Chinese Philosophy: A Selective and Analytic Approach George Sun, 2010-10-19

Joe was very much at home both in contemporary logical theory and in American philosophy The readers of the present volume will find the clarity of expression and the rich understanding of the background literature history and concepts of the tradition he addresses to be an important access to and perspective on Chinese philosophy Elizabeth R Eames Professor Emeritus formerly Director of the Graduate Institute of Philosophy SIUC Professor Wu provided deft comparisons between Chinese and Amero Eurocentric philosophies and challenges us to revisit and rethink our unexamined assumptions about reality knowledge value and the very enterprise of philosophy itself As a traditionally trained junzi Professor Wu's impressive range of expertise ranged from the Confucian classics to philology poetry and calligraphy certainly qualifying him for the designation of a Sinological renaissance man Few of today's scholars are able to draw on such rich resources in their exploration of Chinese philosophy which undoubtedly contributed to Professor Wu's sage proposal for Philosophy as the Art of Making Sense Sandra A Wawrytko Associate Professor San Diego State University CA Indeed the pocket edition de luxe of Chinese philosophy revisited in a new light the best invitation to the field long over due Deceptively lucid simple and clear yet witty and provocative throughout Every output from Joe Wu's pen is in one word EXQUISITE Bear in mind the essence of

Chinese mentality depth breadth simplicity and above all delicacy Ku Hung ming The author is capable of expressing with clearness not only what he thought with vigor Maugham but more significantly what he felt with delicacy The readers though appreciative of such a feat of brevity and lucidity may feel as we do wishing that Joe have more to enlighten us with but for his premature passing in 2006 Suncrates Editor in Chief Comprehensive Harmony About the Author Joseph S Wu Professor Emeritus of California State University at Sacramento CA USA was awarded a Certificate of Merit for Distinguished Service in Comparative Philosophy and Culture by the Board of Dictionary of International Biography of London 1971 *The Palgrave Handbook of Leninist Political Philosophy* Tom Rockmore, Norman Levine, 2018-12-19 This intellectually discomfiting disturbingly provocative yet still thoroughly scholarly Handbook reproduces the intellectual ferment that accompanied the Russian Revolution including the wholly polarising effect at that time of Vladimir Ilyich Lenin The Palgrave Handbook of Leninist Political Philosophy does not settle for one safe interpretation of the thought of this world historic figure but rather revels in a clash of viewpoints Most interestingly it presents a contrast between the Western editors who emphasise pure democracy and Marxian humanism with many of the contributing scholars who take a more sanguine view of the Leninist political project Perhaps reflecting the current Western political crisis some of the volume s other European and North American scholars more closely align with their colleagues from the Global South Key Features Places particular emphasis on the key elements of Lenin s thought the dictatorship of the proletariat which is trenchantly defended the nature of the dialectic and the New Economic Policy Additional comprehensive coverage includes the theory of the party Bolshevism imperialism and the class struggle in the countryside Examines the relation of Lenin s thought to the ideas of his most influential contemporaries including Luxemburg Stalin and Trotsky as well as the most eminent thinker to interpret Lenin since his death Gy rgy Luk cs This Handbook is essential reading for scholars researchers and advanced students in political philosophy political theory the history of political ideas economics international relations and world history It is also ideal for the general reader who wishes to understand some of the most powerful ideas that have shaped the modern world and that may yet shake the world again *Terrorism As a Political Philosophy* Frank DeAngelis, **Plato Goes to China** Shadi Bartsch, 2025-08-05 The surprising story of how Greek classics are being pressed into use in contemporary China to support the regime s political agenda As improbable as it may sound an illuminating way to understand today s China and how it views the West is to look at the astonishing ways Chinese intellectuals are interpreting or is it misinterpreting the Greek classics In *Plato Goes to China* Shadi Bartsch offers a provocative look at Chinese politics and ideology by exploring Chinese readings of Plato Aristotle Thucydides and other ancient writers She shows how Chinese thinkers have dramatically recast the Greek classics to support China s political agenda diagnose the ills of the West and assert the superiority of China s own Confucian classical tradition In a lively account that ranges from the Jesuits to Xi Jinping Bartsch traces how the fortunes of the Greek classics have changed in China since the seventeenth century Before the Tiananmen Square crackdown the

Chinese typically read Greek philosophy and political theory in order to promote democratic reform or discover the secrets of the success of Western democracy and science No longer Today many Chinese intellectuals use these texts to critique concepts such as democracy citizenship and rationality Plato s Noble Lie in which citizens are kept in their castes through deception is lauded Aristotle s Politics is seen as civic brainwashing and Thucydides s criticism of Athenian democracy is applied to modern America What do antiquity s dead white men have left to teach By uncovering the unusual ways Chinese thinkers are answering that question Plato Goes to China opens a surprising new window on China today **Maonomics** Loretta Napoleoni,2011-10-11 The end of the cold war was thought to signal the triumph of Western capitalism over Communism In Maonomics Why Chinese Communists Make Better Capitalists than We Do Napoleoni argues just the opposite what we are witnessing instead is the beginning of the collapse of capitalism and the victory of communism with a profit motive Maonomics charts the prodigious ascent of the Chinese economic miracle and the parallel course of the West s ongoing insistence on misconstruing China and its economy even as we acknowledge its growing influence and importance Maonomics is a warning call whereby Western governments can avoid economic collapse by learning how to understand more clearly what the lessons of the Chinese economy really are Based on first hand reporting from China during frequent visits in the last several years Maonomics lends credence to the Chinese view and translates it for Western readers For example the Chinese too are attached to their vision of democracy but it is different from ours It isn t focused as much on voting as it is economic opportunity and the fair distribution of wealth and prosperity Napoleoni also separates failed Leninist political ideology from true Marxist theory showing that Marx s writings do not reject profit so long as it is used to benefit the people Marx s dictatorship of the proletariat is being realized in China she argues where giant steps forward are being made in the name of progress and the wellbeing and prosperity of the Chinese people Looking at the Chinese economy up close any economist would be hard pressed to say that they are not on the right track Here Loretta Napoleoni offers a front row seat on the greatest show on earth the peaceful economic revolution that is shifting the balance of power in the world from West to East Reports and Documents United States. Congress,1964 **Political Science** Robert Bartlett Harmon,1972 The Politics of South African Cricket Jon Gemmell,2004-03-31 The Politics of South African Cricket analyses the relationship between politics and sport in particular cricket in South Africa South African Cricket embraces an ethos that is symbolic of a wider held belief system and as such has distinctive political connotations in the region Sport in South Africa is certainly influenced by forces beyond the playing field but politics too can be influenced by the social and economic force of sport Focusing on the sports boycott as a political strategy Jon Gemmell analyses the relationship between sport and politics through a historical analysis of South African cricket He employs case studies to explore the relationship between politics and South African cricket and argues convincingly that cricket assisted the reform process by undermining the legitimacy of the apartheid regime **Philosophy For Dummies** Martin Cohen,2012-01-24 Confused by metaphysics In
