

Political Responsibility Choices For The Future

Albena Azmanova, Mihaela Mihai

Political Responsibility Choices For The Future:

American Catholic Bishops and the Politics of Scandal Meaghan O'Keefe, 2019-04-18 This book explores the rhetoric and public communication of the Catholic Church in the United States in the wake of the sexual abuse scandals and offers a demonstration of how large organizations negotiate a loss of public trust while retaining political power While the Catholic Church remains a major political force in the United States recent scandals have undoubtedly had an adverse effect on both its reputation and moral authority This has been exacerbated by the public responses of Catholic clergy which have often left supporters of the Church let alone critics profoundly unsatisfied Drawing on documents voting guides pastoral letters sermons press releases and other materials issued by the United States Conference of Catholic Bishops USCCB as well as American nuns the book explores Catholic political statements issued after the sexual abuse crises entered the public consciousness Using approaches from linguistics and rhetoric it analyses how these statements compare to similar materials issued before this time This comparison demonstrates that for the American Catholic Church persuasion is less important than maintaining the impression that there has been no loss of authority This is a timely study of the Catholic Church's handling of the recent revelations of abuse within the Church As such it will be of keen interest to scholars of religious rhetoric contemporary Catholicism linguistics rhetoric communication and religious studies

Law's Virtues Cathleen Kaveny, 2012-09-20 Can the law promote moral values even in pluralistic societies such as the United States Drawing upon important federal legislation such as the Americans with Disabilities Act legal scholar and moral theologian Cathleen Kaveny argues that it can In conversation with thinkers as diverse as Thomas Aquinas Pope John Paul II and Joseph Raz she argues that the law rightly promotes the values of autonomy and solidarity At the same time she cautions that wise lawmakers will not enact mandates that are too far out of step with the lived moral values of the actual community According to Kaveny the law is best understood as a moral teacher encouraging people to act virtuously rather than a police officer requiring them to do so In *Law's Virtues* Kaveny expertly applies this theoretical framework to the controversial moral legal issues of abortion genetics and euthanasia In addition she proposes a moral analysis of the act of voting in dialogue with the election guides issued by the US bishops Moving beyond the culture wars this bold and provocative volume proposes a vision of the relationship of law and morality that is realistic without being relativistic and optimistic without being utopian

The Catholic Church, Morality, and Politics Charles E. Curran, Leslie Griffin, 2001 A collection of articles that looks at the interconnected relationships involving religion morality and public policy from a variety of opinions and voices

Political Responsibility for Climate Change Theresa Scavenius, 2019-08-08 This book offers new perspectives on how social and political institutions can respond more effectively to climate change Theresa Scavenius presents a concept of moral responsibility that does not address the obligations of individual citizens but instead assesses the moral responsibility of institutionalised actors such as governments parliaments and other governmental agencies This focus on political

responsibility is something that up until now has largely been neglected by moral theory but Scavenius argues in this book that accountability must be assigned to institutionalised group agents With this new research she outlines building blocks for a new agenda of climate studies by offering an innovative approach to climate governance and democratic climate action at a time when many political initiatives have failed and crucially outlines the necessity of approaching moral dilemmas from a fact sensitive political theoretical approach Written in a clear and engaging style this volume will be an invaluable reference for researchers interested in moral philosophy climate change environmental politics and policy and institutional theory

Weaving the American Catholic Tapestry Derek C. Hatch, Timothy R. Gabrielli, 2017-03-28 Concerned that American Catholic theology has struggled to find its own voice for much of its history William Portier has spent virtually his entire scholarly career recovering a usable past for Catholics on the U S landscape This work of ressourcement has stood at the intersection of several disciplines and has unlocked the beauty of American Catholic life and thought These essays which are offered in honor of Portier s life and work emerge from his vision for American Catholicism where Scripture tradition reason and experience are distinct but interwoven and inextricably linked with one another As this volume details such a path is not merely about scholarly endeavors but involves the pursuit of holiness in the real world **Betraying the Bishops** Matthew F. Murphy, 1987 The U S Catholic bishops 1983 pastoral The Challenge of Peace has two purposes to help form individual consciences and to offer moral guidance in a public policy debate The author concludes that the bishops need to exercise greater oversight to ensure that their pastoral teachings are being properly communicated *The Social Mission of the U.S. Catholic Church* Charles E. Curran, 2010-12-16 How does the Church function in the world What is it called to do and what does it actually do Charles E Curran explores the social mission of the U S Catholic Church from a theological perspective analyzing and assessing four aspects the importance of social mission who carries it out how it is carried out and the roles that the Church and individual Catholics play in supporting these efforts In the early and mid twentieth century the Catholic Church in the United States tended to focus its social mission on its own charities hospitals and schools But the Second Vatican Council called the Church to a new understanding of social mission deepening its involvement in and commitment to civic social and political life in the United States and abroad Curran devotes particular attention to three issues that have reflected the Church s strong sense of social mission since that time abortion war and peace and labor The Social Mission of the U S Catholic Church describes the proper role of bishops institutions and movements in the Church but insists that the primary role belongs to all the baptized members of the Church as they live out the social mission in their daily lives **The Routledge Handbook on Responsibility in International Relations** Hannes Hansen-Magnusson, Antje Vetterlein, 2021-07-29 What does responsibility mean in International Relations IR This handbook brings together cutting edge research on the critical debates about responsibility that are currently being undertaken in IR theory This handbook both reflects upon an emerging field based on an engagement in the most crucial theoretical debates and serves as a

foundational text by showing how deeply a discussion of responsibility is embedded in broader questions of IR theory and practice Contributions cover the way in which responsibility is theorized across different approaches in IR and relevant neighboring disciplines and demonstrate how responsibility matters in different policy fields of global governance Chapters with an empirical focus zoom in on particular actor constellations of emerging states international organizations political movements or corporations or address how responsibility matters in structuring the politics of global commons such as oceans resources or the Internet Providing a comprehensive overview of IR scholarship on responsibility this accessible and interdisciplinary text will be a valuable resource for scholars and students in many fields including IR international law political theory global ethics science and technology area studies development studies business ethics and environmental and security governance

Corporate Political Responsibility Thomas P. Lyon, 2023-11-30 Behind closed doors many large companies quietly use their political clout to influence public policy on social and environmental issues often in a negative direction This book seeks to create a new norm for responsible political behaviour by corporations It brings together leading scholars of corporate political responsibility with leading organizations that have been working to support companies in adopting more responsible political practices The contributors present new evidence on what motivates firms to become more responsible and how markets view corporate dark money spending They also explain how activists have pressed companies to play a more responsible role in politics With a particular focus on climate change and the important role of corporate lobbying in supporting or blocking climate policy this volume leads the way forward for researchers activists and citizens who seek a future in which corporate political influence is transparent accountable and responsible

Congressional Record United States. Congress, 1972 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873

Responsibility Ghassan Hage, Robyn Eckersley, 2012-08-01 The concept of responsibility permeates social life While it has many meanings they often centre around questions of practical and moral accountability culpability and liability One can learn a great deal about a social formation by looking at the way the meanings of responsibility are deployed within it the way they vary from one social space to another and the way they are often at the centre of a political struggle over how we define and apportion blame The essays in this book do more than examine such processes Each in its own way also invites the reader to push existing assumptions about what individual political ecological and corporate responsibility entails

Reclaiming Democracy Albena Azmanova, Mihaela Mihai, 2015-03-02 Democracy is in shambles economically and politically The recent economic meltdown in Europe and the U S has substituted democratic deliberation with technocratic decisions In Athens Madrid Lisbon New York Pittsburgh or Istanbul protesters have denounced the incapacity and

unwillingness of elected officials to heed to their voices While the diagnosis of our political economic illness has been established remedies are hard to come What can we do to restore our broken democracy Which modes of political participation are likely to have an impact And what are the loci of political innovation in the wake of the crisis It is with these questions that *Reclaiming Democracy* engages We argue that the managerial approach to solving the crisis violates a right to politics that is a right that our collective life be guided by meaningful politics by discussion of and decision among genuinely alternative principles and policies The contributors to this volume are united in their commitment to explore how and where this right can be affirmed in a way that resuscitates democracy in the wake of the crisis Mixing theoretical reflection and empirical analysis the book offers fresh insights into democracy's current conundrum and makes concrete proposals about how the right to politics can be protected

Ethics and Global Security Anthony Burke, Katrina Lee-Koo, Matt McDonald, 2014-06-27 This book will be the first systematic examination of the role that ethics plays in international security in both theory and practice and offers the reader a concrete ethics for global security Questions of morality and ethics have long been central to global security from the death camps world wars and H bombs of the 20th century to the humanitarian missions tsunamis terrorism and refugees of the 21st This book goes beyond the Just War tradition to demonstrate how ethical commitments influence security theory policy and international law across a range of pressing global challenges The book highlights how from patrolling a territorial border to maintaining armed forces security practices have important ethical implications by excluding some from consideration presenting others as potential threats and exposing them to harm and licensing particular actions While many scholars and practitioners of security claim little interest in ethics ethics clearly has an interest in them This innovative book extends the traditional agenda of war and peace to consider the ethics of force short of war such as sanctions deterrence terrorism targeted killing and torture and the ethical implications of new security concerns such as identity gender humanitarianism the responsibility to protect and the global ecology It advances a concrete ethics for an era of global threats and makes a case for a cosmopolitan approach to the theory and practice of security that could inspire a more just stable and inclusive global order This book fills an important gap in the literature and will be of much interest to students of ethics security studies and international relations

Restoring Responsibility Dennis Frank Thompson, 2005 Argues for a more robust conception of responsibility in public life than prevails in contemporary democracies

Feminists Contest Politics and Philosophy Lisa Nicole Gurley, Claudia Leeb, Anna Aloisia Moser, 2005 The color of the book's cover alludes to the time and context in which this important volume originated the 3rd Interdisciplinary Conference Celebrating International Women's Day at the New School for Social Research in New York City At that time orange alerts were issued by the United States to create a climate of fear and thereby stifle any critical debate of its foreign and domestic policy The feminist thinkers presented in this volume are alert that such a critique is needed They draw on the various languages of their fields to address wide ranging topics and key questions in feminist politics theory and philosophy

They all confront the state of urgency concerning the role of women in all classes of society in all fields of research and the academy This unique collection ranges across disciplines as such the four major topics aesthetics and female representation love and psychoanalysis care and ethics the different understandings of women represent current topics of cross disciplinary interest for Women s and Gender Studies Philosophy and Political Science **Catholic Bishops in American Politics**

Timothy A. Byrnes,2014-07-14 Over the past twenty years the American Catholic bishops have played a leading role in the antiabortion movement published lengthy and highly detailed pastoral letters on nuclear weapons and on the American economy and involved themselves collectively and individually in several national election campaigns What is the source of the sometimes controversial political role of these religious leaders Timothy Byrnes proposes a new answer in this lucid description of the National Conference of Catholic Bishops and its activities He demonstrates that the key to the political role of the bishops and other modern American religious leaders has been political change rather than religious revival Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Future of Christian Realism** Dallas Gingles,Joshua

Mauldin,Rebekah L. Miles,2023-04-15 In the world s most developed democracies anxiety about the future of democracy is palpable The tension between moral aspiration and moral despair has reached a point of crisis Christian realism arose during a similar time of crisis when Reinhold Niebuhr used the insights of the Christian tradition to interpret the clash between democracy and totalitarianism Beginning with Robin Lovin s account of Christian realism as a nuanced blend of theological moral and political realisms The Future of Christian Realism addresses fundamental topics in theology ethics and politics The contributors come from different traditions span five continents and together present a case for the continuing relevance of Christian realism By paying close attention to many of the most pressing moral challenges facing societies today the authors illustrate and evaluate the enduring relevance of Christian realism *Uses and Abuses of Forecasting* Tom

Whiston,1979-06-17 **Raymond Aron's Philosophy of Political Responsibility** Adair-Toteff Christopher Adair-Toteff,2019-02-20 Raymond Aron made major investigations into the dialectic between war and peace and also developed a sophisticated theory of international relations Despite this his body of work has been overlooked compared to that of his more famous contemporaries This book shines a light on both the man and his work on ideological critique the philosophy of history international relations and political economy The book also discusses Aron s political legacy and argues that a number of his critiques and theories can help us address many of the problems and conflicts of the 21st century

The Future of Social Care Peter Beresford,Colin Slasberg,2023-07-01 This is an open access title available under the

terms of a CC BY NC ND 4.0 License It is free to read download and share on Elgaronline.com Foreword by David Brindle In the face of major global demographic change social care policy and practice are in urgent need of radical reform and reassessment Rising poverty inequality and pressure on local communities internationally are also increasing the urgent need for reform Drawing on the crisis ridden UK experience as a case study this highly original book identifies the limits of the traditional welfare state in taking forward policy for the twenty first century The proposals amount to a renewed approach to social care based on the philosophy of independent living as originally developed by the international disabled people's movement and subsequently embodied in a United Nations treaty applicable to all in need of care and support Despite wide international sign up since adoption in 2008 there is little evidence of any nation successfully delivering For the first time this book offers both a blueprint for an environmentally sustainable rights based approach to social care and a practical route to achieving it

Yeah, reviewing a book **Political Responsibility Choices For The Future** could ensue your near links listings. This is just one of the solutions for you to be successful. As understood, ability does not suggest that you have wonderful points.

Comprehending as with ease as contract even more than further will pay for each success. bordering to, the pronouncement as well as perspicacity of this Political Responsibility Choices For The Future can be taken as well as picked to act.
