Political Organizing in Grassroots Politics Daniel M. Russell, 1990 To find more information on Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com) Community Organizing and Community Building for Health Meredith Minkler, 2005 Cuban American Political Culture and Civic Organizing Robert M. Ceresa, 2017-06-21 This book studies civic organizations in Miami's Cuban community Few places in the United States have been transformed by immigration the way Miami has been transformed by Cuban exiles Cuban civic organizations help to explain why this is the case Civic organizations are the heart of the story of the social and political power and influence of Miami's Cuban community This community is home to a broad tradition of active political participation and many civic organizations The sheer number of organizations suggests they have something to do with the community's considerable vibrancy and civic capacity How do the organizations work How have they managed to be so successful over so many years What can be learned about successful civic organizing from their experience How will changing United States Cuba relations impact Cuban civic organizations and in turn broader Miami These are questions this book helps to answer Party Organization and Activism in the American South Robert P. Steed, John A. Clark, Lewis Bowman, Charles D. Hadley, 2012-10-29 Maps the ways political parties remain vital components in the American political system especially in the eleven states in the South As Tocqueville noted more than 100 years ago No countries need associations more than those with a democratic social state Although some contemporary observers see a decline in associations especially in the political sphere the contributors in this volume argue not only that political parties remain an essential component of the American political system but also that grassroots political groups have revitalized the political process especially in the South Using data gathered from local party officials in the eleven southern states the authors examine such key issues as Who becomes involved in local party organizations and why How do parties recruit and retain workers What are the ideological and issue orientations of these activists How does intraparty factionalism affect local party organizations What is the connection between the party organization and its external environment The large regional database provides these contributors with the opportunity to extend the study of local party organization and activists thus addressing some of the significant gaps in previous research The additional data enable them to clarify the nature of local party organizations and in a larger sense the role of the parties in the contemporary American political system

**The Handbook of Community Practice** Marie Weil, Michael Reisch, 2005 Encompassing community development organizing planning and social change as well as globalisation this book is grounded in participatory and empowerment practice The 36 chapters assess practice theory and research methods **Alt-Labor and the New Politics of Workers' Rights** Daniel J. Galvin, 2024-02-02 Over the last half century two major developments have transformed the nature of workers rights and altered the pathways available to low wage workers to combat their exploitation First while national labor law which regulates unionization and collective bargaining has grown increasingly ineffective employment laws establishing

minimal workplace standards have proliferated at the state and local levels Second as labor unions have declined a diversity of small under resourced nonprofit alt labor groups have emerged in locations across the United States to organize and support marginalized workers In *Alt Labor and the New Politics of Workers Rights* political scientist Daniel J Galvin draws on rich data and extensive interviews to examine the links between these developments With nuance and insight Galvin explains how alt labor groups are finding creative ways to help their members while navigating the many organizational challenges and structural constraints they face in this new context Alt labor groups have long offered their members services and organizing opportunities to contest their unfair treatment on the job But many groups have grown frustrated by the limited impact of these traditional strategies and have turned to public policy to scale up their work They have successfully led campaigns to combat wage theft raise the minimum wage improve working conditions strengthen immigrants rights and more These successes present something of a puzzle relative to their larger wealthier and better connected opponents alt labor groups are small poor and weak Their members are primarily low wage immigrant workers and workers of color who are often socially economically and politically marginalized With few exceptions the groups lack large dues paying memberships and are dependent on philanthropic foundations and other unpredictable sources of funding How given their myriad challenges have alt labor groups managed to make gains for their members Galvin reveals that alt labor groups are leveraging their deep roots in local communities their unique position in the labor movement and the flexibility of their organizational forms to build their collective power and extend their reach A growing number of groups have also become more politically engaged and have set out to alter their political environments by cultivating more engaged citizens influencing candidate selection processes and expanding government capacities These efforts seek to enhance alt labor groups probabilities of success in the near term while incrementally shifting the balance of power over the long term *Alt Labor and the New Politics of Workers Rights* comprehensively details alt labor s turn to policy and politics provides compelling insights into the dilemmas the groups now face and illuminates how their efforts have both invigorated and complicated the American labor movement

*Informal Justice in Contemporary Society* Dr Lee Li-On, 2016-05-06 Drawing on an ethnographic study in a multicultural city of Arabs and Jews in Israel this book examines the models and expressions of power implicated in discourse and conflict resolution practices in cross cultural contemporary community The author explores community politics expressed in daily life as a contextual background to the analysis of conflict resolution politics exploring perspectives of state and civic stakeholders Through case analysis and addressing the individual organisational and societal levels Dr Li On illustrates that conflict resolution is dominated by politics with culture ethnicity and identity playing a significant role disputing groups rely on conflict resolution to achieve contesting socio political goals The book explores core concerns in the field illustrating obstacles challenges and opportunities confronting informal justice in contemporary communities *Informal Justice in Contemporary Society* is motivated by the field s research practice gap and the lack of real

world impact research in cross cultural settings The book contributes insights towards theory refinement and conflict resolution practice by addressing practical issues confronted by mediators in the field This innovative research path introduces a holistic approach to the study of informal justice in social context deploying multilevel ethnographic analysis to broaden the perspectives and understanding of conflict resolution in contemporary communities Locally it provides insights into conflict resolution in Israel in a mixed city of Arabs and Jews This book belongs on the reference shelf of essential reading for educators researchers and practitioners in conflict resolution and social studies including anthropological community legal and cultural fields

### **Community Organizing and Community Building for Health and Welfare**

Meredith Minkler, 2012-07-16 The third edition of *Community Organizing and Community Building for Health and Welfare* provides new and more established ways to approach community building and organizing from collaborating with communities on assessment and issue selection to using the power of coalition building media advocacy and social media to enhance the effectiveness of such work With a strong emphasis on cultural relevance and humility this collection offers a wealth of case studies in areas ranging from childhood obesity to immigrant worker rights to health care reform A tool kit of appendixes includes guidelines for assessing coalition effectiveness exercises for critical reflection on our own power and privilege and training tools such as policy bingo From former organizer and now President Barack Obama to academics and professionals in the fields of public health social work urban planning and community psychology the book offers a comprehensive vision and on the ground examples of the many ways community building and organizing can help us address some of the most intractable health and social problems of our times Dr Minkler's course syllabus Although Dr Minkler has changed the order of some chapters in the syllabus to accommodate guest speakers and help students prep for the midterm assignment she uses she arranged the actual book layout in a way that should flow quite naturally if instructors wish to use it in the order in which chapters appear

### *Organizing for Democracy* G. Sidney Silliman, Lela Garner Noble, 1998-05-01

The number variety and political prominence of non governmental organization in the Philippines present a unique opportunity to study citizen activism Nearly 60 000 in number by some estimates grassroots and support organizations promote the interests of farmers the urban poor women and indigenous peoples They provide an avenue for political participation and a mechanism unequalled elsewhere in Southeast Asia for redressing the inequities of society *Organizing for Democracy* brings together the most recent research on these organizations and their programs in the first book addressing the political significance of NGOs in the Philippines

### Be the Change Keely Rees, Jody Early, Cicily Hampton, 2022-10-28

Advocacy has become a key part of public health degree programs across the country Many programs have added policy and advocacy courses into curricula in response to new emphases in accreditation requirements yet few public health textbooks comprehensively cover the advocacy skills that health professionals need to effect change *Be the Change* is an affordable introductory resource on public health advocacy policy and community organizing for both undergraduate and graduate

students within the health and social sciences Using a conversational and reader friendly style the authors draw on their experience as diverse advocates and practitioners in the field to synthesize the purpose strategies and tactics used in successful advocacy campaigns in public health In each chapter they highlight case studies of actual advocacy campaigns alongside concrete strategic recommendations for implementing change at the local state and federal levels Full of useful stories and advice *Be the Change* amplifies the important advocacy work happening around the United States from traditional health organizations to grassroots community activists and provides readers with the tools and inspiration to put advocacy into practice every day

**Janitors, Street Vendors, and Activists** Christian Zolniski, 2006 This book exposes the underbelly of California's Silicon Valley the most successful high technology region in the world in a vivid ethnographic study of Mexican immigrants employed in Silicon Valley's low wage jobs The author demonstrates how global forces have incorporated these workers as an integral part of the economy through subcontracting and other flexible labor practices and explores how these labor practices have in turn affected working conditions and workers daily lives These immigrants do not emerge merely as victims of a harsh economy despite the obstacles they face they are transforming labor and community politics infusing new blood into labor unions and challenging exclusionary notions of civic and political membership

**Grassroots Politics in the 1980's** Institute for the Study of Labor and Economic Crisis (San Francisco, Calif.), 1982

*A Theology of Community Organizing* Chris Shannahan, 2013-11-12 The rising importance of community organizing in the US and more recently in Britain has coincided with the developing significance of social movements and identity politics debates about citizenship social capital civil society and religion in the public sphere At a time when participation in formal political process and membership of faith groups have both declined dramatically community organizing has provided a new opportunity for small community groups marginalized urban communities and people of faith to engage in effective political action through the developments of inter faith and cross cultural coalitions of groups In spite of its renewed popularity little critical attention has been paid to community organizing This book places community organizing within debates about the role of religion in the public sphere and the rise of public theology in recent years The book explores the history methodology and achievements of community organizing engaging in a series of conversations with key community organizers in the US and Britain This volume breaks new ground by beginning to articulate a cross cultural and inter faith Theology for Community Organizing that arises from fresh readings of Liberation Theology

**Women and Politics** Barbara Burrell, 2017-10-02 This textbook for courses on women and politics thematically integrates two profound historical developments focusing on women's political participation in contemporary public life in the United States The second wave of women's rights activism has now spanned a half century

producing a revolution in women's presence and influence in the public realm of American life. Over the course of this same era, however, a second phenomenon of rising economic inequality has also dramatically changed the American landscape. Burrell's text uniquely examines the effect of the age of inequality on women's advancement toward economic and political equality and in turn how policy initiatives of the women's movement have addressed inequality issues. Students will come to better understand what's at stake in the politics and policy issues from the women's rights movement to the war on women debate. Explaining a diverse set of issues and viewpoints, Burrell brings a fresh approach to the engagement of women in the public realm over the past half century. Framing this activism in the great economic divide of the same time period provides a thought-provoking, challenging, and broad thematic approach to this history. The text chronicles the many diverse types of actions women have taken in the contemporary era to achieve gender equity, empowerment, and a greater public voice. Women, both liberal feminist and conservative, have run for and been elected to positions of leadership at all levels of government. Women have formed organizations to lobby for equity in employment and education in the military and to promote reproductive rights. They have engaged in unconventional political activities, marching against and protesting the actions and policies of economic corporations and governmental institutions. Women with few economic resources have joined together to challenge local power structures. In addition to efforts to improve the lives and status of women in the United States, nongovernmental organizations (NGOs) have formed to promote global women's rights. Readers of this text will gain a great appreciation of the multiple political voices of American women and the challenges to continued unequal voices.

Community Organizing and Community Building for Health and Social Equity, 4th edition Meredith Minkler, Patricia Wakimoto, 2021-12-10. The fourth edition of *Community Organizing and Community Building for Health and Social Equity* provides both classic and recent contributions to the field with a special accent on how these approaches can contribute to health and social equity. The 23 chapters offer conceptual frameworks, skill building, and case studies in areas like coalition building, organizing by and with women of color, community assessment, and the power of the arts, the Internet, social media, and policy and media advocacy in such work. The use of participatory evaluation and strategies and tips on fundraising for community organizing also are presented, as are the ethical challenges that can arise in this work and helpful tools for anticipating and addressing them. Also included are study questions for use in the classroom. Many of the book's contributors are leaders in their academic fields, from public health and social work to community psychology and urban and regional planning and to social and political science. One author was the 44th president of the United States himself, a former community organizer in Chicago who reflects on his earlier vocation and its importance. Other contributors are inspiring community leaders whose work on the ground and in partnership with us outsiders highlights both the power of collaboration and the cultural humility and other skills required to do it well. Throughout this book, and particularly in the case studies and examples shared, the role of context is critical and never far from view. Included here, most recently, are the horrific and

continuing toll of the COVID 19 pandemic and a long overdue yet still greatly circumscribed national reckoning with systemic racism in the aftermath of the brutal police killing of yet another unarmed Black person and then another and another seemingly without end In many chapters the authors highlight different facets of the Black Lives Matter movement that took on new life across the country and the world in response to these atrocities In other chapters the existential threat of climate change and grave threats to democracy also are underscored View the Table of Contents and introductory text for the supplementary instructor resources [https://d3tto5i5w9ogdd.cloudfront.net/wp-content/uploads/2022/02/041430469781978832176\\_optimized\\_sampler.pdf](https://d3tto5i5w9ogdd.cloudfront.net/wp-content/uploads/2022/02/041430469781978832176_optimized_sampler.pdf) Supplementary instructor resources are available on request <https://www.rutgersuniversitypress.org/communityorganizing>

**Beyond Slavery** Chris Gooding, 2023-06-05 Is there life beyond slavery In the past twenty years there has been an explosion of research related to human trafficking However very little of it has examined the moral issues that survivors face after they are freed or that aftercare workers face as they help survivors try to live a life outside of bondage And there has been almost nothing written on how the tools of moral and political theology might offer insight for Christians who wish to help survivors live a normal life after enslavement This book hopes to address this gap in the discussion Drawing on over fifty interviews with survivors aftercare workers and human trafficking specialists from his field work in India Chris Gooding confronts difficult questions that arise during rehabilitation Why do so many survivors of trafficking end up walking back into bondage What might life after slavery look like for survivors who helped enslave other people How can we build antislavery coalitions that keep survivors voices at the center Gooding looks at all these questions through the eschatological hope that Christians have that the Messiah will one day break every chain and free all people from all forms of bondage

**Becoming American, Being Indian** Madhulika S. Khandelwal, 2018-08-06 Since the 1960s the number of Indian immigrants and their descendants living in the United States has grown dramatically During the same period the make up of this community has also changed the highly educated professional elite who came to this country from the subcontinent in the 1960s has given way to a population encompassing many from the working and middle classes In her fascinating account of Indian immigrants in New York City Madhulika S Khandelwal explores the ways in which their world has evolved over four decades How did this highly diverse ethnic group form an identity and community Drawing on her extensive interviews with immigrants Khandelwal examines the transplanting of Indian culture onto the Manhattan and Queens landscapes She considers festivals and media food and dress religious activities of followers of different faiths work and class gender and generational differences and the emergence of a variety of associations Khandelwal analyzes how this growing ethnic community has gradually become more Indian with a stronger religious focus larger family networks and increasingly traditional marriage patterns She discusses as well the ways in which the American experience has altered the lives of her subjects

Revitalizing Urban Neighborhoods William Dennis Keating, Norman Krumholz, Philip Star, 1996 Since the 1950s and the advance of urban renewal local governments and urban policy have

focused heavily on the central business district However such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise America This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development Together they show how urban neighborhoods can and must be preserved as economic cultural and political centers *Mousepads, Shoe Leather, and Hope* Zephyr Teachout, Thomas Streeter, 2015-12-03 Howard Dean s campaign for president changed the way in which campaigns are run today With an unlikely collection of highly talented and motivated staffers drawn from a variety of backgrounds the Dean campaign transformed the way in which money was raised and supporters galvanized by using the Internet Surprisingly many of the campaign staff members were neither computer whizzes nor practiced political operatives even though that is how some of them are identified today This book allows key individuals in the campaign the chance to tell their stories with an eye to documenting the Internet campaign revolution and providing lessons to future campaigns Howard Dean s inspirational statement of what it took for his campaign to get as far as it did mousepads shoe leather and hope holds great wisdom for anyone campaigning today especially the 2008 presidential candidates
