## **Political Life In Romania 1918 1921:**

*Romania, 1916-1941* Dennis Deletant, 2022-08-19 This study challenges the rose tinted view of the interwar period in Romanian history which is often judged against the darkness of almost five decades of Communist rule Romania like several of the states of Eastern Europe emerged from the First World War as it had entered it as a predominantly agricultural country and one of its major problems was the condition of the peasantry This volume s focus is the drive to improve that condition on the collapse of democracy and the search by Romania s leaders for strategies to secure the state to assert the country s independence and to maintain its territorial integrity in the face of the threat to the European order posed by two totalitarian systems represented by Nazi Germany and the Soviet Union By examining recent scholarship this volume provides the most up to date account of Romania s predicament in the interwar years Romania 1916 1941 is a useful resource for upper level undergraduates postgraduates and scholars interested in foreign policy politics society internationalization and late development in interwar Central and Eastern Europe

**Cultural Politics in Greater Romania** Irina Livezeanu, 2018-08-06 Since the fall of the Ceausescu regime Romanian politics have been haunted by unresolved issues of the past Irina Livezeanu examines a critical chapter in Eastern European history the trajectory of the aggressive nationalism that dominated Romania between the world wars

**Political Life in Romania 1918-1921** Mircea Muşat, Ion Ardeleanu, 1982

*Romania under Communism* Dennis Deletant, 2018-10-11 Communism has cast a long shadow over Romania The passage of little over a quarter of a century since the overthrow in December 1989 of Romania s last Communist leader Nicolae Ceau escu offers a symbolic standpoint from which to penetrate that shadow and to throw light upon the entire period of Communist rule in the country An appropriate point of departure is the observation that Romania s trajectory as a Communist state within the Soviet bloc was unlike that of any other That trajectory has its origins in the social structures attitudes and policies in the pre Communist period The course of that trajectory is the subject of this inquiry

*Politics and Peasants in Interwar Romania* Sorin Radu, Oliver Jens Schmitt, 2017-11-06 The volume discusses the integration of peasants into the nation building project of Greater Romania with a focus on social and cultural practices Thus it addresses one of the key questions of the new political system in post imperial East Central and Southeast Europe It advocates a shift from a multiple top down perspective capital province urban political elites rural voters to an analysis concentrating on regionally diverse rural societies with a special interest in the predominantly ethnic Romanian population

Romania ,1971

*Alan S. Milward and Contemporary European History* Fernando Guirao, Frances M.B. Lynch, 2015-10-14 Alan S Milward was a renowned historian of contemporary Europe In addition to his books as well as articles and chapters in edited books he also wrote nearly 250 book reviews and review articles some in French and German which were published in journals world wide Taken together they reveal a remarkable degree of theoretical consistency in his approach to understanding the history of Europe since the French Revolution This book brings together these previously

unexamined pieces of historical analysis in order to trace and shed light on key intellectual debates taking place in the second half of the 20th century. Many of these discussions continue to influence us today such as the role of Germany in Europe, the economic, social and political foundations of European integration, the European rescue of the nation state, the reasons for launching the single currency, the conditions for retaining the allegiance of European citizens to the notions of nation and supra nation, and ultimately the issue of democratic governance in a global environment. In bringing together these reviews and review articles, the book provides an introduction to the main scholarly achievements of Milward in his own words. Fernando Guirao and Frances M B Lynch provide an introduction to the volume which both guides the reader through many of the academic debates embedded within the text while underlining their contemporary relevance. By introducing and bringing together this hitherto overlooked treasure trove of historical analysis, this book maps a close itinerary of some of the most salient intellectual debates of the second half of the 20th century and beyond. This unique volume will be of great interest to scholars of economic history, European history and historiography.

**Fascists and Conservatives** Martin Blinkhorn, 2012-11-12. First published in 1990. During the last twenty years, prodigious scholarly effort has gone into the study of fascism and the right in twentieth century Europe. Quite apart from the study of particular fascist and national socialist movements and of individual right wing regimes (Fascist Italy, the Third Reich, Franco's Spain etc), scholars have striven to locate the essential nature of fascism, to determine what is distinctive about its ideas, programmes, policies, and support, to identify what, if anything, differentiates it from other forms of rightism, and to decide whether a satisfactory definition of fascism can be arrived at. This volume is intended to assist the further consideration of these and related problems.

**The Civic Foundations of Fascism in Europe** Dylan Riley, 2019-01-15. Drawing on a Gramscian theoretical perspective and developing a systematic comparative approach, *The Civic Foundations of Fascism in Europe* challenges the received Tocquevillian consensus on authoritarianism by arguing that fascist regimes just like mass democracies depended on well organised rather than weak and atomised civil societies. In making this argument, the book focuses on three crucial cases of interwar authoritarianism: Italy, Spain, and Romania, selected because they are all counterintuitive from the perspective of established explanations while usefully demonstrating the range of fascist outcomes in interwar Europe. *Civic Foundations* argues that in all three cases, fascism emerged because of the rapid development of voluntary associations combined with weakly developed political parties among the dominant class, thus creating a crisis of hegemony. Riley then traces the specific form that this crisis took depending on the form of civil society developed: autonomous as in Italy, elite dominated as in Spain, or state dominated as in Romania in the nineteenth century.

**Chronological History of Romania** Constantin C. Giurescu, Horia C. Matei, 1974.

**Romania, Politics, Economics, and Society** Michael Shafir, 1985.

**Romania In The 1980s** Daniel N. Nelson, 2019-06-04. Among communist states, Romania is in several respects a unique case. Romania has been the only Warsaw Pact member to deviate consistently from Soviet foreign policy norms and alone within Eastern Europe

to avoid oil imports from the USSR The leadership of Nicolae Ceausescu since 1965 has meanwhile governed through a studious commitment to socio economic centralization and control often reminiscent of Stalinist orthodoxy Intellectual freedom artistic liberty and workers rights have changed little relative to Poland Hungary or the transient Prague Spring Such international and domestic policy distinctions as well as a record of impressive industrial growth necessitate an effort to understand the dynamics of Romania s socio economic and political life This volume is meant to delineate trends in political social and economic life which will constitute dynamic elements for the Romanian system during the 1980s and beyond Contributors all scholars with lengthy research experience in Romania the Balkans and communist states generally have sought to identify factors likely to be influential during this and ensuing decades In that sense this is a predictive volume containing not crystal ball gazing but the careful identification and assessment of trends influencing Romanian foreign and domestic policies economic and political performance and societal transformations By suggesting elements crucial to socio economic and political change in Romania we hope to make observing this intriguing communist state somewhat less haphazard and more systematic

Dunărea Noastră Romania, the Great Powers, and the Danube Question, 1914-1921

Richard C. Frucht,1982 The author analyses the significance of the Danube Question for Romania in the context of the Eastern Question and of Great Power diplomacy vs the interests and diplomacy of individual riverine nations such as Romania

Alan S. Milward and a Century of European Change Fernando Guirao,Frances Lynch,Sigfrido M. Ramirez Perez,2012-08-21 The main purpose of the book is to introduce the work of Alan S Milward and to acknowledge the full magnitude of his scientific contribution to contemporary British and European history The book is a collection of essays which provide a better understanding of Alan Milward s extensive intellectual work for future scholars and facilitate the knowledge and transmission of his published work to present and future generations of students scholars in the various disciplines concerned and the general public The series of original contributions which this book contains are related to or reflect critically upon Milward s own contributions to the fields of political diplomatic and socio economic history political science economics international relations and European Studies in general This book honors Alan Milward through a better understanding of his many pioneering contributions in the fields of contemporary European history in general and the history of European integration in particular Although the volume does not aim to be a substitute for Milward s work itself it illuminates and assesses his creative process along fifty years of continued and intense work as well as the impact of his main work and the continuing relevance of his main theses today

### **Development of Class Structure in Eastern Europe**

Aleksander Gella,1989-01-01 Emphasizing the development of class structure this book is the first in English to describe the historical and social development of Poland Czechoslovakia Hungary and Romania from medieval feudalism to modern capitalism Historically these countries have maintained mostly peaceful relations among themselves in the past and now share the common characteristic of being Soviet satellites The author has devoted particular attention to Poland because of

its unique political system as well as its greater size population and cultural influence The book is divided into three sections part one reviews the early history and social structure of each country part two provides a sociological analysis of social classes and their evolution over centuries and part three examines the effect that World War II has had on these social classes

**Romania** Keith Hitchins,1994 From the mid nineteenth century until the Second World War the energies of Rumanian political and intellectual lites were absorbed by the building of their nation In this comprehensive and scholarly study Keith Hitchins traces these complex processes and explores how Rumania s leaders attempted to transform the ideology of modern nationhood into strong political economic and social institutions and to find ways of preserving independence in an international political and economic order dominated by the great powers As the new Rumania took shape the threads of historical continuity remained strikingly evident in government a strong administrative centralization prevailed despite the maturing of parliamentary institutions and the diversity of political expression the national economy remained beholden to agriculture despite the steady growth of industry and in cultural life traditional values persisted despite the adoption of modern forms In foreign relations the most pressing aim was to unite all Rumanians in a single state and to defend its sovereignty within an uncertain international order In all these endeavours the measure of achievement was the West After the Second World War when the Communist Party came to power this historical continuity was broken The experiment in nation building gave way to a new ideology and Rumania now turned to the Soviet political and economic model
