economic and associated developments which, while assuredly capitalist, differ in various ways from those typical of the capitalist West or core economies of North America and Western Europe.
