Welfare, Ethnicity and Altruism Frank Salter, 2013-03-07 Welfare Ethnicity and Altruism applies the controversial theory of Ethnic Nepotism first formulated by Iren us Eibl Eibesfeldt and Pierre van den Berghe to the modern welfare state both are authors in this volume This theory states that ethnic groups resemble large families whose members are prone to cooperate due to kin altruism Recent empirical findings in economics and political science offer confirmatory evidence The book presents two separate studies that compare welfare expenditures around the world both indicating that the more ethnically mixed a population becomes the greater is its resistance to redistributive policies These results point to profound inconsistencies within ideologies of both left and right regarding ethnicity The Motherless State Eileen

McDonagh, 2009-08-01 American women attain more professional success than most of their counterparts around the world but they lag surprisingly far behind in the national political arena Women held only 15 percent of U S congressional seats in 2006 a proportion that ranks America behind eighty two other countries in terms of females elected to legislative office A compelling exploration of this deficiency The Motherless State reveals why the United States differs from comparable democracies that routinely elect far more women to their national governing bodies and chief executive positions Explaining that equal rights alone do not ensure equal access to political office Eileen McDonagh shows that electoral gender parity also requires public policies that represent maternal traits Most other democracies she demonstrates view women as more suited to govern because their governments have taken on maternal roles through social welfare provisions gender quotas or the continuance of symbolic hereditary monarchies The United States has not adopted such policies and until it does McDonagh insightfully warns American women run for office with a troubling disadvantage **A Restless Mind** Benjamin

Collapse of Development Planning Peter J. Boettke, 1994-07-01 Addresses one of the most pressing issues of international political economy Conventional wisdom has it that government management of the economy is the means to transform a backward economy into a dynamic modern one Yet after decades of international aid programs development planning is today largely perceived as a failure paralyzed by its own bureaucracy and inefficiency Despite billions of dollars of

investment development successes are few and far between and waste and mismanagement abounds This book showcases a diverse range of development experiences in order to ascertain the reasons for this quagmire Case studies of development planning in China India post WWII Japan South Korea Africa and Eastern Europe and of foreign aid programs including the Marshall Plan illustrate the insights an Austrian approach provides toward an understanding of the failure of government development planning While economists working within the Austrian tradition have previously addressed development issues this volume represents the first full length treatment of the subject from a modern market process perspective Exploding the hegemony of the traditional development paradigm The Collapse of Development Planning addresses one of the most pressing issues of international political economy Contributing to the volume are George Ayittey American University Wayne T Brough Citizens for a Sound Economy Washington DC Young Back Choi St John s University Steven Hanke Johns Hopkins University Steve Horwitz St Lawrence University Shyam J Kamath California State University Hayward Shigeto Naka Hiroshima City University David Osterfeld St Joseph s College Manisha Perera University of Northern Colorado Jan S Prybyla Pennsylvania State University Ralph Raico State University College Buffalo Parth Shah University of Michigan Dearborn Kurt Schuller Johns Hopkins University Kiyokazu Tanaka Sophia University Tokyo and Mark Thorton Auburn University
